Body

BACKGROUND: The City of Norman's Street and Drainage Maintenance Programs utilize on a frequent basis the following types of Portland Cement Concrete:

1. Class A Concrete is used in pavement slabs, sidewalks, retaining walls, culverts, and all areas where reinforced concrete is needed. Calcium is used as an accelerating admixture to increase the strength of the concrete more quickly during curing. It is used in cold weather application; however, it is not an anti-freezing agent.
2. High Early Strength (H.E.S.) Concrete is used for driveway and pavement replacement.
3. Fast Track Concrete is used for emergency panel replacement in high traffic areas; the PSI is 3000 on 8-hour strength test.
4. Grout Mix is used with riprap, for bedding drainage pipe, and stabilizing plastic Subgrade.
5. Flowable Fill is used as a liquid concrete mix in bedding and backfilling culvert pipe and storm sewers where 100% compaction is required.

Quantities of each material purchased annually will vary depending on individual project scopes for scheduled projects and unscheduled repairs and maintenance activities.

DISCUSSION: Bid information was sent to five (5) vendors and Bid No. 1213-13 opened on September 13, 2012, with four (4) vendors' bids received for Portland Cement Concrete. The price of concrete materials has decreased an average of 0.03% over the 2012 bid price. Funding for Portland Cement Concrete is provided in several maintenance and operation accounts in the General Fund and in the Force Drainage account in the Capital Fund. The purchase contract for the materials will be effective through October 31, 2013.

Funding for the materials is available in Account Numbers:

Street Division

Street/Sidewalk Materials (010-5021-431.32-15) - \$ 61,685

Concrete Materials (010-5021-431.33-01) - \$ 65,500

Storm Water Division

Street/Sidewalk Materials (010-5022-431.32-15) - \$ 40,000

Capital Improvement Projects FYE 2013

Force Account Drainage (050-9906-451.63-01) - \$ 105,000

RECOMMENDATION: Staff recommends Bid No. 1213-13 be awarded to the low bidder as shown above and in the attached bid tabulation. We further recommend that the bid also be awarded to a first alternate bidder and a second alternate bidder so that the material will be available when the primary bidder cannot deliver it.
