1 Executive Summary

1.1 Project Overview

The Statement of Work (SOW) documents the Project Scope, methodology, roles and responsibilities, implementation stages, and deliverables for the implementation of Tyler products.

The Project goals are to offer City of Norman the opportunity to make the City more accessible and responsive to external and internal customer needs and more efficient in its operations through:

- Streamlining, automating, and integrating business processes and practices
- Providing tools to produce and access information in a real-time environment
- Enabling and empowering users to become more efficient, productive and responsive
- Successfully overcoming current challenges and meeting future goals

1.2 Product Summary

Below, is a summary of the products included in this Project, as well as reference to the City’s functional area utilizing the Tyler product(s). Refer to the Implementation Stages section of this SOW for information containing detailed service components.

Phase	Functional Areas	Modules
1	Financials	<ul style="list-style-type: none"> • Accounting General Ledger • Bid Management • Budgeting • Accounts Payable • BMI Asset Track Interface • Capital Assets • Cash Management • Contract Management • Project & Grant Accounting • Purchase Orders • Requisitions • <i>eProcurement</i> • Accounts Receivable • General Billing • CAFR Statement Builder
	System Wide	<ul style="list-style-type: none"> • Munis Analytics & Reporting • Tyler Forms Processing • Tyler Content Manager Enterprise • Tyler Content Manager Self-Service (Enterprise Edition) • Tyler Content Manager Auto Indexing and Redaction (Enterprise Edition)
2	Human Capital Management	<ul style="list-style-type: none"> • Payroll w/Employee Self Service

		<ul style="list-style-type: none"> • Human Resources & Talent Management • Recruiting • Risk Management • Employee Expense Reimbursement
3	Work Orders	<ul style="list-style-type: none"> • Asset Maintenance • Standard Fuel Interface • Inventory

1.3 Project Timeline

The Project Timeline establishes a start and end date for each Stage of the Project. Developed during the Initiate & Plan Stage and revised as mutually agreed to, if needed, the timeline accounts for resource availability, business goals, size and complexity of the Project, and task duration requirements.

The target start and target go live month/year detailed below assumes an acceptance of the agreement by City Council on 12/19/2017.

Phase	Target Start	Target Go Live	Duration
1 – Financials	July 2018	July 2019	12 months
2 – Human Capital Management	August 2019	August 2020	12 months
3 – Work Orders	October 2020	May 2021	7 months

1.4 Project Methodology Overview

Tyler bases its implementation methodology on the Project Management Institute’s (PMI) Process Groups (Initiating, Planning, Executing, Monitoring & Controlling, and Closing). Using this model, Tyler developed a 6-stage process specifically designed to focus on critical project success measurement factors.

Tailored specifically for Tyler’s Public Sector clients, the project methodology contains Stage Acceptance Control Points throughout each Phase to ensure adherence to Scope, budget, timeline controls, effective communications, and quality standards. Clearly defined, the project methodology repeats consistently across Phases, and is scaled to meet the City’s complexity, and organizational needs.

2 Project Governance

The purpose of this section is to define the resources required to adequately establish the business needs, objectives, and priorities for the Project; communicate the goals to other project participants; and provide support and guidance to accomplish these goals. Project governance also defines the structure for issue escalation and resolution, Change Control review and authority, and organizational Change Management activities.

The preliminary governance structure establishes a clear escalation path when issues and risks require escalation above the Project Manager level. Further refinement of the governance structure, related processes, and specific roles and responsibilities occurs during the Initiate & Plan Stage.

The path below illustrates an overall team perspective where Tyler and the City collaborate to resolve project challenges according to defined escalation paths. In the event Project Managers do not possess authority to determine a solution, resolve an issue, or mitigate a risk, Tyler implementation management and the City steering committee become the escalation points to triage responses prior to escalation to the City and Tyler executive sponsors. As part of the escalation process, each project governance tier presents recommendations and supporting information to facilitate knowledge transfer and issue resolution. The City and Tyler executive sponsors serve as the final escalation point.

2.1 Client Governance

Depending on the City's organizational structure and size, the following governance roles may be filled by one or more people:

2.1.1 Client Project Manager

The City's Project Manager(s) coordinate project team members, subject matter experts, and the overall implementation schedule and serves as the primary point of contact with Tyler. The City Project Manager(s) will be responsible for reporting to the City steering committee and determining appropriate escalation points.

2.1.2 Steering Committee

The City steering committee understands and supports the cultural change necessary for the Project and fosters an appreciation of the Project's value throughout the organization. Oversees the City Project Manager(s) and the Project as a whole and through participation in regular internal meetings, the City steering committee remains updated on all project progress, project decisions, and achievement of project milestones. The City steering committee also provides support to the City Project Manager(s) by communicating the importance of the Project to all impacted departments. The City steering committee is responsible for ensuring the Project has appropriate resources, provides strategic direction to the project team, for making timely decisions on critical project issues or policy decisions. The City steering committee also serves as primary level of issue resolution for the Project.

2.1.3 Executive Sponsor(s)

The City's executive sponsor provides support to the Project by allocating resources, providing strategic direction, and communicating key issues about the Project and the Project's overall importance to the organization. When called upon, the executive sponsor also acts as the final authority on all escalated project issues. The executive sponsor engages in the Project, as needed, to provide necessary support, oversight, guidance, and escalation, but does not participate in day-to-day project activities. The executive sponsor empowers the City steering committee, Project Manager(s), and Functional Leads to make critical business decisions for the City.

2.2 Tyler Governance

2.2.1 Tyler Project Manager

The Tyler Project Manager(s) have direct involvement with the Project and coordinates Tyler project team members, subject matter experts, the overall implementation schedule, and serves as the primary point of contact with the City. As requested by the City, the Tyler Project Manager(s) provide regular updates to the City's steering committee and other Tyler governance members. The name(s) and contact information for this resource will be provided and available to the project team 30-45 days after contract signing.

2.2.2 Tyler Implementation Management

Tyler implementation management has indirect involvement with the Project and is part of the Tyler escalation process. Tyler Project Manager(s) consult implementation management on issues and outstanding decisions critical to the Project. Implementation management works toward a solution with the Tyler Project Manager(s) or with the City management, as appropriate. Tyler executive management is the escalation point for any issues not resolved at this level. The name(s) and contact information for this resource will be provided and available to the project team 30-45 days after contract signing.

2.2.3 Tyler Executive Management

Tyler executive management has indirect involvement with the Project and is part of the Tyler escalation process. This team member offers additional support to the project team and collaborates with other Tyler department managers, as needed, in order to escalate and facilitate implementation project tasks and decisions. The name(s) and contact information for this resource will be provided and available to the project team 30-45 days after contract signing.

2.3 Acceptance and Acknowledgment Process

For purposes of acceptance of the Solution (or portions thereof), the parties intend to use the following staged acceptance procedure. All timeframes specified in the following procedures may be overridden by the Project Schedule.

All written Deliverables and Control Points must be accepted or acknowledged following the process below. Acceptance requires a formal sign-off while acknowledgement may be provided without formal

sign-off at the time of delivery. Vendor is responsible for tracking status of each deliverable including but not limited to the date in which it was submitted to the Client and date returned. In the event of conflicts between Contract Documents and Application Software Documentation the Contract Documents will prevail.

The following process will be used for accepting or acknowledging written Deliverables and Control Points:

- The City shall have ten (10) business days from the date of delivery, or as otherwise mutually agreed upon by the parties in writing, to accept or acknowledge each Deliverable or Control Point. If the City does not provide acceptance or acknowledgement within ten (10) business days, or the otherwise agreed upon timeframe, not to be unreasonably withheld, Tyler deems the Deliverable or Control Point as accepted.
- If the City does not agree the particular Deliverable or Control Point meets requirements, the City shall notify Tyler Project Manager(s), in writing, with reasoning within ten (10) business days, or the otherwise agreed-upon timeframe, not to be unreasonably withheld, of receipt of the Deliverable.
- Tyler shall address any deficiencies and redeliver the Deliverable or Control Point. The City shall then have two (2) business days from receipt of the redelivered Deliverable or Control Point to accept or again submit written notification of reasons for rejecting the deliverable. If the City does not provide acceptance or acknowledgement within two (2) business days, or the otherwise agreed upon timeframe, not to be unreasonably withheld, Tyler deems the Deliverable or Control Point as accepted.
- **Vendor and Client each agrees to work diligently to achieve acceptance of Software Deliverable at the earliest possible date.**

Conditional Acceptance of Tyler Software:

Upon Tyler's notification to the City that one or more components of the Tyler Software, conversions, interfaces and modifications and other software deliverables defined in the Statement of Work ("Software Components") are ready for testing, the City will begin testing such Software Components in a non-production environment. The City will conduct those tests using the procedures and standards mutually agreed to in the User Acceptance Test Plan, as set forth in the Statement of Work, or such other standards as are mutually agreed upon in writing ("Acceptance Test Procedures"). The City will conduct the tests to determine whether each Software Component satisfies the Acceptance Test Procedures ("Pre-Live Testing"). The City will have forty-five (45) days to conduct Pre-Live Testing unless otherwise agreed to by the parties per the project plan and/or project schedule, beginning on the date Tyler notifies the City that the Software Component(s) is/are ready for testing. After that 45-day window has passed, the City will notify Tyler in writing if the Software Component(s) achieved "Conditional Acceptance." If the City determines that one or more Software Components cannot achieve Conditional Acceptance for failure to satisfy the Acceptance Test Procedures, the City will deliver to Tyler a description of the failures according to reporting procedures agreed to by both parties. Tyler will correct the failures in a timeframe mutually agreed to by the parties, the City's consent not to be unreasonably withheld, and the City may repeat the User Acceptance Test Procedures on the Software Component(s), repeating the process described above. This procedure shall continue

until Conditional Acceptance of all Software Components. In the event Tyler disagrees with the City's determination that a Software Component cannot achieve Conditional Acceptance, Tyler will note our dispute on the Issues Log and escalate the dispute accordingly, as set forth in the Statement of Work.

