Janay Greenlee	City of Norman Meeting Facilitator			405-366-5437
Terry Floyd	City of Norman Development Coordinator			405-366-5446

Application Summary. A Pre-Development meeting is required by the City of Norman Zoning Code to hold a public meeting for Rezoning and/or Special Use. The applicant seeks to rezone from R-1, Single Family Dwelling District to M-1, Restricted Industrial for the use of an existing electric substation and a proposed intra-company communication tower.

Applicant’s Opportunity. The addition of a new 60’ monopole tower for OG&E to be located within the existing substation for an intra-company communication tower. This will allow OG&E to remotely control and monitor the substation. The applicant stresses that this is not a cell tower and only accessible by OG&E for remote monitoring and controlling.

Neighbors’ Questions/Comments. There were no neighbors in attendance.
