

CAPITAL IMPROVEMENT PROJECTS BUDGET

THE CITY OF NORMAN, OKLAHOMA

FISCAL YEAR ENDING JUNE 30, 2019

FINANCIAL PLAN—FISCAL YEAR-END 2020-2023

ON THE COVER : Norman is a “railroad city.” In 1870, the United States Land Office contracted with a professional engineer to survey much of “Indian Territory.” (Most of what is now Oklahoma was originally reserved for Native Americans who were relocated from their homelands). Abner E. Norman, a young surveyor, became chairman and leader of the central survey area, with the responsibility of charting a course for rail lines to be laid across Indian Territory. The survey crew burned the words “NORMAN’S CAMP” into an elm tree near a watering hole to taunt their younger supervisor, and the name was kept when a town site was established at present-day Norman in 1889. Today, with an estimated 122,738 residents, Norman is the third largest city in the state of Oklahoma.

The Norman Santa Fe Depot was built in 1909 in an interpretation of the Mission Revival architectural style. The Depot was deeded to the City of Norman in 1971 and restored for public use with federal Community Development Block Grant funding. In 1991, The Depot was listed on the National Register of Historic Places. Passenger rail service returned to Norman with the implementation of the Amtrak “Heartland Flyer” service line, in 1999. A major refurbishment of the Depot was completed in 2017 with City of Norman Capital Sales Tax funding, restoring the building to its historic standard and meeting modern building codes. The building is leased by the City to The Depot, Incorporated, a non-profit entity that coordinates musical, artistic, and community activities in The Depot and greets railroad passengers daily.

Currently, a multi-jurisdictional study for future expanded commuter rail service throughout central Oklahoma, the “Central Oklahoma Regional Transportation Authority Task Force,” is being conducted. Norman is actively involved in this study, with interests in expanding passenger rail service through The Depot for residents to conveniently travel throughout the region for work, recreation, educational and other purposes.

THE CITY OF NORMAN

OUR MISSION

“WORKING TOGETHER TO DELIVER EXCEPTIONAL SERVICE”

To fulfill our mission, City of Norman employees pledge themselves to these values:

TEAMWORK

We value each other's contribution and encourage teamwork.

CARING

We value service to others in a caring manner. We listen with a willingness to understand the needs of others. We respond in a friendly, helpful way.

ACCOUNTABILITY

We are responsible for our work and actions.

SERVICE

We are committed to providing exceptional service in a courteous, dependable and efficient manner.

RESPECT

We respect our differences and treat each other with understanding and dignity.

FAIRNESS

We seek to understand the needs of others. We strive for equity in the delivery of services and in the treatment of individuals.

PROFESSIONALISM

We value a knowledgeable, capable and effective organization.

RESPONSIVENESS

We value a timely response to both customer and employee.

We believe that these values are the foundation of all our endeavors to make our community a better place now and for future generations.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**City of Norman
Oklahoma**

For the Fiscal Year Beginning

July 1, 2017

Christopher P. Morill

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented an award of Distinguished Presentation to the City of Norman, Oklahoma, for its annual budget for the fiscal year beginning July 1, 2017.

In order to receive this award, a governmental unit must publish a budget document that meets the program criteria as a policy document, as an operations guide, as a financial plan and as a communication device.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Executive Summary of the FYE 2019 Capital Improvement Projects Budget - By Fund

I. Dedicated Public Safety Sales Tax Fund (15)

Revenues to this fund derive from the Public Safety Sales Tax. The City will sell general obligation bonds and repay them with PSST as collected. Only approved projects may be funded. During FYE19, there is \$725,000 scheduled for fire apparatus replacement.

II. Community Development Block Grant Fund (21)

Revenues to this fund derive from Federal Government grants. The City will advance the funds and the grant program will reimburse the City based on regularly filed claims. During FYE19 there is \$186,453 for 3 capital projects.

III. Special Grants Fund (22)

Revenues to this fund derive from contributions, gifts of cash, or other assets from another government or non-profit agency to and used for a specific purpose. They are budgeted as received. There no proposed new funding in FYE19.

IV. Room Tax Fund (23)

The Room Tax Fund monitors revenues and expenditures of the Guest Room Tax. There is 1 project valued at \$220,000 budgeted in FYE19.

V. Water Fund (31)

Capital projects are funded through user fees, bonds, loans and grants. Funding for capital projects in FYE 2019 totals \$4,385,400. Project expenses from the Water Fund include Water Distribution System (\$3,785,400), Water Towers (\$100,000), Water Well Improvements (\$0), Water Treatment Plant (\$240,000), Urban Service Area Water Line Repairs (\$160,000), and Hot Soils Water Line Repair Program (\$100,000). Significant impact on the operating budget is expected. Most of the impact cannot be quantified at this time. However, it is estimated that annual payments for water rights will impact the operating budget, as wells are constructed, by approximately \$11,000 per well per year. These wells will produce approximately 300,000 gallons each, which will generate potential revenue of \$124,000/well/year at \$1.14/1,000 gallons.

VI. Water Reclamation Fund (32)

Funding for these projects are wastewater user fees, revenue bonds, and project specific grants. Capital project expense for 8 projects in FYE 2019 is \$2,317,900.

VII. Sewer Maintenance Fund (321)

Funding sources derive from user fees, which include a \$5 per month sewer-maintenance rate, effective October 1 2001. A "Worst Case First" approach was implemented in FYE 2003, with the first projects addressing sewer lines in the oldest parts of Norman. Three capital projects are funded in FYE 2019 in the amount of \$2,800,000 in pay-as-you-go capital projects for repairing and replacing aging and deteriorating sewer lines, lift stations, emergency repairs, and supporting facilities. Replacement of deteriorated sewer lines should decrease infiltration and inflow into the collection system, reducing treatment costs and line maintenance costs.

VIII. New Development Excise Tax Fund (322)

A new development excise tax was approved by referendum and became effective October 1, 2001. Revenues are used for constructing improvements to wastewater collection, conveyance and treatment facilities. These are for new growth (full build-out) related wastewater capital projects, including interceptor improvements and north side wastewater treatment plant environmental impact studies, as required by the Environmental Protection Agency (EPA) as part of the permitting process. In FYE 2019, one new project valued at \$143,400 is scheduled.

IX. Sanitation Fund (33)

Funding sources derive from user fees. There are five new projects valued at \$2,652,000 in FYE 2019.

X. Capital Fund (50)

Anticipated revenue derives from the "capital sales tax" dedicated to capital improvements (7/10 of the second penny) - projected to be \$11.99 million new in FYE 2019. Bond projects will use \$7,467,829 of GOB. Also, \$150,000 is anticipated to be available from earned interest.

Capital Outlay

By Council policy, 27% of the capital sales tax revenue is dedicated for capital outlay. In FYE 2019, this amounts to \$3,349,398 that will be transferred to the General Fund (10) and Westwood Fund (29) for capital outlay.

