April 2, 2014

I hereby request that a variance be granted for the size of Tracts 1, 3, & 4 of Stella Acres Phase III Norman Rural Certificate of Survey attached. This section is a short section and not 5280' or 660 acres; therefore its subdivisions won't be exactly 10 acres. The variance for this Certificate of Survey's three tracts was incorporated into these said tracts which is only 0.39 acres short of the required 10 acres. Considering the close proximity that these tracks are in meeting the standard, I respectfully ask that a variance be granted for Tracts 1, 3, & 4.