Final Acceptance of the Tyler Software:

Once Conditional Acceptance of each of the Software Components has occurred, and the Tyler Software has been placed in a live production environment, the City will operate the Tyler Software for a period of thirty (30) consecutive calendar days ("Live Testing"). During the Live Testing period, the City will notify Tyler of any new issues that are discovered where the Tyler Software does not comply with the Functional Requirements and upon verification of such Defects by Tyler, they will be added to the Punch List Issues along with the agreed schedule for resolution of such issue. Any new issue discovered during the Live Testing period that is causing an essential function of the Tyler Software to be inoperable without a mutually agreed to effective workaround must be resolved prior to "Final Acceptance", and will be considered a "Punch List Issue." At such time as all Punch List Issues that are designated as being resolved prior to Final Acceptance have been resolved, then the City will issue Final Acceptance. If a Punch List Issue that does not impair an essential function cannot reasonably be resolved within the Live Testing period, then Tyler will propose a schedule for the resolution of such issue for approval by the City, which approval will not be unreasonably withheld. Upon final agreement as to the schedule for resolving all Punch List Issues remaining at the end of the Live Testing period, the City will issue Final Acceptance. In the event Tyler and the City disagree on whether Punch List Issues have been resolved or require resolution prior to Final Acceptance, then either party may escalate the dispute accordingly, as set forth in the Statement of Work or the dispute resolution process set forth in this Agreement.

3 Overall Project Assumptions

3.1 Project, Resources and Scheduling

- Project activities will begin, as mutually agreed to, after the Agreement has been fully executed.
- The City and Tyler can allocate additional internal resources if needed. The City also ensures the alignment of their budget and Scope expectations.
- The City and Tyler ensure that the assigned resources are available, they buy-into the change process, and they possess the required business knowledge to complete their assigned tasks successfully. Should there be a change in resources, the replacement resource should have a comparable level of availability, buy-in, and knowledge.
- Tyler and the City provide adequate resources to support the efforts to complete the Project as scheduled and within the constraints of the project budget.
- Abbreviated timelines and overlapped Phases can result in project delays if there are not sufficient resources assigned to complete all required work as scheduled.
- Changes to Project Plan, availability of resources or changes in Scope may result in schedule delays, which may result in additional charges to the Project. If delays are caused by Tyler, the City would not incur additional charges.
- Tyler provides a written agenda and notice of any prerequisites to the City Project Manager(s) ten (10) business days prior to any scheduled on site or remote sessions.
- Tyler provides notice of any prerequisites to the City Project Manager(s) a minimum of ten (10) business days prior to any key deliverable due dates.
- City users complete prerequisites prior to applicable scheduled activities.
- Tyler provides guidance for configuration and processing options available within the Tyler software. The City is responsible for making decisions based on the options available.
- In the event the City may elect to add and/or modify current business policies during the course of this Project, such policy changes are solely the City's responsibility to define, document, and implement.
- The City makes timely Project related decisions in order to achieve scheduled due dates on tasks and prepare for subsequent training sessions. Decisions left unmade may affect the schedule, as each analysis and implementation session builds on the decisions made in prior sessions.
- Tyler considers additional services out of Scope and requires additional time and costs be requested via Change Request approved through the mutually agreed upon Change Control process.
- The City will respond to information requests in a comprehensive and timely manner, in accordance with the Project Plan.
- The detailed project plan/schedule is delivered within 30 days of conducting the project planning meeting(s). The Project Plan will contain:
 - Project's activities and tasks
 - Dates of project activities and tasks
 - Specific resources assigned to project tasks
 - Detailed Project schedule / Work Breakdown Structure (WBS) featuring phases, deliverables, and work packages

- Milestones and Deliverables
- Client Review Periods for Milestones and Deliverables
- Project Acceptance of Implementation Control Points
- Decisions will be made in a timely fashion in order to achieve scheduled due dates on tasks and prepare for subsequent training sessions. Decisions left unmade may affect the project schedule as each analysis and implementation session builds on the decisions made in prior sessions
- The project plan will be consistent with the SOW

3.2 Data Conversion

- The City is readily able to produce the needed data files from a static database for conversion from the Legacy System to provide them to Tyler on the specified due date(s). At the time the Legacy System data file is extracted, the City will produce reports and detail screen captures to reconcile the converted data.
- Each Legacy System data file submitted for conversion includes all associated records in a single approved file layout.
- The City will grant Tyler access to the Legacy System to assist with understanding data relationships to improve the accuracy and quality of the converted data.
- The City understands the Legacy System data file must be in the same format each time unless changes are mutually agreed upon in advance. If not, negative impacts to the schedule, budget, and resource availability may occur and/or data in the new system may be incorrect.
- During this process, the City may need to correct data scenarios in their Legacy System prior to the final data pull. This is a complex activity and requires due diligence by the City to ensure all data pulled includes all required data and the Tyler system contains properly mapped data.
- During Production Cutover, the City may need to manually add or correct data after data has been loaded into the production database as mutually agreed to prior to the load.
- See Section 7, Munis Conversion Summary, for data conversions in scope.

3.3 Data Exchanges, Modifications, Forms and Reports

- So long as the 3rd party system integrating with Tyler's system can use the existing formats/methods, then programming charges will not be required. However, if Tyler needs to change any of its formats to meet the needs of 3rd party products, the desired changes would follow the process outlined in the Scope/Contract Change Process.
- The 3rd party possesses the knowledge of how to program their portion of the interaction and understands how to manipulate the data received.
- Client is on a supported, compatible version of the 3rd party software or Tyler Standard Data Exchange tools may not be available.
- The City is willing to make reasonable business process changes rather than expecting the product to conform to every aspect of their current system/process.
- No modifications are stated in the contract. Any Modification requests not expressly stated in the contract are out of Scope. Modifications requested after contract signing have the potential to change cost, Scope, schedule, and production dates for project Phases. Modification requests not in Scope must follow the Project Change Control process.

- The City's testing environment contains the Tyler software version required for delivery of the Modification prior to the scheduled delivery date for testing
- The City is responsible for verifying the performance of the Modification as defined by the specification

3.4 Hardware and Software

- The version to be initially installed and implemented will be 2017.1, pending it meets the functional requirements from the RFP that were met by the version originally proposed (11.2) in the RFP response. The City would also like to see the release notes for 2017.1 to compare the differences from 11.2 and would like a demonstration of the software as well as customer contacts to conduct reference checks.
- The City will provide network access for Tyler modules, printers, and Internet access to all applicable City and Tyler project staff.
- The City has in place all hardware, software, and technical infrastructure necessary to support the Project.
- The City's system hardware and software meet Tyler standards to ensure sufficient speed and operability of Tyler software. Tyler will not support use of software if the City does not meet minimum standards of Tyler's published specifications.

3.5 Environments and Databases

- Tyler will establish three (3) software environments and three (3) databases for the Project. The environments will be production, train and test. Each environment will have a corresponding database named the same as the environments; production database, train database and test database
- The test environment will be used by Tyler to build the solution. Tyler will use the test database for testing and reviewing converted data. Tyler will also use the test database to present completed Deliverables to the City for acceptance. Once Deliverables have been accepted, they will be moved to the production and train environments
- The train database will be used by the City for reviewing the converted data, testing, and training
- At Production Cutover, the production database will be used for processing daily functions

3.6 Education

- Throughout the Project lifecycle, the City provides a training room for Tyler staff to transfer knowledge to the City's resources, for both onsite and remote sessions. The City will provide staff with a location to practice what they have learned without distraction. If Phases overlap, the City will provide multiple training facilities to allow for independent sessions scheduling without conflict.
- The training room is set up in a classroom setting. The City determines the number of workstations in the room. Tyler recommends every person attending a scheduled session with a Tyler Consultant or Trainer have their own workstation. However, Tyler requires there be no more than two (2) people at a given workstation.
- The City provides a workstation which connects to the Tyler system for the Tyler trainer conducting the session. The computer connects to a City provided projector, allowing all attendees the ability to actively engage in the training session.

