Text of Legislative File K-1920-31

Body

BACKGROUND: The Norman Water Reclamation Facility (NWRF), Water Treatment Facility and Environmental Services Division use many outside lab services to perform a variety of lab analysis throughout the year. Each division is required by local, state and federal law to perform certain analysis to meet either water quality standards or wastewater discharge requirements. The lab analysis required varies based on regulations imposed by the Environmental Protection Agency (EPA). EPA plans to impose additional testing requirements beginning July 2019. During the past year, the NUA spent approximately \$75,000 to \$80,000 on meeting local, state, and federal laws testing requirements. As the requirements change, it is expected that the expenditures on testing will increase.

DISCUSSION: All three divisions conducted a joint request for proposals (RFP) in April 24, 2019 and five different lab services companies answered the request. They were Oklahoma Department of Environmental Quality Lab Services (ODEQ) in Oklahoma City, Red River Laboratory Company of Oklahoma City, Accurate Labs of Stillwater, Oklahoma, Ana-Lab Corporation of Kilgore, Texas (who has a regional office in Norman) and Pace Analytical in Allen Texas. Ana-Lab Corporation, Accurate Labs and Pace Analytical were selected based on ranking criteria which included Oklahoma Department of Environmental Quality certification, price, EPA performance evaluation results and reporting capabilities. Red River and ODEQ Labs may be used in special circumstances but labs services contracts will be signed with Ana-Lab, Accurate Labs and Pace Analytical for all three divisions. Should additional testing be required under new state or federal regulations, such tests will be provided at the costs set forth in the contracts with Ana-Lab Corporation, Accurate Labs and Pace Analytical. For the contract, Ana-Lab, Accurate and Pace Analytical are still the premier labs that can meet all three division's testing requirements. Pricing for each lab was updated and a one-year contract with a two year extended option will be signed.

Fiscal Year 2020 funds have been budgeted in the following accounts:

031-5534-461.40-20 Testing	\$5,500
031-5536-461.40-20 Testing	\$77,820
031-5551-462.40-20 Testing	\$150
032-5543-432.40-20 Testing	\$27,010
032-5544-432.40-20 Testing	\$24,580
032-5545-432.40-20 Testing	\$12,600

RECOMMENDATION: Staff recommends Norman Utilities Authority approve the contract (Contract 1920-31) for lab services with Ana-Lab Corporation.