Street Maintenance

Street maintenance continues to be a high priority. Revenue dedicated for street improvements by formula is 25% of the capital sales tax. In FYE 2019, \$7,045,376 is budgeted for alley repair, asphalt and concrete pavement maintenance, asphalt paver patch, concrete valley gutter, crack seal, force account drainage materials, and rural road improvements. In FYE 2019 an additional \$285,229 is transferred to the General Fund for Storm Water Drainage Labor.

Maintenance of Existing Facilities

Maintenance of existing facilities is to preserve existing facilities and prevent/postpone need for major capital expenditures. Revenue dedicated for facility maintenance by formula is 5% of the capital sales tax. In FYE 2019, \$293,300 is budgeted in individual projects.

Other Capital Projects

Other capital project expenses include \$8,513,312 for projects, \$1,224,084 for salaries & benefits and \$16,699 for Services & Maintenance. Major project categories include Transportation (\$5,082,500), Buildings and Grounds (\$1,113,800), Parks and Recreation (\$44,000) and Stormwater (\$765,000).

GOB Projects - 2005

On March 29, 2005, voters approved the sale of general obligation bonds (GOB) to implement twelve capital projects. All projects are complete. The remaining was appropriated in FYE18 for additional authorized improvements.

GOB Projects – 2010

On March 2, 2010, voters approved \$19 million in street projects and \$3.2 million for the Outdoor Warning System. Property tax is the authorized funding source. The projects are complete for less than the budget. In FYE 2018 the remaining is appropriated for additional authorized improvements.

GOB Projects – 2012

On August 18, 2012, voters approved \$42,575,000 in major street and bridge projects. Property tax is the authorized funding source. Some of these expenses have been approved in amendments to the Budget. There is \$666,137 scheduled in FYE 2019. The remaining expenses are scheduled in FYE 2020 through FYE 2021 to complete the program.

GOB Projects – 2016

On April 5, 2016, voters approved \$25,360,000 in street maintenance projects. General obligation bonds will be sold with a temporary sales tax as the funding source. There is \$5,148,321 scheduled in FYE 2019. The remaining expenses are scheduled in FYE 2020 through FYE 2022 to complete the program.

Capital projects will affect the General Fund operating budget. Facility/infrastructure improvements and replacements are built to higher standards, and should reduce maintenance expenses, increase efficiency and increase safety (i.e. the

Maintenance of Existing Facilities set-aside, Building Maintenance Projects, etc.). However, there will be a gradual but cumulative demand to maintain more traffic control facilities, buildings and parks in future years.

XI. Norman Forward Sales Tax Fund (51)

NORMAN FORWARD is a quality of life initiative proposed by community groups and residents. On October 13, 2015 voters authorized a ½ cent temporary (15 years) sales tax to fund the projects. Collection began January 1, 2016. Some of the projects will be funded on a pay as you go basis. Some of the projects are of higher importance and greater costs, and therefore require borrowing funds through general obligation bonds. In FYE 2019, \$44,400,000 of bond funded projects are scheduled, and \$2,950,000 of paygo funded projects are scheduled. The individual projects' impacts on the operating budget may be significant because they are new facilities.

XII. Park Land and Development Fund (52)

Revenues derive from land development and vary according to the growth rate. Typically, projects appear before Council for budgeting when sufficient development occurs to warrant improvements and sufficient funds collected to pay for the improvements. In FYE 2019, there are no new projects.

XIII. University North Park Tax Increment Finance District Fund (57)

The purpose of the University North Park TIF (TIF #2) is to facilitate development and improvements in the University North Park Area, in accordance with the Oklahoma Constitution and Local Development Act. City Council and property owners identified projects to fund. The continuation of 1 capital project is shown in FYE 2019 for \$1,310,000. Any additional new projects will be presented to Council for approval as they are identified.

XIV. Arterial Road Recoupment Fund (78)

The Arterial Road Recoupment Fund's purpose is to act as a revolving fund to match private funds in constructing arterial roads, in an effort to prevent dangerous gaps. As land is developed, developers are required to construct or fund the widening of the adjacent arterial roads that serve their subdivision. Because it is rare that all adjacent land develops at the same time, the resulting scenario is unimproved road segments, or gaps. In effect, the directional lanes would be two lanes, then one lane, then two lanes, such that dangerous driving conditions occur. The intent is that development pay its way when it (recoupment district) develops. Initial funding of this program was from the Capital Fund. Future revenues will reimburse this fund as a revolving source for this program. In FYE 2019, no new project budgets are scheduled.

Overview

OVERVIEW OF THE CAPITAL IMPROVEMENTS PLAN

1. PLANNING

The Capital Improvements Plan (CIP) is the schedule established by the City of Norman that identifies the major improvement projects and schedules them to fit its fiscal capabilities for five years into the future. Annual reviews are made of the capital improvement projects budget and plan, and the plan is extended one year, to maintain a six-year schema.

Capital Projects generally cost more than \$10,000, are relatively fixed or permanent in nature and have an expected life of more than five years. Such projects consist of the construction of a new, expanded or improved tangible asset, which is physically fixed. Major projects normally require more than one fiscal year to complete. Contracted services for design, land acquisition, utility relocations and construction may be required. Examples include land purchase, new buildings, building additions, street improvements, utility line improvements, parks and playgrounds, and major drainage channel improvements.

Capital Outlay, on the other hand, is an expenditure directed towards maintaining or purchasing new or replacing tangible assets which themselves have expected life spans of one to five years. Expenses are generally one-time and occur within a single budget year. Examples include the purchase of vehicles and equipment.

The CIP maintains a multi-year time frame. Information is updated annually in conjunction with the budget process. Prior years' actual project expenditures are included. The first year shown is the budget for the active fiscal year. The second year is the next fiscal year, for which an official annual budget is being prepared. The remaining four years are projections of anticipated revenues and expenses based on estimated needs and priorities.

Capital projects originate at virtually any point in time and from a variety of sources. Any citizen, organization, Board or Commission may submit requests to Council at any time. Also, special studies and master plans for various city services (such as wastewater, water, parks and recreation, or transportation) culminate at various times, usually resulting in recommended capital projects, including operating impact, scheduling, and revenue sources. If Council determines sufficient need and/or funds exist, then the Capital Budget and/or Plan may be amended. Otherwise, the annual planning and budgeting process begins in the Fall of each year.

2. BUDGETING

The Capital Improvements Budget follows the Oklahoma Municipal Budget Act. The budget is organized according to Enterprise Funds, which are described throughout this document. This is a multi-year program, identifying total project expenses related to a particular project. Past actual expenses are included, however, the first single year is the active fiscal year. After the end of this fiscal year, both the encumbered and unencumbered budgeted amounts automatically roll into the following fiscal year's budget to maintain funding continuity, until the projects are individually closed. The second single year is the additional new funding for the upcoming fiscal year's budget. The remaining years constitute a plan.