- Tyler is responsible for providing formal training on all functional areas of the software to the City's designated Power Users. The City will designate up to fifteen (15) Power Users for any specific class. The Power Users will vary based on agenda topics and area of the assessment office that the class pertains to. Power Users will then be empowered with the knowledge to conduct training to City End Users. In addition, informal education will occur leading up to the formal training sessions. Every time Tyler resources work with City staff to demonstrate a specific function/feature/executable with the City is an opportunity to better understand and appreciate the Tyler solution
- Tyler will conduct one (1) formal training session for each of the functional areas of the software. The functional areas covered will allow the City to utilize the software. The City is responsible for assigning the appropriate Power Users to attend these sessions
- Tyler follows a train-the-trainer approach to allow City Power Users attending the sessions to disseminate the knowledge being learned during Tyler lead sessions to other City users
- Users performing User Acceptance Testing (UAT) have attended all applicable training sessions prior to performing UAT.

3.7 Assumption Mitigation

- In the event that any assumptions are not met or prove to be invalid the parties agree to work in good faith to mitigate any resulting issues

4 Implementation Stages

4.1 Work Breakdown Structure (WBS)

The Work Breakdown Structure (WBS) is a hierarchical representation of a Project or Stage broken down into smaller, more manageable components. The top-level components are called “Stages” and the second level components are called “work packages.” The work packages, shown below each Stage, contain the high-level work to be done. The detailed Project Plan, developed during Initiate & Plan and finalized during Assess & Define, will list the tasks to be completed within each work package. Each Stage ends with a “Control Point”, confirming the work performed during that Stage of the Project.

Exhibit E
Schedule 1

* - If included in project scope

4.2 Initiate & Plan (Stage 1)

The Initiate & Plan Stage creates a foundation for the Project through identification of City and Tyler Project management teams, development of implementation management plans, and the provision and discussion of system infrastructure requirements. City participation in gathering information is critical. Tyler Project management teams present initial plans to stakeholder teams at Stage end.

4.2.1 Tyler Internal Coordination & Planning

Prior to Project commencement, Tyler management staff assigns Project Manager(s). Tyler provides the City with initial Project documents used in gathering basic information, which aids in preliminary planning and scheduling. City participation in gathering requested information by provided deadlines ensures the Project moves forward in a timely fashion. Internally, the Tyler Project Manager(s) coordinate with Sales to ensure transfer of vital information from the sales process prior to scheduling a Project Planning Meeting with the City's team. During this step, Tyler will work with the Client to establish the date(s) for the Project/Phase Planning session.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 1	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
TASKS																				
Assign Tyler Project Manager	A	R	I						I											
Provide initial Project documents to Client	A	I	R						C			I								
Sales to Implementation knowledge transfer	A	I	R						C											
Internal planning and phase coordination		A	R						C											

4.2.2 System Infrastructure Planning

The City provides, purchases or acquires hardware according to hardware specifications provided by Tyler and ensures it is available at the City’s site. The City completes the system infrastructure audit, ensuring vital system infrastructure information is available to the Tyler implementation team, and verifies all hardware compatibility with Tyler solutions.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 1	Tyler Internal Coordination & Planning																			
	TYLER							CLIENT												
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Provide system hardware specifications			I					R	A			I						C		
Make hardware available for Installation			I					C				A						R		
Install system hardware, if applicable			I					C				A						R		
Complete system infrastructure audit			I					C				A						R		

4.2.3 Project/Phase Planning

Project and Phase planning provides an opportunity to review the contract, software, data conversions and services purchased, identify Applications to implement in each Phase (if applicable), and discuss implementation timeframes. The Tyler Project Manager(s) deliver an Implementation Management Plan, which is mutually agreeable by City and Tyler.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 1	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Perform Project/Phase Planning		A	R								I	C	C			I				
Deliver implementation management plan		A	R									C	C	I						

4.2.4 Project Schedule

Client and Tyler will mutually develop an initial Project schedule. The initial schedule includes, at minimum, enough detail to begin Project activities while the detailed Project Plan/schedule is being developed and refined. The detailed project plan/schedule is delivered within 30 days of conducting the project planning meeting(s).

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 1	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Develop initial Project schedule		A	R	I								C	I	I						
Deliver Project Plan and schedule for Project Phase		A	R	I						I	I	C	C	I	I	I				
Client reviews Project Plan & initial schedule				C						I	A	R	C	C		C				
Client approves Project Plan & initial schedule			I							I	A	R	C	C	I	I		I	I	I

4.2.5 Stakeholder Presentation

The SH Presentation follows the completion of the Planning Meeting(s) and finalized Implementation Management Plan. The Planning Meeting(s) will be scheduled to occur within 30-45 days of contract signing. The SH Presentation will follow.

City stakeholders join Tyler Project Management to communicate successful Project criteria, Project goals, Deliverables, a high-level milestone schedule, and roles and responsibilities of Project participants.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 1	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Present overview of Project Deliverables, project schedule and roles and responsibilities		A	R	I					I	I	I	C	I	I	I	I		I	I	I
Communicate successful Project criteria and goals			I						R	C	A	C	I	I	C	I	I			

4.2.6 Control Point 1: Initiate & Plan Stage Acceptance

Acceptance criteria for this Stage includes completion of all criteria listed below. Advancement to the Assess & Define Stage is dependent upon Tyler's receipt of the Stage Acceptance.

4.2.6.1 Initiate & Plan Stage Deliverables

- Implementation Management Plan
- ◻ Objective: Update and deliver baseline management plans to reflect the approach to the City's Project.
- Scope: The Implementation Management addresses how communication, quality control, risks/issues, resources and schedules, and Software Upgrades (if applicable) will be managed throughout the lifecycle of the Project.
- Acceptance criteria: City reviews and acknowledges Implementation Management Plan
- Detailed Project Plan/Schedule
- Objective: Provide a comprehensive list of tasks, timelines and assignments related to the Deliverables of the Project.
- Scope: Task list, assignments and due dates
- Acceptance criteria: City acceptance of schedule based on City resource availability and Project budget and goals.

4.2.6.2 Initiate & Plan Stage Acceptance Criteria

- Hardware Installed
- System infrastructure audit complete and verified
- Implementation Management Plan delivered
- Detailed Project Plan/Schedule delivered; dates confirmed
- ◻ Stakeholder Presentation complete

4.3 Assess & Define (Stage 2)

The primary objective of Assess & Define is to gather information about current City business processes and translate the material into future business processes using Tyler Applications. Tyler uses a variety of methods for obtaining the information, all requiring City collaboration. The City shall provide complete and accurate information to Tyler staff for analysis and understanding of current workflows and business processes.

4.3.1 Fundamentals Review

Fundamentals Review provides functional leads and Power Users an overall understanding of software capabilities prior to beginning current and future state analysis. The primary goal is to provide a basic understanding of system functionality, which provides a foundation for upcoming conversations regarding future state processing. Tyler utilizes a variety of methods for completing fundamentals training including the use of eLearning, videos, documentation, and walkthroughs.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 2	Tyler Internal Coordination & Planning																				
	TYLER								CLIENT												
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator	
Schedule fundamentals review & provide fundamentals materials & prerequisites, if applicable		A	R	I								C	I		I					I	
Complete fundamentals materials review and prerequisites				I								A	R		I					C	
Ensure all scheduled attendees are present				I	I						A	R	C		I						
Facilitate fundamentals review			A	R								I	I		I						

4.3.2 Current/Future State Analysis

City and Tyler evaluate current state processes, options within the new software, pros and cons of each option based on current or desired state, and make decisions about future state configuration and processing.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 2	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Provide Current/Future State analysis materials to the City, as applicable		A	R	I								C	I		I					
Conduct Current & Future State analysis			A	R								I	C	I	C					
Provide pros and cons of Tyler software options			A	R								I	C	I	C					
Make Future State Decisions according to due date in the Project Plan			I	I							C	A	R	I	C	I				
Record Future State decisions			A	R								I	C	I	C					

4.3.3 Data Conversion Planning & Mapping

This entails the activities performed to prepare to convert data from the City’s Legacy System Applications to the Tyler system. Tyler staff and the City work together to complete Data Mapping for each piece of data (as outlined in Section 7) from the Legacy System to a location in the Tyler system.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 2	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Review contracted data conversion(s) options			A	R	I							C	C		C				C	
Map data from Legacy System to Tyler system			A	C	R							A	C		C				R	
Pull conversion data extract			I		I							A	C		C				R	
Run balancing Reports for data pulled and provide to Tyler			I		I							A	C		R				I	
Review and approve initial data extract		A	I	C	R							I							I	
Correct issues with data extract, if needed			I	C	C							A	C		C				R	

4.3.4 Standard 3rd Party Data Exchange Planning

Standard Data Exchange tools are available to allow clients to get data in and out of the Tyler system with external systems. Data exchange tools can take the form of Imports and Exports, and Interfaces.

A Standard Interface is a real-time or automated exchange of data between two systems. This could be done programmatically or through an API. It is Tyler’s responsibility to ensure the Tyler programs operate correctly. It is the City’s responsibility to ensure the third-party program operates or accesses the data correctly.

The City and Tyler Project Manager(s) will work together to define/confirm which Data Exchanges are needed (if not outlined in the Agreement). Tyler will provide a file layout for each Standard Data Exchange.

