Re: Consent to Encroach--R0135022 Parcel ID #: NC29 CASC7 1 21 001

My husband & I moved to Norman in March of 2006. At closing we were told by the house builder that no permanent structure could be built in our back yard on top of the utility easement located from the back fence of our property out 20'-0". My husband, Ron Springfield, called & talked to someone with the City of Norman about placing a storage shed over the easement if it was built on wood skids so it could easily be pulled out of harms way when necessary. Ron died last February & I don't know who he talked with at the City about this matter.

As you can see from the photographs herewith, the shed isn't an eyesore. It's painted & shingled to match our house & has been landscaped. Please consider this request for a Consent to Encroach document. I will gladly move the shed if a utility needs access to the easement & then will return it to its original location upon completion of the utility work. I will gladly pay the required fee of \$400.00 in order to procure the Consent to Encroach document.

Your consideration & approval of this request will be greatly appreciated.

Sincerely,

A handwritten signature in black ink that reads "M. Susan Springfield". The signature is fluid and cursive, with the first name "M." being small and the last name "Springfield" being larger and more prominent.

M. Susan Springfield

Enclosures: 1) Six photographs of storage shed over utility easement
2) Scaled drawing--location of shed at utility easement