The Municipal Budget Act authorizes optional (effective July 1, 2006) nonfiscal budgeting for capital expenses. *"Encumbrances for funds whose sole purpose is to account for grants and capital projects and/or any unexpended appropriation balances may be considered nonfiscal and excluded from the budget by the governing body, but shall be reappropriated to the same funds, accounts and for the same purposes for the successive fiscal year, unless the grant, project or purpose is designated or declared closed or completed by the governing body."* (11 O.S., Section 17-206, D.). In other words, once appropriated, a budget (encumbered and unencumbered balances) could automatically carry over from one fiscal year to the next until that project is either completed, its budget spent, or the project declared closed. It would no longer be necessary for Council to reconcile and reappropriate unencumbered fund balances for capital project accounts, but only to declare when a grant, project or purpose is closed or completed. This policy was adopted by Council beginning with the FYE 2010 budget.

During the Fall, Council and Staff begin reviewing the status of capital project implementation and the need to incorporate adjustments or amendments to policy, priorities, scope or costs. Typically Council holds this initial review in November. A first draft proposal for a new CIP is prepared for Council's consideration and comment in February. In response, revisions are prepared and a fiscally responsible multi-year plan is prepared. Additional Council study sessions are held during March, April and May for recommendations and adjustments. A public hearing is then held at a regularly scheduled Council meeting. When adopted in June, the first year becomes the fiscal year budget and the remaining years constitute the projected Capital Improvements Plan.

3. IMPLEMENTATION

With City approval and/or funding available, project managers pursue the necessary steps to implement the approved projects. Each quarter, written reports are submitted to Council and the public about the status and progress of projects.

ANNUAL BUDGET

Typically there are four implementation stages. Design of the improvement is accomplished by a qualified professional and requires proper selection procedures (this may be staff or consultant). Right-of-way acquisition must provide fair treatment of the owner's rights and use of public funds, and sometimes involves hiring of consultant services. Utility relocations involve both City and non-city owned "public" and private facilities and requires coordination of work space and scheduling. Finally, facility construction requires fair selection of contractors, traffic management, inspections, and approvals throughout the period of construction.

When projects anticipate outside funding (such as grants, transportation matching funds, private donations) there are additional requirements of the City. Outside revenues usually are limited to certain types of expenses, with the City responsible for the remainder. Schedules and costs are affected by such things as the availability of grants, results of plan reviews, differing construction standards, and specific property acquisition procedures.

4. 2025 LAND USE AND TRANSPORTATION PLAN POLICY

General Policies were determined through an extensive citizen participation process and Council action; and documented in the long range general plan for the City. The overall GOAL is to implement City Council public service policies as defined in the 2025 PLAN adopted by Council. It also serves as the basis for infrastructure master plans (i.e., water, wastewater, drainage, parks, et. al).

- a. In summary, the 2025 PLAN establishes the following goals related to capital improvements:

- Goal 1 – Affirmatively and responsibly manage the location of growth in Norman based on available public services and environmental suitability of the land for development.
- Goal 2 – Utilize the provision of infrastructure in supporting and influencing growth into areas most suitable for development.
- Goal 3 - Encourage and support diversified housing types and densities in order to serve different income levels, family structures and ownership.
- Goal 4 – Enhance the quality of economic growth in the City by attracting high technology-related industries that have low environmental impacts.
- Goal 5 – Retain the distinct character of rural Norman and protect the environmentally sensitive Little River Drainage Basin.
- Goal 6 – Develop and maintain a greenbelt system for Norman.
- Goal 7 - Continue efforts to promote the enhancement and stability of the core area.

- b. Land use patterns (industrial parks/corridors, commercial nodes, neighborhood units, tourist commercial nodes, suburban large lot development, etc.) designated in the 2025 PLAN, as well as environmental and natural resource protection, topography, geology and geography, shall determine design, capacities and location of facilities.
- c. Specific capital projects in the 2025 PLAN shall be considered for programming, subject to the most current review and priorities of City Council.
- d. Utility System Master Plans (i.e., Water, Wastewater, Drainage, Parks, Greenways, et al) shall be utilized to designate the provision of all major City of Norman utility systems in advance of demand, based on projected population, innovative practices, and the Development Sector concept (drainage sub-basins).
- e. All available funding sources shall be used to provide basic public utility services, including utility districts, grants and loans, general obligation bonds, revenue bonds, private participation, intergovernmental agreements, tax increment financing districts, et al.

5. GENERAL PROGRAMMING ASSUMPTIONS

The following assumptions also affect the Capital Improvements Plan:

- a. The City will have enough of the right kind of personnel to accomplish approved projects or effectively manage contractors.
- b. Priorities will change periodically based on programming factors such as available funding, emergency situations, shifts in City policies or strategies, regional or national economics, unforeseen opportunities, incorrect assumptions, project scope, federal or state regulations.
- c. The purpose of projects significantly affects the timing of construction. Factors influencing timing of a project include any of the following:
 - community activity external to capital program management - land development requiring city services, peak hour demand on the water system;
 - federal or state regulations - EPA and ODEQ wastewater treatment effluent standards;
 - emergencies - special events, storms, drought, infrastructure failure; and

- physical dependence of one project on another - sewage collection lines dependent on interceptors, and sewer/water lines under streets that are both scheduled for improvement.
- d. Projects that started in a phased manner are high priority for continued funding. The first priority in this category are those being funded by general obligation or revenue bonds, because the funds must be spent within a specified time period after sale and there is an obligation to the voters and higher governments to finish these as soon as practical.
- e. The Capital Projects Plan shall act as a guide and shall be annually reviewed, updated, and incorporated into Capital Budgets.
- f. Once Council approves budgets, the funds will remain as commitments unless Council acts otherwise or the projects are closed.
- g. Cost under-runs will be determined, as individual projects are closed. Project managers make written requests to:
 - Declare when a project has been completed, and
 - Release unused funds for other uses by closing them.
- h. Project budget transfers shall follow the City's Account Transfer Manual.
- i. The CIP will primarily be a "pay-as-you-go" (PAYGO) effort incorporating debt financing and private funds as appropriate.
- j. Enterprise Funds shall finance related capital projects. If revenues are insufficient, it may be necessary to request voters to increase user fees and/or authorize revenue bonds.
- k. The Capital Fund (funded by 70% of the second cent sales tax) will pay for capital project needs which are not associated with enterprise revenues or which require supplemental funding.
- l. Each year, the Capital Budget will attempt to include funds for capital needs of all related services.
- m. The completion of arterial streets with existing paving gaps shall be a high priority, and scheduled within the Arterial Road Recoupment Fund when possible.
- n. A sound financial program to maintain and upgrade existing section line roads shall be included.
- o. The future impact on the operating budget is an important consideration when evaluating capital projects because it may be necessary to adjust those funds. Operating budget impact comments are included on each project sheet. In most instances, it is difficult to predict the dollar impact, so the following general categories are used: "positive" (will either generate some revenue to offset expenses or will reduce operating costs), "negligible" (operating expenses will increase no more than about \$10,000 per year), "slight" (operating expenses will increase between about \$10,001 & \$50,000 per year), "moderate" (operating expenses will increase between about \$50,001 & \$100,000 per year), or "high" (operating expenses will increase more than about \$100,001 per year).