The following interfaces are in the scope of this project:

- AP/PR Check Recon Import
- AP Positive Pay Export Format

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 2	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Review Standard or contracted Data Exchanges			A	R								C	I		I				C	
Define or confirm needed Data Exchanges			I	C								A	C		C				R	

4.3.5 Customization Analysis & Specification, if contracted

Tyler staff conducts additional analysis and develops specifications based on information discovered during this Stage and the functional requirements in Exhibit I. The City reviews the specifications and confirms they meet City’s needs prior to acceptance. Out of Scope items or changes to specifications after acceptance may require a Change Request.

Tyler’s intention is to minimize Customizations by using Standard functionality within the Application, which may require a City business process change. It is the responsibility of the City to detail all of their needs during the Assess and Define Stage. Tyler will write up specifications (for City approval) for contracted program Customizations. Upon approval, Tyler will make the agreed upon Customizations to the respective program(s). Once the Customizations have been delivered, the City will test and approve those changes during the Build and Validate Stage.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 2	Tyler Internal Coordination & Planning																				
TASKS	TYLER								CLIENT												
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator	
Analyze contracted custom program requirements			A	C			R					C	C	I	C				C		
Develop specification document(s)	A		I	C			R					I	I		I				I		
Review specification document(s); provide changes to Tyler, if applicable			I	C			C					A	R	I	C				C		
Sign-off on specification document(s) and authorize work			I				I				A	R	C	I	I				C		

4.3.6 Forms & Reports Planning

City and Tyler Project Manager(s) review Forms and Reporting needs. Items that are included in the Agreement are Standard Forms and Reports. Items not included in the Agreement are any newly discovered Customizations that will require a Change Request.

The following Tyler Forms Libraries are in the scope of this project. Tyler’s Form Library prices are based on delivering the specific form quantities listed below. Additional formats of forms listed below are extra. Please note that Tyler Forms requires the use of approved printers only.

- Financial Library includes: 1 A/P Check, 1 EFT/ACH, 1 Purchase Order, 1099M, 1099INT, 1099S and 1099G.
- General Billing Library includes: 1 Invoice, 1 Statement, 1 General Billing Receipt and 1 Miscellaneous Receipt.
- Payroll Library includes: 1 Payroll Check, 1 Direct Deposit, 1 Vendor from Payroll Check, 1 Vendor from Payroll Direct Deposit, W2, W2c, 1099R, 1095B and 1095C.
- Personnel Action Library includes: 1 Personnel Action form for new hires and 1 Personnel Action form for employee changes.
- Work Order/Pick Ticket Library includes: 4 (Total) Designs of Any Combination – Work Order and/or Pick Tickets

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 2	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Review required Forms output			A	R								C	I	C				I		
Review and complete Forms options and submit to Tyler			I			I					A	R		C						
Review in Scope Reports			A	R							I	C		C						
Identify additional Report needs			I	C							A	R		C						
Add applicable tasks to Project schedule	A	R	I			C					C	I		I				I		

4.3.7 System Deployment

The Tyler Technical Services team installs Tyler Applications on the server (hosted or client-based) and ensures the platform operates as expected.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 2	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
TASKS																				
Install contracted software on server	A		I					R											C	
Ensure platform operates as expected	A		I					R											C	

4.3.8 Control Point 2: Assess & Define Stage Acceptance

Acceptance criteria for this Stage includes completion of all criteria listed below. Advancement to the Build & Validate Stage is dependent upon Tyler's receipt of the Stage Acceptance.

4.3.8.1 Assess & Define Stage Deliverables

- Completed analysis Questionnaire
 - Objective: Gather and document information related to City business processes for current/future state analysis as it relates to Tyler approach/solution.
 - Scope: Provide comprehensive answers to all questions on Questionnaire(s).
 - Acceptance criteria: City acceptance of completed Questionnaire based on thoroughness of capturing all City business practices to be achieved through Tyler solution.
- Data conversion summary and specification documents
 - Objective: Define data conversion approach and strategy
 - Scope: Data conversion approach defined, data extract strategy, conversion and reconciliation strategy.
 - Acceptance criteria: Data conversion document(s) delivered to the City, reflecting complete and accurate conversion decisions.
- Customization specification documents, if contracted
 - Objective: Provide comprehensive outline of identified gaps, and how the custom program meets the City's needs
 - Scope: Design solution for Customization
 - Acceptance criteria: City accepts Custom Specification Document(s) and agrees that the proposed solution meets their requirements
- Completed Forms options and/or packages
 - Objective: Provide specifications for each City in Scope form, Report and output requirements
 - Scope: Complete Forms package(s) included in agreement and identify Reporting needs.
 - Acceptance criteria: Identify Forms choices and receive supporting documentation
- Installation checklist
 - Objective: Installation of purchased Tyler software
 - Scope: Tyler will conduct an initial coordination call, perform an installation of the software included in the Agreement, conduct follow up to ensure all tasks are complete, and complete server system administration training, unless the City is hosted.
 - Acceptance criteria: Tyler software is successfully installed and available to authorized users, City team members are trained on applicable system administration tasks.

4.3.8.2 Assess & Define Stage Acceptance Criteria

- Tyler software is installed
- Fundamentals review is complete
- Required Form information complete and provided to Tyler

Exhibit E
Schedule 1

- Current/Future state analysis completed; Questionnaires delivered and reviewed
- Data conversion mapping and extractions completed and provided to Tyler

4.4 Build & Validate (Stage 3)

The objective of the Build & Validate Stage is to prepare the software for use in accordance with the City's needs identified during the Assess and Define Stage, preparing the City for Final Testing and Training.

4.4.1 Configuration & Power User Training

Tyler staff collaborates with the City to complete software configuration based on the outputs of the future state analysis performed during the Assess and Define Stage. Tyler staff will train the City Power Users to prepare them for the Validation of the software. The City collaborates with Tyler staff iteratively to Validate software configuration.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 3	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Perform configuration			A	R								I	R		I					
Power User process and Validation training			A	R								I	C	I	C					I
Validate configuration			I	C								A	C		R				C	

4.4.2 Data Conversion & Validation

Tyler completes an initial review of the converted data for errors. With assistance from the City, the Tyler Data Conversion Team addresses items within the conversion program to provide the most efficient data conversion possible. With guidance from Tyler, the City reviews specific data elements within the system and identifies and Reports discrepancies in writing. Iteratively, Tyler collaborates with the City to address conversion discrepancies prior to acceptance.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 3	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Write and run data conversion program against Client data		A	I	C	R														C	
Complete initial review of data errors		A	I	C	R							I	I						C	
Review data conversion and submit needed corrections			I	C	I							A	C		R				C	
Revise conversion program(s) to correct error(s)		A	I	C	R							I	I		C				C	

4.4.3 Standard 3rd Party Data Exchange Validation

Tyler provides training on Data Exchange(s) and the City tests each Data Exchange.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 3	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Train Data Exchange(s) processing in Tyler software			A	R								C	I	I	I			C	I	
Coordinate 3 rd Party Data Exchange activities			I	I								A	C		C			R		
Test all Standard 3 rd party Data Exchange(s)			I	C								A	C	I	R			C		

4.4.4 Customization Delivery & Validation, if contracted

Tyler delivers in Scope Customization(s) to the City for preliminary testing. Final acceptance will occur during the Final Testing and Training Stage.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 3	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
TASKS																				
Develop and deliver contracted custom program(s)	A	I	C	I		R					I	C	I	C				I		C
Test contracted custom program(s) in isolated database			I	C			C					A	C		R				C	
Report discrepancies between specification and delivered contracted custom program(s)			I	I			I					A	R		C				C	
Make corrections to contracted custom program(s) as required	A	I	C	I		R						I	C		C				I	

4.4.5 Forms & Reports Validation

Tyler provides training on Standard Forms/Reports and the City tests each Standard Form/Report.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 3	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Standard Forms & Report Training			A	R								I	C		C			I		
Test Standard Forms & Reports			I	C		C						A	C		R			C		

4.4.6 Control Point 3: Build & Validate Stage Acceptance

Acceptance criteria for this Stage includes all criteria listed below. Advancement to the Final Testing & Training Stage is dependent upon Tyler's receipt of the Stage Acceptance.

4.4.6.1 Build & Validate Stage Deliverables

- Initial data conversion
 - Objective: Convert Legacy System data into Tyler system
 - Scope: Data conversion program complete; deliver converted data for review
 - Acceptance criteria: Initial error log available for review
- Data conversion verification document
 - Objective: Provide instructions to the City to verify converted data for accuracy
 - Scope: Provide self-guided instructions to verify specific data components in Tyler system
 - Acceptance criteria: City accepts data conversion delivery; City completes data issues log
- Installation of Customizations on the City's server(s) *except for hosted Clients
 - Objective: Deliver Customization(s) in Tyler software
 - Scope: Program for Customization is complete and available in Tyler software, Customization testing
 - Acceptance criteria: Delivery of Customization(s) results in objectives described in the City-signed specification.
- Standard Forms & Reports Delivered
 - Objective: Provide Standard Forms & Reports for review
 - Scope: Installation of all Standard Forms & Reports included in the Agreement
 - Acceptance criteria: Standard Forms & Reports available in Tyler software for testing in Stage 4

4.4.6.2 Build & Validate Stage Acceptance Criteria

- Application configuration completed
- Standard Forms & Reports delivered and available for testing in Stage 4
- Data conversions (except final pass) delivered
- Standard 3rd party Data Exchange training provided
- Customizations delivered and available for testing in Stage 4
- The City and Tyler have done a review of primary configuration areas to Validate completeness and readiness for testing and acceptance in Stage 4.

