Part of our mission at Leon Pierce Body Repair is to educate our customers on the repair process. Whether it's estimate details, insurance claims, repair techniques or warranty questions we believe that an educated customer is a happy customer. We wouldn't want it any other way!

Please read the following:

Q: Can I pay for my repairs with a Credit Card?

A: Partially. We accept VISA and Master Card up to \$500. Our policy on this is designed to allow customer to use a credit card for their deductible. We are happy to take a local check, bank check, money order, or cash for any amount over \$500.

Q: Is this estimate a guaranteed price for my repair?

A: NO! Our estimates are written outside in a parking lot without the ability to look under nor inside of damaged areas. They are also done without Laser measurements and computer scans. Repair costs OFTEN increase once disassembly and repair planning has been done. We are happy to get to a guaranteed price. Just Ask!

Q: Why is your estimate lower than the estimate my insurance company wrote or approved?

A: Any number of reasons can cause this. Your insurance company may have seen damage that we overlooked, they may have replaced a part that we repaired, etc. In any case, there are two ways to proceed: 1) Use our estimate as a starting point and be open to additional costs (hidden damages) once vehicle is being repaired or 2) Start with the insurance estimate and allow the insurance company to cover any and all hidden damage - you are only responsible for your deductible.

Q: My insurance company wrote an estimate but the total cost of the repair was considerably less than your estimate. Do I have to pay the difference?

A: Absolutely not! Just like in the last Q&A, true cost of repair is not known until a vehicle is disassembled and inspected closely. Parts availability and pricing, amongst other factors can make a significant difference in repair cost. Your insurance company will pay all reasonable and customary costs to get your vehicle fixed to pre-loss condition. You will never have to pay any repair costs beyond your deductible and any betterment (if applicable - see below).

Q: What is 'betterment' and why is my insurance company charging me betterment and my deductible?

A: Betterment applies to wear items on your car like tires, brake pads, wheel bearings, etc. Your insurance company is charging you for a part of these items which are being made 'better' than before the loss since they are being replaced with new parts.

Q: My insurance company told me that if I don't go to their approved shop then I will have to pay all extra costs. Is this true?

A: NO, This is actually illegal! Oklahoma statute 36 O.S. 1250.8 section H: states that an insured can choose the repair shop of their choice and that the insurance company is responsible to pay competitive prices for such repair.

Q: My insurance company 'took' my deductible out. Do I still have to pay it? Do I pay it to the insurance company?

A: Yes and No. The total cost of repair as per the initial estimate is divided into two parts 1) insurance net amount 2) deductible amount. The sum of these two is owed to the shop after the repairs are completed.

Q: Why did my insurance company want to put a bank name or shop name on check for my repair?

A: Oklahoma Law requires an insurer to name a body shop or bank as a co-payee on payments to ensure that the repairs are completed. This is ultimately to protect the lenders. Call your lender for more information or if you have special requirements.

Q: What are your published repair rates?

A: Body Labor \$53/hr, Refinish Labor \$53/hr, Mechanical Labor \$98/hr, Frame Labor \$70/hr, Refinish Material Labor \$42/Refinish hr.

Q: What does 'total loss' mean?

A: 'Total loss' is an economic term and legal term. It classifies a vehicle that has a repair cost equal to or greater than 70% of the retail value. Insurance companies are bound by law to 'Total' any vehicle that meets this threshold. It is important to note: 'Total Loss' does not mean the repair is complicated or cannot be done in a quality manner.

If you have other questions, please don't hesitate to give us a call. Let's talk about them before you schedule your next repair!

Thank you,
Leon Pierce Body Repair