6. AMENDMENTS

In order for the five-year Capital Improvement Plan to remain a useful guide for public and private investment, it is necessary that it be flexible. City Council is the only body that can amend the CIP. Major reasons for amendments include the following:

- a. Change of Council policy,
- b. Annual budgeting process,
- c. Rescheduling approved projects,
- d. Adding new projects,
- e. Deleting projects,
- f. Changing the scope of approved projects,
- g. Changing financial assumptions or revenue projections, or
- h. Changing the 2025 LAND USE AND TRANSPORTATION PLAN.

All amendments shall be justified by incorporating:

- a. Detailed project description,
- b. Justification; and
- c. Funding.

7. FYE 2019 CAPITAL IMPROVEMENTS PROJECTS BUDGET

The FYE 2019 CIP includes revenues from several sources and expenditures for various purposes. The first chart illustrates sources of revenues expected in FYE 2019 for spending on capital improvement projects. The second chart illustrates expenses for capital projects.

This chart reflects anticipated revenues from all sources that are available in FYE 2019 for capital projects. Most revenue sources are earmarked for specific purposes and are not available for anything else. Only revenues needed to meet FYE 2019 needs are shown, but are not typically equal for any given fiscal year.

Bonds provide the greatest proportion of revenue for capital projects at 60%, followed by Capital Sales Tax at 18% and User Fees at 8%. Smaller amounts are derived from the other sources.

Sources of Revenue - All Capital Projects

User Fees	\$6,625,517	8.15%
Capital Improvement Charge	2,106,450	2.59%
Sewer Replacement Charge	623,333	0.77%
Sewer Maintenance Rate	2,800,000	3.44%
Sewer Excise Tax	143,400	0.18%
Capital Sales Tax	14,481,387	17.81%
Tax Increment Financing	1,310,000	1.61%
Public Safety Sales Tax	725,000	0.89%
Norman Forward Sales Tax	2,950,000	3.63%
Room Tax	220,000	0.27%
Bonds	49,139,999	60.43%
Grants	186,453	0.23%
	\$81,311,539	100.00%

Due to the nature of capital projects, expenses may not occur in the year proposed, and balances may be carried forward, because most project expenses occur over several fiscal years. However, this chart represents new budget requests for FYE 2019 only. The greatest shares are scheduled for Buildings & Grounds at 37%, Parks & Recreations at 23%, and Street Maintenance at 9%.

Expenditures by Purpose - All Funds

Capital Outlay	\$4,074,398	5.01%
Maint of Existing Facilities	410,300	0.50%
Personnel & Services	1,526,012	1.88%
Street Maintenance	7,045,376	8.66%
Transportation	6,392,500	7.86%
Buildings & Grounds	30,300,253	37.26%
Parks & Recreation	18,614,000	22.89%
Water Reclamation	5,146,300	6.33%
Sanitation	2,652,000	3.26%
Stormwater	765,000	0.94%
Water	4,385,400	5.39%
Total	\$81,311,539	100.00%

Capital Outlay for non-enterprise related services are funded from the Capital Penny sales tax in Fund 50. By policy, Council annually designates 27% of the projected new Capital Penny revenue. Enterprise related capital outlay expenses are funded with enterprise sources. Included is a reserve for the Senior Citizens Center of \$261,770 from Fund 50.

In FYE 2019, the largest portion of Capital Outlay Expenditures is for Fleet/Vehicles at 54% followed by Other equipment at 15%, Computer related equipment at 14% and Public Safety equipment at 13%. Expenditures for capital outlay from the Capital Fund include the following:

Expenditures for Capital Outlay – Funds 50

Notes:

*** Fleet/Vehicles includes police & fire fleet

** Computer includes police and fire pcs

In addition, Fund 15, Public Safety Sales Tax, includes a budget of \$725,000 for fire apparatus replacement and Capital Fund 50 will transfer \$111,480 to Westwood for vehicles.

Public Safety Sales Tax Fund

DESIGNATED PUBLIC SAFETY SALES TAX FUND – 15

ASSUMPTIONS

1. This fund accounts for the proceeds of a specific revenue source that is legally restricted to expenditure for specific purposes.
2. Revenue is received in the form of special sales tax which repays a general obligation bond.
3. Projects are expected to be completed within a designated amount of time.
4. Three projects are programmed to begin in FYE19 in the amount of \$725,000 for purchase of Fire Equipment.

PROJECT TITLE:	CDBG Land Acquisition	PROJECT TYPE:	Acquisition
PROJ. CATEGORY:	CDBG	PROJECT NUMBER:	GC0078
DEPARTMENT:	Planning and Community Development	ACCOUNT NUMBER:	021-4003-463.60-01
MANAGER:	Lisa Krieg	BEGIN & END DATES:	7/1/18 to 6/30/19
WARD(s):	All	LIFE EXPECTANCY:	20 years

DETAILED PROJECT DESCRIPTION:

This project was developed by the Community Development Block Grant Policy Committee for inclusion in the FYE2019 Action Plan. Two separate activities will be conducted under Acquisition of Land. One activity will be contracted to the Norman Affordable Housing Corporation, Inc. to purchase land or property for Affordable Rental Housing. (91,453). The other activity will target through a RFP process for one or more 501(c)(3) Not-for-Profit Corporations to acquire property in conjunction with a Capital Campaign for expansion of their facility (\$25,000). With each activity a Deed Restriction will be filed to insure continued use as proposed. Length of restriction is dependant on the total assistance provided.

Special Revenue
Fund

SPECIAL REVENUE FUND - 22

ASSUMPTIONS

1. This fund accounts for the proceeds of specific revenue sources that are legally restricted to expenditure for specific purposes.
2. Revenues are received in the form of special grants for capital projects. Local match is typically budgeted in the fund that is its source.
3. Projects are typically completed within a short amount of time and future programming is rare.
4. Agencies approve grants at various times throughout the year.
5. No new project is proposed for the FYE 19 Capital Budget.