4.5 Final Testing & Training (Stage 4)

During Final Testing and Training, Tyler and the City review the final Cutover plan. A critical Project success factor is the City understanding the importance of Final Testing and Training and dedicating the resources required for testing and training efforts to ensure a successful Production Cutover.

4.5.1 Cutover Planning

City and Tyler Project Manager(s) discuss final preparations and critical dates for Production Cutover. Tyler delivers a Production Cutover Checklist to outline Cutover tasks to help prepare the City for success.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 4	Tyler Internal Coordination & Planning																			
TASKS	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Cutover Planning Session		A	R	C						I	I	C	C	C	C			C	C	
Develop Production Cutover Checklist		A	R	C						I	I	C	C	I	I			C		

4.5.2 User Acceptance Testing (UAT)

The City performs User Acceptance Testing (Conditional Acceptance) to verify software readiness for day-to-day business processing. Tyler provides a Test Plan for users to follow to ensure proper Validation of the system.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 4	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
TASKS																				
Deliver Test Plan for User Acceptance Testing		A	R	C							I	I								
Perform User Acceptance Testing			I	C						A	R	C	C	C	I	I	C	I		
Accept custom program(s), if applicable			I	I		I				A	R	C	I	C			C			
Validate Report performance			I	C		C					A	C		R			C			

4.5.3 End User Training

End Users attend training sessions to learn how to utilize Tyler software. Training focuses primarily on day-to-day City processes that will be delivered via group training, webinar, eLearnings and/or live training sessions.

Unless stated otherwise in the Agreement, Tyler provides one occurrence of each scheduled training or implementation topic with up to the maximum number of users as defined in the Agreement, or as otherwise mutually agreed. City users who attended the Tyler sessions may train any City users not able to attend the Tyler sessions or additional sessions may be contracted at the applicable rates for training.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 4	Tyler Internal Coordination & Planning																			
	TYLER								CLIENT											
TASKS	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Conduct user training sessions			A	R								C	I		I	I		I	I	
Conduct additional End User training sessions			I								I	A	C	I	R	I	I	I	I	

4.5.4 Control Point 4: Final Testing & Training Stage Acceptance

Acceptance criteria for this Stage includes all criteria listed below. Advancement to the Production Cutover Stage is dependent upon Tyler's receipt of the Stage Acceptance.

4.5.4.1 Final Testing & Training Stage Deliverables

- Production Cutover checklist
 - Objective: Provide a detailed checklist outlining tasks necessary for production Cutover
 - Scope: Dates for final conversion, date(s) to cease system processing in Legacy System, date(s) for first processing in Tyler system, contingency plan for processing
 - Acceptance criteria: Definition of all pre-production tasks, assignment of owners and establishment of due dates
- User Acceptance Test Plan (Conditional Acceptance)
 - Objective: Provide testing steps to guide users through testing business processes in Tyler software.
 - Scope: Testing steps for Standard business processes.
 - Acceptance criteria: Testing steps have been provided for Standard business processes.

4.5.4.2 Final Testing & Training Stage Acceptance Criteria

- Production Cutover Checklist delivered and reviewed
- Customization(s) tested and accepted, if applicable
- Standard 3rd party Data Exchange programs tested and accepted
- Standard Forms & Reports tested and accepted
- User acceptance testing completed, City grants conditional acceptance
- End User training completed

4.6 Production Cutover (Stage 5)

City and Tyler resources complete tasks as outlined in the Production Cutover Plan and the City begins processing day-to-day business transactions in the Tyler software. Following production Cutover, the City transitions to the Tyler support team for ongoing support of the Application.

4.6.1 Final Data Conversion, if applicable

The City provides final data extract and Reports from the Legacy System for data conversion and Tyler executes final data conversion. The City may need to manually enter into the Tyler system any data added to the Legacy System after final data extract.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 5	Tyler Internal Coordination & Planning																			
TASKS	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Provide final data extract			C		I						I	A	C	I	I	I	I	R		
Provide final extract balancing Reports			I		I							A	C		R			I		
Convert and deliver final pass of data		A	I	I	R						I	I	I	I				C		
Validate final pass of data			I	C	C						I	A	C		R			C		
Load final conversion pass to Production environment			I		I						I	A	C	I	C			R		

4.6.2 Production Processing & Assistance

Tyler staff collaborates with the City during Production Cutover activities. The City transitions to Tyler software for day-to day business processing.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

STAGE 5	Tyler Internal Coordination & Planning																			
TASKS	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Production processing			C	C						I	I	A	R	R	R	R	R	R	I	I
Provide production assistance			A	R				C				I	C	C	C	C	C	C		

4.6.3 Transition to Tyler Support

Tyler Project Manager(s) introduce the City to the Tyler Support team, who provides the City with day-to-day assistance following Production Cutover.

RACI MATRIX KEY: **R** = Responsible **A** = Accountable **C** = Consulted **I** = Informed

STAGE 5	Tyler Internal Coordination & Planning																			
TASKS	TYLER								CLIENT											
	Tyler Executive Manager	Tyler Implementation Manager	Tyler Project Manager	Tyler Implementation Consultant	Tyler Data Conversion Experts	Tyler Forms & Reports Experts	Tyler Customization Programmers	Tyler Technical Support	Tyler Sales	Client Executive Sponsor	Client Steering Committee	Client Project Manager	Client Functional Leads	Client Change Management Leads	Client Power Users	Client Department Heads	Client End Users	Client Technical Leads	Client Project Toolset Coordinator	Client Upgrade Coordinator
Develop internal support plan			I								A	R	C	C	C	C		C	C	C
Conduct transfer to Support meeting	A	I	C					R				C	C	C	C	I	I	C	I	I

4.6.4 Schedule Post-Production Services, if applicable

Tyler provides post-production services if included in the Agreement. Prior to scheduling services, the Tyler Project Manager(s) collaborate with City Project Manager(s) to identify needs.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

4.6.5 Control Point 5: Production Cutover Stage Acceptance

Acceptance criteria for this Stage includes all criteria listed below. Advancement to the Phase/Project Closure Stage is dependent upon Tyler's receipt of this Stage Acceptance.

4.6.5.1 Production Cutover Stage Deliverables

- Final data conversion, if applicable
- Objective: Ensure (in Scope) Legacy System data is available in Tyler software in preparation for production processing.
- Scope: Final passes of all conversions completed in this Phase
- Acceptance criteria: Data is available in production environment
- Support transition documents
 - Objective: Define strategy for on-going Tyler support
 - Scope: Define support strategy for day-to-day processing, conference call with City Project Manager(s) and Tyler support team, define roles and responsibilities, define methods for contacting support
 - Acceptance criteria: The City receives tools to contact support and understands proper support procedures.

4.6.5.2 Production Cutover Stage Acceptance Criteria

- Final data conversion(s) delivered
- Processing is being done in Tyler production
- Transition to Tyler support is completed
- Post-live services have been scheduled, if applicable

4.7 Phase/Project Closure (Stage 6)

Project or Phase closure signifies full implementation of all products purchased and encompassed in the Phase or Project. The City moves into the next cycle of their relationship with Tyler (next Phase of implementation or long-term relationship with Tyler Support).

4.7.1 Close Phase/Project

The City and Tyler Project Manager(s) review the list of outstanding Project activities and develop a plan to address them. The Tyler Project Manager(s) review the Project budget and status of each contract Deliverable with the City Project Manager(s) prior to closing the Phase or Project.

RACI MATRIX KEY: R = Responsible A = Accountable C = Consulted I = Informed

Review Project budget and status of contract Deliverables		A	R						I	I	C									

4.7.2 Control Point 6: Phase/Project Closure Stage Acceptance

Acceptance criteria for this Stage includes all criteria listed below. This is the **final acceptance** for the Phase/Project.

4.7.2.1 Phase/Project Closure Stage Deliverables

- Phase/Project reconciliation report
 - Objective: Provide comparison of contract Scope and Project budget
 - Scope: Contract Scope versus actual, analysis of services provided and remaining budget, identify any necessary Change Requests or Project activity.
 - Acceptance criteria: Acceptance of services and budget analysis and plan for changes, if needed.

4.7.2.2 Phase/Project Closure Stage Acceptance Criteria

- Outstanding Phase or Project activities have been documented and assigned
- Phase/final Project budget has been reconciled
- Tyler Deliverables for the Phase/Project are complete

5 Roles and Responsibilities

5.1 Tyler Roles and Responsibilities

Tyler assigns Project Manager(s) prior to the start of each Phase of the project. The Project Manager assigns additional Tyler resources as the schedule develops and as needs arise. One person may fill multiple project roles.

