Re: Our Claim#: GC038415
DOL: 01/08/2015-Multiple Dates
Loss Location: Mardel #9, 2421 West Main Street, Norman, OK 73069

To Whom It May Concern:

We have completed our investigation into the above-captioned incident. After interviewing our store personnel at the Mardel in Norman, OK, and reviewing surveillance footage from outside of the store, it is confirmed that the damage to our building near our trash receptacle is being continuously caused by the operators of your commercial trash collection trucks. We have obtained an independent estimate for repairs to our building in the amount of \$9,506.06. I have attached the estimate, photos of the damage and photos from our surveillance camera for your review. The surveillance shows your truck operator improperly picking up the receptacle, causing it to shake and slam repeatedly against the back wall, causing damage to the building. If you dispute the claim at issue, please contact me at the undersigned. If you do not dispute the claim at issue, please remit payment to the following:

Please remit to:

RE: Policy: 00
Claim: GC038415
Insured: Mardel Bookstore
Loss: 1/8/2015 - WATER
Our File: 949-504-0198

REPORT

Inspection of damage to the building at Mardel Bookstore Located in Norman, OK. The building is in good condition. The damage is located at the rear of the building where a trash dumpster and compacter are located. It appears the trash dumpster was pushed into the building causing damage to the concrete block wall. The block wall has been broken over a large area requiring almost all the wall to need to be torn out and replaced. The wall is reinforced concrete block construction and painted. Inspection was made with H&H Masonry Contractors Mr. Craig Hillmeyer with agreed scope of damage and needed repairs. The damage covers an area of 18'x14' or approximately 250 sq ft. There is also a loading dock adjacent to the north corner of the wall that will require some R&I for the loading dock pad to come off for repairs. The estimate is to replace the damaged area not the entire wall. It is possible that once repairs start the area of needed repairs may increase due to the door located in the area of repair.

Thank you for choosing PDA of Oklahoma City to assist you on this claim. If you have any questions or need additional information please contact us at any time.

Sincerely,
Paul Shepherd, Property Damage Appraisers of Oklahoma City

Sincerely,

Paul Shepherd
