Norman, OK 73069

City of Norman

Attn: City Council

City Council,

RE: Banner Appeal

The Campus Corner Association (“association”) wishes to file an appeal regarding the event banner that hangs across the street currently during street closure events. We would like to hang the banner when the street is open to vehicle traffic. We would like to go before City Council to explain why this would be a benefit to the association and our members.

An engineering firm, GROSSMAN & KEITH ENGINEERING, has been hired to design the wire attachment to be tall enough for traffic flow and not to impede traffic visibility. An engineered plan has been completed and submitted to the City of Norman Public Works department.

Having the street banner available to hang while the street is open to vehicle traffic allows us to secure sufficient sponsorship so the Association can pay the expenses associated with closing the streets for Game Day.

Banner usage will be by association only sanctioned events and will be hung and removed by the association. An approval process that goes through the association board will be in place.

Respectfully,

Campus Corner Association Board