CITY OF NORMAN

PROJECT TITLE: Firehouse Art Center Addition PROJ. CATEGORY: Parks & Recreation DEPARTMENT: Parks and Recreation MANAGER: Mitch Miles WARD(s): 4	PROJECT TYPE: Parks & Recreation Improvt. PROJECT NUMBER: RT0027/PR0026 ACCOUNT NUMBER: 022-9638-451/023-9638-451 BEGIN & END DATES: 7/1/17 to 6/30/19 LIFE EXPECTANCY: 50 Years
---	--

DETAILED PROJECT DESCRIPTION:

For decades, the Firehouse Art Center has offered art classes and artist training for a wide variety of mediums--painting, sculpture, photography, music, drawing, performance art, ceramics, textiles, graphic arts and more. In the past decade, they have dramatically increased their youth programs in conjunction with the Norman Public Schools art education programs. Over the years, the building in Lions Park has served as the main campus for these programs. The building was built as a Fire Station in the 1940's--and was converted to an artist space in the 1970's, when a new fire station was built to replace the Lions Park station. Several improvements have been made to the space over the years; but with increased staffing and enrollment--the space is very under-sized. The Firehouse Board of Directors has proposed a project to raise funds for a building addition--and since the space is owned by the City of Norman, it would be a benefit to both parties if we could speed up the project by sharing the costs through the Room Tax Fund, as proposed here. The first year of funding would be used to hire a design firm to prepare construction documents for the project. A subsequent year would be used to fund the building project. Major improvements would include adding restrooms to the downstairs space, increasing the office space for staff, increasing gallery space for the artists and additional classroom space.

Room Tax Fund

CAPITAL IMPROVEMENTS PLAN

ROOM TAX FUND - 23

ASSUMPTIONS

1. The referendum of July 15, 1980 authorized collection and delineated disbursement of a 4% Hotel/Motel Room Tax. Approximately 25% of the Room Tax Revenues (net of Administrative Fees) are specifically to be used for visible, image enhancing projects. April 2, 2013 Voters authorized increasing the Room Tax rate to 5%.
2. One project is proposed for FYE19, totaling \$220,000.

DETAILED PROJECT DESCRIPTION:

This project proposes to design and construct a bicycle skills course on voluntary park land owned by the City at the intersection of Lindsey Street and 24th Avenue SE. The project would be the first of its kind in Norman; and would include a small parking area accessed by the paved alley which was built north of the retail strip center located in the northwest part of that intersection. All of the available land is north and west of this commercial corner. The land was a voluntary park land donation from the developer of this area back in the 1980's. There are 3 other parks located within the square mile where we are proposing this specialty park (Colonial Estates, Colonial Commons and Sunrise Parks), so we are not proposing such a park in an area where other traditional park facilities are needed. The Bicycle Advisory Committee has been seeking the creation of a skills course in urban Norman. A single-track mountain bike trail does exist out by Lake Thunderbird; however, it is more of a trail that users drive to for use.

PROJECT TITLE: Firehouse Art Center Addition PROJ. CATEGORY: Parks & Recreation DEPARTMENT: Parks and Recreation MANAGER: Mitch Miles WARD(s): 4	PROJECT TYPE: Parks & Recreation Improvt. PROJECT NUMBER: RT0027/PR0026 ACCOUNT NUMBER: 022-9638-451/023-9638-451 BEGIN & END DATES: 7/1/17 to 6/30/19 LIFE EXPECTANCY: 50 Years
---	--

DETAILED PROJECT DESCRIPTION:

For decades, the Firehouse Art Center has offered art classes and artist training for a wide variety of mediums--painting, sculpture, photography, music, drawing, performance art, ceramics, textiles, graphic arts and more. In the past decade, they have dramatically increased their youth programs in conjunction with the Norman Public Schools art education programs. Over the years, the building in Lions Park has served as the main campus for these programs. The building was built as a Fire Station in the 1940's--and was converted to an artist space in the 1970's, when a new fire station was built to replace the Lions Park station. Several improvements have been made to the space over the years; but with increased staffing and enrollment--the space is very under-sized. The Firehouse Board of Directors has proposed a project to raise funds for a building addition--and since the space is owned by the City of Norman, it would be a benefit to both parties if we could speed up the project by sharing the costs through the Room Tax Fund, as proposed here. The first year of funding would be used to hire a design firm to prepare construction documents for the project. A subsequent year would be used to fund the building project. Major improvements would include adding restrooms to the downstairs space, increasing the office space for staff, increasing gallery space for the artists and additional classroom space.

CITY OF NORMAN

PROJECT TITLE: Historical Museum Parking Lot PROJ. CATEGORY: Parks & Recreation DEPARTMENT: Parks and Recreation MANAGER: James Briggs WARD(s): 4	PROJECT TYPE: Parks & Recreation Improvt. PROJECT NUMBER: RT0090 ACCOUNT NUMBER: 23-9627-452 BEGIN & END DATES: 7/1/18 to 6/30/19 LIFE EXPECTANCY: 40 years
--	---

DETAILED PROJECT DESCRIPTION:

This project is for the construction of a small parking lot on the land across the alley from the Moore-Lindsey House and Historical Museum at the corner of Acres and Peters. The lot is currently a grass area owned and maintained by the City, along with the museum; and used for overflow parking for the facility. However, the City does not allow parking on non-paved surfaces; so this project would make any parking in that area follow the standard applied to all properties.

The main house underwent extensive repairs over the past five years, and this project will add the final pieces to upgrading the entire site to make it more attractive and usable to the public, as well as solve the problem of overflow parking on a legal paved surface. Design work was hired-out in FYE 2018; and design documents will be ready for bid during FYE 2019.

CITY OF NORMAN

PROJECT TITLE:	Sooner Theatre Seat Replace & Interiors	PROJECT TYPE:	Parks & Recreation	Improv.
PROJ. CATEGORY:	Parks & Recreation	PROJECT NUMBER:	RT0087	
DEPARTMENT:	Parks and Recreation	ACCOUNT NUMBER:	023-9814-452	
MANAGER:	James Briggs	BEGIN & END DATES:	7/1/16	to 6/30/19
WARD(s):	4	LIFE EXPECTANCY:	50 Years	

DETAILED PROJECT DESCRIPTION:

The Sooner Theatre building is owned by the City of Norman, and leased to The Sooner Theatre, Inc.--who operate the business that produces live theatre and books national acts into the space, as well as uses the Theatre to produce children and youth theatre productions developed through The Studio of The Sooner Theatre. The building is on the National Register of Historic Places.

Since acquiring the building in the 1980's, the building's roof was replaced, the building was re-wired, dressing rooms were constructed below the stage, the orchestra pit was restored, new mechanical systems were added, the old sweet shoppe was re-built as the concession stand, sprinklers were added throughout the space, new carpeting was installed, and several of the old architectural details were re-constructed. The time has now come to do a project to totally replace the worn theatre seats with new seats in the style of the old seats from the original construction. Also, several ceiling and wall finishes are in need of repairs and minor reconstruction due to damage caused where water used to enter the building. Also, we plan to switch the interior theatrical light standards to a better location. We also need to water-proof the exterior basement walls, which will involve digging-up the alley behind the building in order to get a complete assessment of the areas where water is now entering that space. There will also be a need to re-deck the theatre stage once all other work is completed (FYE2019).

