The parties acknowledge that reductions in service caused as a result of a decrease in staffing levels are possible and are outside the **University's** control, and the **University** shall not be liable for damages resulting from a reduction in service. In the event **University** becomes aware of circumstances beyond its control necessitating such reduction in service, **University** shall notify **City** as soon as practicably possible after it becomes aware of such circumstances and, to the extent possible, shall notify **City** prior to any such reduction.

University will exercise reasonable care for **City's** property entrusted to **University**. **University** and **City** agree that each will be responsible for their own acts and omissions subject to the provisions and limitations of the Oklahoma Governmental Tort Claims Act, 51 O.S. § 151, *et seq.*

City of Norman Service Scope of Work | July 1, 2019 - August 2, 2019

University will operate **City** public transit service as a contractor from July 1, 2019, through August 2, 2019, at \$70 per service hour. That is a turnkey cost that includes everything it takes to operate both CART city routes and CARTaccess based on normal hours of operation.

Services to be provided during the transition period include operating transportation service to the following routes. To the extent possible, **University** intends to operate service at the same level and frequency as it did prior to July 1, 2019.

- 10 – Main Street
- 11 – Lindsey East
- 12 – Lindsey West
- 20 – West Norman Link
- 21 – Alameda/E. Norman
- 24 – Sooner Express
- CARTaccess

Without further additional cost, **University** will also assist **City** in planning to assume operational duties itself or through a third party by:

- Designating a liaison who can, upon request, assist **City** or operator personnel with understanding the federal TRAMS system for grant administration;
- Designating a liaison to assist with **University**-related facility questions, should **City** desire to lease space on **University** property for public transit purposes; and
- Designating a liaison to assist **City** or operator personnel with route planning and coordination with campus shuttle service;
- Ensuring reasonable access to inventory and facilities as **City** finds necessary throughout the transition.
