

We, the undersigned, call on the City Of Norman zoning board and City Council to grant and allow for the I-1 Zoning Special Use as an accredited private school with childcare at the 2795 Broce location.

We understand that there are 7 other businesses serving young children and families in the small area in the vicinity of Interstate Drive and Tecumseh Road; in addition to a neighboring Skilled Nursing Center and Norman Regional Hospital Healthplex. We do not feel that this would be detrimental or have a negative impact. In fact, the proposed program will enhance the area and raise property values and tax revenue.

Further, we understand that the City of Norman has approved the use of child care programs that are not accredited private school programs in I-1 and I-2 locations. (Pumpkin Shell School at 1037 N. University Blvd. (I-1), Kidopolis Learning Center at 2932 W. Tecumseh Road (I-1) and Stepping Stones Learning Center at 2270 Industrial Blvd. (I-2)) To deny the Special Use of this program when it indeed meets the requirements of a private school and special use in a I-1 area is practicing deference of treatment of one business over another.
