

Horizontal Well Feasibility Analysis Phase 2: Field Assessment

Professional Engineering Scope of Services

Norman Utilities Authority

Metals	Anions	Cations	General
Antimony	Chloride	Sodium	pH
Arsenic	Fluoride	Total	Specific
Barium	Nitrite/Nitrate	Hardness	Conductance
Beryllium	Sulfate		Total Alkalinity
Bromide			Total Dissolved Solids
Cadmium			Turbidity
Calcium			
Chromium			
Copper			
Iron			
Lead			
Magnesium			
Manganese			
Mercury			
Nickel			
Potassium			
Selenium			
Thallium			
Uranium			
Zinc			

Radionuclides will be tested on an as needed basis, approved by the Owner, under a testing allowance.