ANNUAL BUDGET

Water Fund

CAPITAL IMPROVEMENTS PLAN

WATER FUND - 31

ASSUMPTIONS

1. The primary basis for project selection and priorities include:
 - Water Master Plan recommendations,
 - Maintenance records,
 - Size - all lines under 6" should be replaced to provide pressures for adequate fire flows and the ability to connect standard 6" fire hydrants and meet State Health Department Standards,
 - Infrastructure projects nearby - all water projects should be coordinated with street projects so as not to cause damage to recently improved streets and duplication of work,
 - Age and materials - older lines are generally constructed of substandard materials or are deteriorating, and should be replaced with materials meeting current standards, and
 - Demand - all lines less than 6" serving more than four houses are very critical and should be higher priority.
 - Studies and Reports (i.e. Water system Computer Modeling, Arsenic Study, WTP Engineering Study, et al)
2. There should be a balance of improvements to all parts of the water system. Each year there should be improvements to supply, transmission, treatment, distribution, feeder lines and storage of potable water.
3. Staffing level and equipment capabilities in the Line Maintenance Division will not increase or decrease and present abilities to replace lines will remain stable. This division can currently install lines up to 8" in diameter.
4. All Projects will be scheduled on a PAYGO basis until and unless the voters approve revenue bonds.
5. Revenues from the Capital Improvements Charge (CIC) shall be used for water line replacement and construction of new lines.
6. Voters approved a water rate increase on September 12, 1995 to fund additional wells and distribution lines.
7. Voters approved an incremental water rate increase on May 10, 1999 for high volume residential users to promote water conservation and pay for increased water supply beyond the resources available.
8. On March 7, 2006, the voters approved a water rate hike to fund an increase in water capacity and enhanced maintenance at the water treatment plant, as well as new treatment units to reduce taste and odor problems. Cost overruns are shown as PayGo expenses.
9. New funding for thirteen paygo projects is proposed for in FYE 2019 totaling \$4,385,400.

CITY OF NORMAN

PROJECT TITLE: Fleet/Line Maintenance North Base Lighting Project PROJ. CATEGORY: FLEET FACILITY IMPROVEMENTS DEPARTMENT: PUBLIC WORKS/UTILITIES MANAGER: MIKE WHITE, FLEET SUPERINTENDENT WARD(s): 8	PROJECT TYPE: Bldgs & Gnds Improvt. PROJECT NUMBER: BG ACCOUNT NUMBER: 50/31/32 BEGIN & END DATES: 7/1/18 to 6/30/19 LIFE EXPECTANCY: 50,000 HOURS PER FIXTURE
--	--

DETAILED PROJECT DESCRIPTION:

The North Base facility currently has approximately 26 outside security and fuel island lights. The current lighting around the North Base building and Fuel Island are the original lighting. They are cracked and leaking causing need for increased bulb replacement, electrical problems, as well as increased potential for fire hazard. Due to these issues along with obsolete parts, the majority of the lights are non-functioning. This does not allow the security cameras to work to their full potential and can produce safety and security hazards for employees due to lack of lighting in early mornings, nights, and evenings. The proposed North Base Lighting replacement will have a great impact on utility and energy savings. This project would have a return on investment of approximately less than 4.5 years with estimated savings of 60% to 80%. Along with the energy and utility savings, there would be increased savings on labor, transportation, and material costs for Building Maintenance. Fleet has been working with Building Maintenance and this project was highly recommended. The cost and savings does include labor for replacing the fixtures for the complete building including Line Maintenance.

STATUS & COMMENTS:

\$2,400	Water will pay for 6 fixtures
\$4,400	Fleet has 11 fixtures
\$5,400	Fleet Unleaded/Diesel Fuel Island has 9 fixtures
\$12,200	GRAND TOTAL

The project expenditures are at North Base and the Unl/Dies Fuel Island for replacement, removal, and disposal of old lighting and replacing them with new LED fixtures and lighting.

PROJECT TITLE:	Waterline Improvement: OKC Second Feed	PROJECT TYPE:	Water System	Improv.
PROJ. CATEGORY:	Water Line Maintenance Misc Projects	PROJECT NUMBER:	WA	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	031-9521-462	
MANAGER:	Mark Daniels	BEGIN & END DATES:	7/1/21	to 6/30/23
WARD(s):	4	LIFE EXPECTANCY:	50 Years	

DETAILED PROJECT DESCRIPTION:

This project will install approximately 6 miles of 24-inch treated waterline from OKC to allow purchase of an additional 6 MGD of treated water from OKC. Connection point would likely be in NE Norman, possibly 12th NE or 24th NE and could act a potential blending point for non-potable groundwater and treated water. Costs taken from Table 3.7 of 2060 Strategic Water Supply Plan. 31,680 LF 24-inch at \$335 per LF plus \$563K for flow metering vault (2012 costs)

PROJECT NUMBER: WA ACCOUNT NUMBER: 031-9360-462 BEGIN & END DATES: 7/1/18 to 6/30/21 LIFE EXPECTANCY: 50 Years
--	--

DETAILED PROJECT DESCRIPTION:

As part of the development of the Water System Computer Model, the consultant identified and prioritized projects to enhance the water distribution systems ability to transfer water across the City of Norman. Identified improvements were prioritized based on their impact on the system's ability to convey water to users during peak and emergency demand periods.

Segment B includes 10,600 LF 24-inch along 24th Avenue NE between Robinson and Tecumseh, and was identified as a Priority 2 line segment.

PROJECT TITLE:	Waterline Maintenance Plan (40-Year)	PROJECT TYPE:	Water System	Improv.
PROJ. CATEGORY:	Water Line Maintenance Misc Projects	PROJECT NUMBER:	WA	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	031-9521-462	
MANAGER:	Mark Daniels	BEGIN & END DATES:	7/1/20	to 6/30/60
WARD(s):	all	LIFE EXPECTANCY:	50 Years	

DETAILED PROJECT DESCRIPTION:

The project assumes increasing water rates or creation of a Water Maintenance Fund similar to the Sewer Maintenance Fund. GIS records were researched to determine the approximate footage of older waterlines 12 inches in diameter and smaller that are constructed of ductile iron pipe, cast iron pipe, asbestos cement pipe, galvanized pipe or pipes with unknown material makeup. Generally, these pipes comprise about 60% of the total system and have outlived their design life due to age, material type, deterioration, or pipe diameter being less than current minimum of 6 inches. Existing users are expected to pay for these maintenance related issues or to upsize pipe diameter or material to meet current standards. Generally, new pipe will be PVC or HDPE.
SUBJECT TO NEW FUNDING AVAILABILITY

CITY OF NORMAN									
PROJECT TITLE:		24th NE Waterline: Alameda to Lindsey			PROJECT TYPE:		Water System		Improv.
PROJ. CATEGORY:		Water Line Maintenance Misc Projects			PROJECT NUMBER:		WA0XXX		
DEPARTMENT:		Utilities			ACCOUNT NUMBER:		031-9521-462		
MANAGER:		Mark Daniels			BEGIN & END DATES:		7/1/18	to	6/30/21
WARD(s):		4			LIFE EXPECTANCY:		50 Years		

Water Distribution Projects: The proposed water distribution system improvements are broken out by location and assumes that funding will be pro-rated between development related and maintenance related needs. Line replacements are generally required due to age, material type and the current state of deterioration. Existing users are expected to pay for maintenance related costs while increasing the size of a waterline is a development related cost to be paid by connection fees or impact fees. Costs are pro-rated by comparing the internal area of the existing pipe to the area of the enlarged pipe.

