

TECHNOLOGY ASSURANCE PLAN

FOR TASER CEWs

WHAT IS TAP?

The Technology Assurance Plan (TAP) is a service plan that combines warranty coverage on your current handles with an automatic refresh unit every 5 years. Minimizing the chance an officer goes on duty without a Smart Weapon, TAP includes on-site spare units so your agency never has trouble keeping a handle in the holster, as well as an extended warranty at no additional cost through the life of the agreement. TAP allows you to protect your present and plan for your future.

WHO USES TAP?

Over 3,500 proactive agencies have purchased TAP as a way to maintain their TASER program in the most cost-effective way possible. TAP is quickly becoming the product planning tool of the future, and is helping agencies realize up to a 33% savings (**almost \$500 a weapon**) over the life of the contract. It allows you to buy life-saving devices as an operational line item rather than as a one-off capital expenditure.

HOW IT WORKS:

1. Purchase a set of Smart Weapons
2. Enroll in TAP
3. Make five equal, annual payments beginning in Year 1
4. Upgrade to all-new devices without cost at the end of Year 5
5. Optionally, re-enroll in TAP to lock in renewal-year prices

WHY USE TAP?

1. Free “No Questions Asked” warranty
2. Automatic refresh of units
3. On-site spares
4. Budget certainty
