Mayor Rosenthal and City Council Members:

As the mayor of Lincoln, Nebraska, I would like to express my support for the Elsey Partners Development Team. The team is currently building a high density infill student housing development adjacent to the University of Nebraska in the historic North Bottoms neighborhood at 1100 Y Street.

They have worked well with both city staff and the North Bottoms neighbors to develop a project that will be an asset to the City of Lincoln for years to come. Students will be able to walk to campus while providing a transition buffer to the single-family homes in the North Bottoms area.

The City of Lincoln has had a positive experience with the Elsey Partners Team. I would recommend them for similar work in your community. Please do not hesitate to contact me if you have any questions or comments regarding this matter.

Sincerely,