24th NE: Project will replace 5,000 LF 30" concrete waterline with 30" PVC waterlines along 24th NE from Lindsey to Alameda. Estimated cost of \$2.4M is pro-rated 100% to existing customers (\$2.4M) and 0% to new development (\$0.0M).

[illegible][illegible]

This is a new project and is moved forward to match Public Works Department project to widen 24th NE; the Public Works Department and is expected to move utilities in FYE18/19 including portions of the existing 30" waterline between Lindsey and Alameda. Water funding is shown for this project in case decisions are made to contradict past accepted policy whereby the Public Works Department funds water and sewer relocations necessitated by roadway expansion and construction.

Water Distribution Projects: The proposed water distribution system improvements are broken out by location and assume that funding will be pro-rated between development related and maintenance related needs. Line replacements are generally required due to age, material type and the current state of deterioration. Existing users are expected to pay for maintenance related costs while increasing the size of a waterline is a development related cost to be paid by connection fees or impact fees. Costs are pro-rated by comparing the internal area of the existing pipe to the area of the enlarged pipe.

West Main Street from Flood Avenue to Interstate Drive: Replace 6,700 LF 12" DIP on south side of Main with 16" PVC, and replace 5,200 LF 8" DIP on north side of Main with 12" PVC. Estimated cost of \$2.9M is pro-rated 72% to existing customers (\$2.1M) and 28% to new development (\$0.8M).

PROJECT TITLE: Water Meter GPS PROJ. CATEGORY: ? DEPARTMENT: Utilities MANAGER: Mark Daniels WARD(s): All	PROJECT TYPE: Water System PROJECT NUMBER: WA ACCOUNT NUMBER: ? BEGIN & END DATES: 7/1/18 to 6/30/19 LIFE EXPECTANCY: ?
---	---

DETAILED PROJECT DESCRIPTION:

In preparation for the Advanced Utility Systems upcoming software implementation for Utility Billing, this project would allow for the GPS collection of all water meter locations city-wide and establish a permanent link between GIS and Utility Billing going forward. The processes used to link data between the two areas has in the past has been manual, labor intensive, and inaccurate. Meter locations have only been tied as closely as a general property address rather than the actual X,Y coordinate and have been minimally sufficient for use as inputs to our water and sanitary sewer system modeling efforts.

About 95% of our approximately 40,000 water system meters remain unmapped. The funding of this project would allow for the rapid development of GIS data, provide enhanced GIS inputs to the Utility Billing software implementation, assist ongoing Utility Line Maintenance efforts, and create potential future Meter Service routing efficiencies. The permanent tie between Utility Billing and GIS made possible through this project and the Utility Billing software implementation would provide the ability to accurately map demands to the City's utility networks and to make data-driven decisions on future CIP improvements.

PROJECT TITLE: Water Tower Maintenance - Boyd Tower PROJ. CATEGORY: Water Towers DEPARTMENT: Utilities MANAGER: Chris Mattingly WARD(s): 2	PROJECT TYPE: Water System Maint. PROJECT NUMBER: WA0039 ACCOUNT NUMBER: 031-9354-462 BEGIN & END DATES: 7/1/11 to 6/30/22 LIFE EXPECTANCY: 10 Years
--	---

DETAILED PROJECT DESCRIPTION:

To continue to store drinking water in a safe environment, water towers must be continually maintained. Water tower inspection and resurfacing occurs on an approximate 10 year cycle; the Boyd Tower located near 2400 W. Boyd was last coated in May 2012. During resurfacing, structural defects and deterioration were rehabilitated in order to extend the life of the tower. Additionally, a mixing device was considered though not installed to improve circulation and prevent accumulation of stagnant water in the water tower. Summer 2017 water treatment staff tested and identified stagnant water related to this tank. Staff recommends moving forward with the installation of a mixer. Staff installed a similar mixer on Robinson tower and water tests proved that it was a success.

PROJECT TITLE: Water Tower Maintenance - Lindsey Tower PROJ. CATEGORY: Water Towers DEPARTMENT: Utilities MANAGER: Chris Mattingly WARD(s): 2	PROJECT TYPE: Water System Maint. PROJECT NUMBER: WA0182 ACCOUNT NUMBER: 031-9354-462 BEGIN & END DATES: 7/1/09 to 6/30/20 LIFE EXPECTANCY: 10 Years
---	---

DETAILED PROJECT DESCRIPTION:

To continue to store drinking water in a safe environment Norman needs to maintain their water towers on a continual basis. The Lindsey Street Tower was last addressed by resurfacing the interior of the tank in 1993. It is recommended that the existing towers be resurfaced on a 10 year rotation. During resurfacing, structural defects or deterioration will be rehabilitated in order to extend the life of this tower.

Staff has reconsidered the resurfacing of Lindsey Water Tower. Several factors such as lead paint, location regarding lead paint abatement, and poor circulation/stagnant water were considered against tearing down and replacing the tank with a new one located in a more useful part of Norman. Additionally, a new monopole is being built which will allow the NUA to honor the existing cell phone tower contracts. Therefore, this budget projection allows for the funds to demolish and remove the tank from service. Staff is having another water model ran since new apartments have been built and more are proposed in this area.

CITY OF NORMAN

PROJECT TITLE:	Reactivate Arsenic Wells & 3 MGD GWTP	PROJECT TYPE:	Water System
PROJ. CATEGORY:	Water Treatment Plant	PROJECT NUMBER:	WA
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	
MANAGER:	Mark Daniels	BEGIN & END DATES:	7/1/19 to 6/30/23
WARD(s):	All	LIFE EXPECTANCY:	20 yrs

DETAILED PROJECT DESCRIPTION:

This project considers our western well field as non-potable water and assumes 3.0 MGD of groundwater from 10 wells no longer in use will be conveyed via non-potable waterlines (estimated at \$5.2M) to 12th Ave NE and Franklin Road for treatment prior to distribution to our customers. The non potable waterline is estimated to total 7 miles; this price includes acquisition of a 10-foot wide easement, design, and construction. Wells are assumed to require rehabilitation costs of \$1.3M prior to delivery to the WTP. With an arsenic MCL of 10 PPB, the new treatment facility would likely be a microfiltration WTP costing \$12.4M to construct for an estimated total project cost of \$19.0 million.