5.1.1 Tyler Executive Management

- Provides clear direction for Tyler staff on executing on the project deliverables to align with satisfying the City's overall organizational strategy
- Authorizes required project resources
- Resolves all decisions and/or issues not resolved at the implementation management level as part of the escalation process
- Offers additional support to the project team and is able to work with other Tyler department managers in order to escalate and facilitate implementation project tasks and decisions
- Acts as the counterpart to the City's executive sponsor

5.1.2 Tyler Implementation Management

- Acts as the counterpart to the City steering committee.
- Assigns initial Tyler project personnel
- Works to resolve all decisions and/or issues not resolved at the project Management level as part of the escalation process
- Attends City steering committee meetings as necessary
- Provides support for the project team
- Provides management support for the project to ensure it is staffed appropriately and staff have necessary resources
- Monitors project progress including progress towards agreed upon goals and objectives

5.1.3 Tyler Project Manager

The Tyler Project Manager(s) provides oversight of the project, coordination of resources between departments, management of the project budget and schedule, effective risk and issue management, and is the primary point of contact for all project related items.

- Contract Management
 - Validates contract compliance throughout the project
 - Ensures Deliverables meet contract requirements
 - Acts as primary point of contact for all contract and invoicing questions
 - Prepares and presents contract milestone sign-offs for acceptance by City Project Manager(s)
 - Coordinates Change Requests, if needed, to ensure proper Scope and budgetary compliance
- Planning

- Update and deliver Implementation Management Plan
- Defines project tasks and resource requirements
- Develops initial project schedule and full scale Project Plan. Project plan will incorporate Tyler, City, and shared tasks.
- Manages Project Plan (edits, updates, etc.) as necessary as part of regularly scheduled status meetings with City Project Manager(s)
- Collaborates with City Project Manager(s) to plan and schedule project timelines to achieve on-time implementation

Provide a SharePoint site that will serve as the primary collaboration tool for use on the project. The SharePoint site will contain the project plan, all Tyler project documents, any Client project documents, any deliverables, sign offs, change orders or other documents that will be shared with the project team.

- Implementation Management

- Tightly manages Scope and budget of project; establishes process and approval matrix with the City to ensure Scope changes and budget planned versus actual are transparent and handled effectively and efficiently
- Establishes and manages a schedule and resource plan that properly supports the project Plan that is also in balance with Scope/budget
- Establishes risk/issue tracking/reporting process between the City and Tyler and takes all necessary steps to proactively manage/mitigate these items or communicates with transparency to the City any items that may negatively impact the outcomes of the project
- Collaborates with the City's Project Manager(s) to establish key business drivers and success indicators that will help to govern project activities and key decisions to ensure a quality outcome of the project
- Monitors project quality
- Sets a routine communication plan that will aide all project team members, of both the City and Tyler, in understanding the goals, objectives, current status and health of the project
- Project Status Meetings – Prepares meeting agenda, prepares project status report, facilitates meeting.
- Project Status Reports – Tyler will prepare project status reports every month throughout the project. Project reports are intended for the Client Executive Sponsor, Client Steering Committee, Tyler Executive Oversight, and Tyler Regional Manager and provide the following key elements:

- Project Status
- Summary of accomplishments
- Status of key milestones and deliverables
- Upcoming tasks and schedule
- Assist with Identification Issues/Risks (including issues/risk that may impact project goals)
- Planned risk mitigation strategy
- Summary of change requests.

- Team Management

- Acts as liaison between project team and Tyler manager(s)
- Identifies and coordinates all Tyler resources across all modules, Phases, and activities including development, conversions, forms, installation, reports, implementation, and billing

- Provides direction and support to project team
- Builds partnerships among the various stakeholders, negotiating authority to move the project forward
- Manages the appropriate assignment and timely completion of tasks as defined in the project Plan, task list, and Production Cutover checklist
- Assesses team performance and adjusts as necessary
- Interfaces closely with Tyler developers to coordinate program Modification activities
- Coordinates, along with the City, with in Scope 3rd party providers to align activities with ongoing project tasks

5.1.4 Tyler Implementation Consultants

5.1.4.1 Tyler Implementation Consultants – Assess & Define (Stage 2)

- Possesses both a broad and deep understanding of the functionality within Tyler software products for his/her functional area(s)
- Provides confident recommendations regarding configuration decisions and business process best practices using Tyler's products based on his/her experience and expertise implementing Tyler software products with similar organizations
- Provides conversion consulting and mapping assistance
- Follows up on issues identified during sessions
- Documents activities for onsite services
- Clearly documents homework tasks with specific due dates and owners, supporting and reconciling with the final Project schedule
- Keeps Tyler project manager(s) proactively apprised of any and all issues which may result in the need for additional training needs, change in schedule, change in process decisions, or which have the potential to adversely impact the success of the Project prior to taking action

5.1.4.2 Tyler Implementation Consultants – Build & Validate (Stage 3), Final Testing & Training (Stage 4), Production Cutover (Stage 5)

- Completes tasks as assigned by the Tyler Project Manager(s)
- Performs problem solving and troubleshooting
- Follows up on issues identified during sessions
- Documents activities for on site services performed by Tyler (Site Report)
- Provides conversion Validation and error resolution assistance
- Recommends guidance for testing Forms and Reports
- Tests software functionality with the City following configuration
- Assists during Production Cutover process and provides production support until the City transitions to Tyler Support
- Provides product related education
- Effectively facilitates training sessions and discussions with City and Tyler staff to ensure adequate discussion of the appropriate agenda topics during the allotted time
- Conducts training (configuration, process, conversion Validation) for Power Users and the City's designated trainers for End Users
- Clearly documents homework tasks with specific due dates and owners, supporting and reconciling with the final project plan

- Keeps Tyler Project Manager(s) proactively apprised of any and all issues which may result in the need for additional training, change in schedule, change in process decisions, or which have the potential to adversely impact the success of the project prior to taking action

5.1.5 Tyler Sales

- Provide Sales background information to Implementation during Project Initiation
- Support Sales transition to Implementation
- Provide historical information, as needed, throughout implementation

5.1.6 Tyler Software Support

- Manages incoming client issues via phone, email, and online customer incident portal
- Documents and prioritizes issues in Tyler's Customer Relationship Management (CRM) system
- Provides issue analysis and general product guidance
- Tracks issues and tickets to timely and effective resolution
- Identifies options for resolving reported issues
- Reports and escalates defects to Tyler Development
- Communicates with the City on the status and resolution of reported issues

5.1.7 Tyler Systems Management Services

- Manages incoming City issues via phone, email, online customer incident portal, and from Software Support
- Provides system support including remote support of City systems, operating systems, network and local printing, and SQL assistance for the systems and platform directly attributable to the Tyler Applications
- Tracks issues and tickets to timely and effective resolution
- Determine root cause and provide solutions or provide direction/escalation to Tyler Development
- Consult on pre-sales in regards to system requirements
- Troubleshoot server and workstation issues
- Migrate Tyler Applications and databases to new hardware
- Maintain systems and provide Database and Server Administration
- Provide proactive monitoring of Tyler Application/DB server(s)
- Perform server transfers, database analysis, file system cleanup, and backup verification.
- Assists with database refreshes, LDAP synchronization, and loading releases

5.1.8 Tyler Disaster Recovery Support

- Conduct and monitor nightly backups of City databases at hosting facility, transfer nightly backups to Tylers data center.
- Provides services to host Application in the event of a disaster
- Provides 24 hour RPO – Recover Point Objective
- Provides emergency response within 2 business hours
- Ensure Tyler Application availability within 8 business hours
- Provide one annual disaster planning walkthrough

5.2 City Roles and Responsibilities

City resources will be assigned prior to the start of each Phase of the project. One person may be assigned to multiple project roles.

5.2.1 City Executive Sponsor

- Provides clear direction for the Project and how the Project applies to the organization's overall strategy
- Champions the project at the executive level to secure buy-in
 - Authorizes required project resources
 - Resolves all decisions and/or issues not resolved at the City steering committee level as part of the escalation process
 - Actively participates in organizational change communications

5.2.2 City Steering Committee

- Works to resolve all decisions and/or issues not resolved at the Project Manager level as part of the escalation process
- Attends all scheduled steering committee meetings
- Provides support for the project team
- Assists with communicating key project messages throughout the organization
- Prioritizes the project within the organization
- Provides management support for the project to ensure it is staffed appropriately and staff have necessary resources
- Monitors project progress including progress towards agreed upon goals and objectives
- Has the authority to approve or deny changes impacting the following areas:
 - Cost
 - Scope
 - Schedule
 - project Goals
 - City Policies

5.2.3 City Project Manager

The City shall assign Project Manager(s) prior to the start of this project with overall responsibility and authority to make decisions related to project Scope, scheduling, and task assignment, and communicates decisions and commitments to the Tyler Project Manager(s) in a timely and efficient manner. When the City Project Manager(s) do not have the knowledge or authority to make decisions, he or she engages the correct resources from City to participate in discussions and make decisions in a timely fashion to avoid project delays.

