Paul,

At the Norman Music Institute we usually use four or five parking spaces for staff during the day and we have about the same number of cars from our customers. After 6:30pm we may average a few more cars Monday thru Thursday. We have a student showcase one Saturday a month where there are more cars parked by the building for that afternoon. There are very few cars on weekends other than the one Saturday with the student showcase.

Fred Goff - Director
Norman Music Institute
