

I am requesting a variance in the minimum frontage requirement for Lot 1 thru 12 because

The Southeast Quarter of Section Thirty (30), Township Nine (9) North, Range One (1) West of the Indian Meridian, Cleveland County, Oklahoma, is a short section. The distance measured between the South Quarter Corner and the Southeast Section Corner is 2627.45 feet.

I, Troy Dee, state the above Survey to be a true and correct representation of said Survey to the best of my knowledge

Witness my hand and Land Surveyors seal this 2nd day of February 2019.

Troy Dee P.L.S. #1745