- Contract Management
 - Validates contract compliance throughout the project
 - Ensures invoicing and Deliverables meet contract requirements
 - Acts as primary point of contact for all contract and invoicing questions

- Signs off on contract milestone acknowledgment documents
- Collaborates on and approves Change Requests, if needed, to ensure proper Scope and budgetary compliance
- Planning
 - Review and acknowledge Implementation Management Plan
 - Defines project tasks and resource requirements for County project team
 - Collaborates in the development and approval of the initial Project Plan and Project Plan
 - Collaborates with Tyler Project Manager(s) to plan and schedule project timelines to achieve on-time implementation
- Implementation Management
 - Tightly manages project budget and Scope and collaborates with Tyler Project Manager(s) to establish a process and approval matrix to ensure Scope changes and budget planned versus actual are transparent and handled effectively and efficiently
 - Collaborates with Tyler Project Manager to establish and manage a schedule and resource plan that properly supports the project Plan, as a whole, that is also in balance with Scope/budget
 - Collaborates with Tyler Project Manager(s) to establishes risk/issue tracking/reporting process between the City and Tyler and takes all necessary steps to proactively mitigate these items or communicates with transparency to Tyler any items that may impact the outcomes of the project
 - Collaborates with Tyler Project Manager(s) to establish key business drivers and success indicators that will help to govern project activities and key decisions to ensure a quality outcome of the project
 - Routinely communicates with both City staff and Tyler, aiding in the understanding of goals, objectives, current status, and health of the project by all team members
- Team Management
 - Acts as liaison between project team and stakeholders
 - Identifies and coordinates all City resources across all modules, Phases, and activities including data conversions, forms design, hardware and software installation, reports building, and satisfying invoices
 - Provides direction and support to project team
 - Builds partnerships among the various stakeholders, negotiating authority to move the project forward
 - Manages the appropriate assignment and timely completion of tasks as defined in the project plan, task list, and production cutover checklist
 - Assesses team performance and takes corrective action, if needed
 - Provides guidance to City technical teams to ensure appropriate response and collaboration with Tyler technical support teams to ensure timely response and appropriate resolution
 - Coordinates in Scope 3rd party providers to align activities with ongoing project tasks

5.2.4 City Functional Leads

- Makes business process change decisions under time sensitive conditions
- Communicates existing business processes and procedures to Tyler consultants

- Assists in identifying business process changes that may require escalation
- Attends and contributes business process expertise for current/future state analysis sessions
- Identifies and includes additional subject matter experts to participate in current/future state analysis sessions
- Provides business process change support during Power User and End User training
- Completes performance tracking review with client project team on End User competency on trained topics
- Provides Power and End Users with dedicated time to complete required homework tasks
- Act as an ambassador/champion of change for the new process.
- Identifies and communicates any additional training needs or scheduling conflicts to City Project Manager
- Prepares and Validates Forms
- Actively participates in all aspects of the implementation, including, but not limited to, the following key activities:
 - Task completion
 - Stakeholder Presentation
 - Implementation Management Plan development
 - Schedule development
 - Maintenance and monitoring of risk register
 - Escalation of issues
 - Communication with Tyler project team
 - Coordination of City resources
 - Attendance at scheduled sessions
 - Change Management activities
 - Customization specification, demonstrations, testing and approval assistance
 - Conversion Analysis and Verification Assistance
 - Decentralized End User Training
 - Process Testing
 - User Acceptance Testing

5.2.5 City Power Users

- Participate in project activities as required by the project team and Project Manager(s)
- Provide subject matter expertise on City business processes and requirements
- Act as subject matter experts and attend current/future state and validation sessions as needed
- Attend all scheduled training sessions
- Participate in all required post-training processes as needed throughout project
- Participate in conversion Validation
- Test all Application configuration to ensure it satisfies business process requirements
- Become Application experts
- Participate in User Acceptance Testing
- Adopt and support changed procedures
- Complete all Deliverables by the due dates defined in the Project Plan
- Demonstrate competency with Tyler products processing prior to Production Cutover
- Provide knowledge transfer to City staff during and after implementation

5.2.6 City End Users

- Attend all scheduled training sessions
- Become proficient in Application functions related to job duties
- Adopt and utilize changed procedures
- Complete all Deliverables by the due dates defined in the Project Plan
- Utilize software to perform job functions at and beyond Production Cutover

5.2.7 City Technical Support

- Coordinates updates and releases with Tyler as needed
- Coordinates the copying of source databases to training/testing databases as needed for training days
- Extracts and transmits conversion data and control reports from City's Legacy System per the conversion schedule set forth in the Project Plan
- Coordinates and adds new users and printers and other Peripherals as needed
- Validates all users understand log-on process and have necessary permission for all training sessions
- Coordinates Interface development for City 3rd party Data Exchanges.
- Develops or assists in creating Reports as needed
- Ensures onsite system hardware meets specifications provided by Tyler
- Assists with software deployment as needed

5.2.8 City Upgrade Coordinator

- Becomes familiar with the Software Upgrade process and required steps
- Becomes familiar with Tyler's releases and updates
- Utilizes Tyler Community to stay abreast of the latest Tyler releases and updates, as well as the latest helpful tools to manage the City's Software Upgrade process
- Assists with the Software Upgrade process during implementation
- Manages Software Upgrade activities post-implementation
- Manages Software Upgrade plan activities
- Coordinates Software Upgrade plan activities with City and Tyler resources
- Communicates changes affecting users and department stakeholders
- Obtains department stakeholder sign-offs to upgrade production environment

5.2.9 City project Toolset Coordinator

- Ensures users have appropriate access to Tyler project toolsets such as Tyler University, Tyler Community, Tyler Product Knowledgebase, SharePoint, etc.
- Conducts training on proper use of toolsets
- Validates completion of required assignments using toolsets

5.2.10 City Change Management Lead

- Validates users receive timely and thorough communication regarding process changes
- Provides coaching to Supervisors to prepare them to support users through the project changes

- Identifies the impact areas resulting from project activities and develops a plan to address them proactively
- Identifies areas of resistance and develops a plan to reinforce the change
- Monitors post-production performance and new process adherence

6 Glossary

Word or Term	Definition
Accountable	The person who is ultimately accountable for decisions being made on a task.
Application	A computer program designed to perform a group of coordinated functions, tasks or activities for the benefit of the user.
Build Blueprint	A document recording future state decisions intended to allow Tyler to satisfy business needs/requirements during the Build & Validate Stage through configuration and setups to develop the final solution. A means for the City to Validate what was agreed to be in Scope has been Delivered.
Business Requirements Document	A specification document used to describe City requirements not available through Tyler software functionality, which will lead to a Modification with City acceptance.
Change Control	A systematic approach for managing change governing how Change Requests will be received, assessed and acted on.
Change Management	An approach for ensuring that changes are thoroughly and smoothly implemented and that the lasting benefits of change are achieved. The focus is on the global impact of change with an intense focus on people and how individuals and teams move from the current situation to the new one.
Change Request	A form used as part of the Change Control process whereby changes in the Scope of work, timeline, resources, and/or budget are revised and agreed upon by participating parties.
Consulted	Anyone who must be consulted with prior to a decision being made and/or the task being completed.
Consumables	Items that are used on a recurring basis, usually by Peripherals. Examples: paper stock or scanner cleaning kits.
Control Point	Occurring at the end of each Stage, the Control Point serves as a formal client review point. Project progress cannot continue until the client acknowledges the agreed upon Deliverables of the Stage have been met, or agree on an action plan to make the Deliverable acceptable and move to next Stage while executing final steps of current Stage.
Data Exchange	A term used to reference Imports and Exports, and Interfaces which allow data to be exchanged between an external system and Tyler software.
Data Mapping	The process of mapping fields from the Legacy System to the appropriate location in the new system from one or more sources.
Deliverable	A tangible or intangible object/document produced as a result of the Project that is intended to be delivered to a client (either internal or external) or vendor at a specific time.
End User	The person for whom the software is designed to use on a day-to-day basis.

Forms	A document which is typically printed on a template background and only captures data for one record per page. Forms are provided to entity customers whether internal (employees) or external (citizens).
Imports and Exports	A process within the system that a user is expected to run to consume (Import) or produce (Export) a specifically defined file format/layout.
Informed	Anyone who will be updated when decisions are made or a task is completed.
Install	References the initial installation of software files on client servers and preparing the software for use during configuration. The version currently available for general release will always be used during the initial Install.
Interface	A real-time or automated exchange of data between two systems.
Legacy System	The system from which a client is converting.
Modification	Modification of software program package to provide individual client requirements documented within the Scope of the Agreement.
Peripherals	An auxiliary device that connects to and works with the computer in some way. Examples: mouse, keyboard, scanner, external drive, microphone, speaker, webcam, and digital camera.
Phase	A portion of the Project in which specific set of related products are typically implemented. Phases each have an independent start, Production Cutover and closure dates but use the same Implementation Plans as other Phases within the Project. Phases may overlap or be sequential and may have the same Tyler Project Manager and Tyler project team or different individuals assigned.
Power User	An experienced client person or group who is (are) an expert(s) in the client business processes, as well as knowledgeable in the requirements and acceptance criteria.
Production Cutover	The City is using the Tyler software to conduct daily operations.
Project	The Project includes all implementation activity from Plan & Initiate to Closure for all products, Applications and functionality included in a single Agreement. The Project may be broken down into multiple Phases.
Project Plan	The Project Plan serves as the master roadmap for the Project. The Project Plan will be the detailed task list of the essential activities to be performed to complete the Project. Each activity will have owner(s), participant(s) if applicable, start date, and due dates. The Project Plan is a living document and will be updated quarterly with the detailed tasks for the next future quarter; only high level tasks with rough timeframes will be plotted out beyond this.

Project Planning Meeting	Occurs during the Plan & Initiate Stage to coordinate with the Client Project Manager to discuss Scope, information needed for project scheduling and resources.
RACI	A chart describing level of participation by various roles in completing tasks or Deliverables for a Project or process. Also known as a responsibility assignment matrix (RAM) or linear responsibility chart (LRC)
Reports	Formatted to return information related to multiple records in a structured format. Information is typically presented in both detail and summary form for a user to consume.
Responsible	The person who will be completing the task.
Scope	Products and services that are included in the Agreement.
Software Upgrade	References the act of updating software files to a newer software release.
Stage	The top-level components of the WBS. Each Stage is repeated for individual Phases of the Project and requires acknowledgement before continuing to the next Stage. Some tasks in the next Stage may begin before the prior Stage is complete.
Stakeholder Presentation	Representatives of the Tyler implementation team will meet with key client representatives to present high level project expectations and outline how Tyler and the Client can successfully partner to create an environment for a successful implementation.
Standard	Included in the base software (out of the box) package.
Statement of Work (SOW)	Document which will provide supporting detail to the Agreement defining project -specific activities and Deliverables Tyler will provide to the client.
Validation (or to validate)	The process of testing and approving that a specific Deliverable, process, program or product is working as expected.
Work Breakdown Structure (WBS)	A hierarchical representation of a Project or Phase broken down into smaller, more manageable components.

7 Munis Conversion Summary

The following conversion options are a comprehensive list that represents the quoted modules included in the Tyler proposal and considered in scope. Requests to convert data outside of the contracted conversion options or failing to adhere to the noted conversion assumptions in section 3.2 will be considered out of scope.

7.1 GL History Conversion – Up to 20 Years.

- All General Ledger transactions linked to an account are converted. A client will be able to pull up a GL account in Munis and be able to click on detail and see the individual transactions linked to the account. We will convert the transaction type, date, amount and other information linked to the transaction type. Example on an AP transaction we will convert the check number linked to that transaction, PO number on a PO transaction etc. All actual and budget amounts will be computed from the historical conversion.

7.2 Accounting COA

- Chart of Accounts segments, objects, character codes, project codes (if applicable), organization codes (if applicable), control accounts budget rollups, fund attributes, due to/due from accounts
- Requires the use of a Tyler provided spreadsheet for design and entry of the data to be converted

7.3 Accounts Payable Master

- Vendor Master file including names, addresses, SSN/FID, contacts, phone numbers
- Multiple remittance addresses
- Year-to-date 1099 amounts

7.4 Accounts Payable Checks – Up to 20 Years

- Check header data including vendor, warrant, check number, check date, overall check amount, GL cash account and clearing information
- Check detail data including related document and invoice numbers for each check

7.5 Accounts Payable Invoices – Up to 20 Years

- Invoice header data containing general information for the invoice
- Invoice detail data containing line-specific information for the invoice

7.6 Capital Assets Master – to convert all submitted asset records

- Asset description, status, acquisition quantity, date and amount, codes for asset class, subclass, department, custodian, flags for capitalization and depreciation, estimated life, serial number,

model, model year, depreciation method, life-to-date depreciation amount, last depreciation date, disposal information (if any), purchase information, if any (vendor, PO, Invoice)

7.7 Capital Assets History – to convert all submitted asset history records related to 7.6

- Transaction history data for acquisitions, disposals, transfers, etc.

7.8 General Billing CID

- Customer information

7.9 General Billing – Recurring Invoices

- General Billing Invoices that are sent on a regular basis
- Header records with general information about the invoice
- Detail records with line-specific information

7.10 General Billing – Bills

- History of open and closed invoices – up to 5 years
- General Ledger information so open invoices can be processed in Munis

7.11 Payroll

- Payroll Employee Master data including data such as name, address, SSN, legacy employee ID, date of birth, hire date, activity status (such as active/inactive), leave/termination code and date, phone(s), e-address, marital status, gender, race, personnel status (such as full-time, part-time, etc.), highest degree, advice-delivery (print/email/both) and check location, plus primary group, job, location, and account information

7.12 Payroll Deductions

- Employee Deductions - including employee ID, deduction codes, tax information, and direct deposit information

7.13 Payroll Accrual Balances

- Employee Accrual Balances including Vacation, Holiday, and other Leave balances
- Start of year balance, YTD earned, YTD used

7.14 Payroll Accumulators – Up to 20 Years

- YTD, QTD, MTD amounts for employee pay and deductions
- Needed for mid-calendar-year go-live
- May not be needed if converting earnings/deductions history

7.15 Payroll Check History – Up to 20 Years

- We convert amounts for earnings and deductions in employee check history, check number and date.

7.16 Payroll Certifications

- Certification area and certification type codes, certification number and effective date, expiration date, and required-by date, codes for certification level and subjects

7.17 Payroll Earning/Deduction History – Up to 20 Years

- Earning and deduction history broken down by individual codes (earnings and deduction) and amounts per pay period, the detail of these lines, sums the check history in Payroll Check History conversion (see above).

7.18 Payroll Education

- Codes, for institution, type of degree, and area(s) of study

7.19 Payroll PM Action History – Up to 20 Years

- A variety of Personnel actions, such as job or salary changes and dates these events occurred.

7.20 Payroll Position Control

- Position, description, status, job code, bargaining group, location, number of employees allowed for each, FTE percentage, GL account, and max/min grade and step

7.21 Payroll Recruiting

- Application requisition applicant master data, plus applicant references, certifications, education, skills, tests, work history, and interviews

7.22 Payroll State Retirement Tables

- Specific state-required data, plus related service years information, when appropriate
- Needed for some states

7.23 Payroll Detailed Risk Management - Up to 20 Years

7.24 Project Grant Accounting

- Segments, account strings and fund string allocation table
- Requires the use of a Tyler provided (Chart of Accounts) spreadsheet for design and entry of the data to be converted

7.25 Project Grant Accounting - Actuals

- Summary project ledger string balances
- Up to 3 years

7.26 Project Grant Accounting – Budget

- Original project ledger budget amounts
- Up to 3 years

7.27 Purchase Orders

- Open purchase orders header data including vendor, buyer, date, accounting information, etc.
- Open purchase orders detail data including line item descriptions, quantities, amounts, etc.

7.28 TCM – Standard

- Up to 411046 records
- Up to 10-20 document type(s)
- All visible fields configured for TCM EE installations or the standard fields that exist for TCM SE installations
- Conversion from Single System

8 Interfaces

The following represents the City's interface requirements and Tyler's response (see Comments column).

Tyler Technologies								
Interfaces								
Please complete the Estimated Hours, Hourly Rate, and On-Going Annual Cost, if applicable, to develop the following interfaces, indicating any additional info or 'No Bid' in the Comments column.								
Data Flow Item #	Data Flow Description	Source Application	Target Application	Estimated Hours	Hourly Rate	One-Time Cost	On-Going Annual Cost	Comments
1	Send Positive Pay files to bank	Accounts Payable	Bank of Oklahoma	1	\$3,000	\$3,000	\$0	X - Current functionality however it may require a custom file format.
2	Yearly 1099 & W2 submission	Accounts Payable	US Treasury		\$0	\$0		Standard out of the box
3	Vendor Payment ACH file export / import	Accounts Payable	Bank of Oklahoma			\$0		Standard out of the box
4	Online Payments	Authorize net	Cash Receipts			\$0		Standard out of the box
5	Upload/download of meter read information	Badger	Utility Billing			\$0		Not applicable now but is available out of the box. Fixed length and CVS formats.
6	Import bank statement electronic file	Bank of Oklahoma	Bank Reconciliation			\$0		X - Current functionality however it may require a custom file format.
7	Daily lockbox transfers	Bank of Oklahoma	Cash Receipting / Miscellaneous Receivables / Utility Billing / General Ledger			\$0		Standard out of the box - this assumes use of standard lockbox formats, fixed length or xml.
8	Traffic citation receivable status routed from Brazos to the ERP system to maintain a central customer record.	Brazos	Cash Receipts / General Ledger			\$0		X - flat file import
9	Work Orders	CityWorks	ERP			\$0		X - A web service integration has been developed via customization for use with a specific third party vendor who builds interfaces with Cityworks on their behalf. If the current integration cannot be leveraged as is, customization will be required and additional analysis will be required in order to provide a cost estimate.