EXPENDITURE SCHEDULE through CITY Accounts by FY

-------------------	------------	-----------	----------------

STATUS & COMMENTS:

This project could be initiated prior to the final Chromium 6 Rule and could reclaim about 3 MGD of peak capacity (2.1 sustained capacity) lost due to the arsenic rule in 2006. Cost estimates are preliminary and additional study is needed to accurately project future costs.

PROJECT TITLE: Update Water Supply Plan PROJ. CATEGORY: Water Treatment Plant DEPARTMENT: Utilities MANAGER: Mark Daniels WARD(s): All	PROJECT TYPE: Water System Improvt. PROJECT NUMBER: WA0174 ACCOUNT NUMBER: 031-9196-462 BEGIN & END DATES: 7/1/23 to 6/30/24 LIFE EXPECTANCY: 10 yrs
--	---

DETAILED PROJECT DESCRIPTION:

This project will update the 2060 Strategic Water Supply Plan prepared in 2012. Project will re- consider water supply sources such indirect potable reuse by augmenting Lake Thunderbird with highly treated effluent, direct potable reuse, the South Canadian River, proposed reservoirs near Ada (Scissortail or Parker), Kaw Reservoir near Ponca City, raw or treated water purchase from Oklahoma City, and treatment alternatives for our existing groundwater supply to meet more stringent maximum contaminant levels for drinking water.

CITY OF NORMAN

PROJECT TITLE:	12 MGD GWTP for Chromium/Arsenic	PROJECT TYPE:	Water System
PROJ. CATEGORY:	Water Treatment Plant	PROJECT NUMBER:	WA
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	31
MANAGER:	Mark Daniels	BEGIN & END DATES:	7/1/23 to 6/30/26
WARD(s):	All	LIFE EXPECTANCY:	20 yrs

DETAILED PROJECT DESCRIPTION:

Due to increasing public concerns and a potential reduction in the maximum contaminant level (MCL) for Chromium 6 as well as other naturally occurring metals in the Garber Wellington Aquifer, alternatives have been developed to reduce levels of these substances. This project considers groundwater from our entire well field as non-potable and assumes a new Chromium MCL of 10 parts per billion (PPB). This project also assumes (1) non-potable water from 7 southern wells will be blended with treated water from our existing WTP to meet the MCL (see Well Field Blending at WTP), (2) 10 wells abandoned due to arsenic levels are rehabbed, transported to and treated at a new GWTP (see 3 MGD Arsenic GWTP), and (3) 10 new wells from the FYE16 Water Wells project are also completed and assumed to provide an additional peak capacity of 3 MGD.

Thus, a peak groundwater flow of 12 MGD from 40 wells (8 MGD average daily flow) will be conveyed via non-potable waterlines to the city owned site located at 12th Ave NE and Franklin Road for treatment prior to distribution to customers. Approximately 25 miles of non-potable waterlines are expected to be constructed at an estimated cost of \$17.5M. With an MCL of 10 PPB for arsenic and Chromium 6, the new microfiltration GWTP is expected to be required at an estimated cost of \$41.4M. The estimated project timeline is to begin design (\$11.3M) and ROW acquisition (\$1.5M) in FYE23 followed by construction (\$58.9M) in FYE24 through FYE25 for a total project cost of \$71.8M. Note the timeline has been moved back two years due to a changed political scenario.

Since the majority of the improvements are related to treatment of an existing water source, the improvements should likely be paid for through water rates or other non-impact related fees. Treatment costs are taken from Assumption Tables provided in the 2060 Strategic Water Supply Plan (2012 costs); distribution costs were developed by NUA staff in 2013.

EXPENDITURE SCHEDULE through CITY Accounts by FY

OPERATING IMPACT:

negligible	Water Fnd	maintain asset
------------	-----------	----------------

STATUS & COMMENTS:

A potential reduction in the maximum contaminant level (MCL) for Chromium 6 as well as other naturally occurring metals in the Garber Wellington Aquifer, and increasing public concerns, require development of alternatives to reduce levels of these substances. Alternatives being considered vary dependent upon the reduced MCL and range from blending groundwater with surface water, treatment of numerous wells at a new facility, to abandonment of our groundwater supply and replacement from other sources. Cost estimates are preliminary and additional study is needed to accurately project future costs.

PROJECT TITLE: WTP Laboratory Remodel PROJ. CATEGORY: Water Treatment Plant DEPARTMENT: Utilities MANAGER: Geri Wellborn WARD(s): All	PROJECT TYPE: Water System Maint. PROJECT NUMBER: WA ACCOUNT NUMBER: 031-5531 BEGIN & END DATES: 7/1/19 to 6/30/20 LIFE EXPECTANCY: 20 years
---	---

DETAILED PROJECT DESCRIPTION:

The laboratory at the Water treatment Plant was built in 1983 during a plant expansion. The space is used by Plant Operators 24 hours a day and Laboratory Staff every week day. The space sees substantial traffic which has worn out the cabinets and countertops and floor in the lab. This project will develop a new layout of the lab space and replace cabinets, countertops and floor. Currently, the Operations staff office is in the hall of the administration building. The hall has 8 sets of large single pane glass windows. The space is difficult to heat and the Operations staff wear coats and coveralls when working at the desk. These windows are not energy efficient and the iron frames are rusted thru in some locations. This project will replace the windows in the hall with double pane energy efficient window. This will reduce the energy spent on conditioning the building.

PROJECT TITLE:	WTP: Land Purchase	PROJECT TYPE:	Water System	Improvmt.
PROJ. CATEGORY:	Water Treatment	PROJECT NUMBER:		
DEPARTMENT:	Utilities	ACCOUNT NUMBER:		
MANAGER:	Chris Mattingly	BEGIN & END DATES:	7/1/18	to 6/30/19
WARD(s):	All	LIFE EXPECTANCY:	10 years	

DETAILED PROJECT DESCRIPTION:

The existing water treatment plant site is fully utilized. The 2060 Strategic Water Supply Plan projects the need for an additional 13 million gallons per day (MGD) of treated water supply to reach our projected 2060 average daily demand of 29 MGD. The additional capacity at the WTP varies between 11 and 13 MGD depending upon whether 2 MGD of additional groundwater supply is selected for inclusion in our water supply portfolio. Additional land will be required under any scenario for expansion of the WTP. Tracts of at least 30 acres and up to 160 acres are needed and may be available; this CIP assumes purchase of 160 acres of land at an average cost of \$10,000 per acre.

CITY OF NORMAN

PROJECT TITLE:	WTP: Raw Waterline (Phase 2)	PROJECT TYPE:	Water System	Improv.
PROJ. CATEGORY:	Raw Waterline	PROJECT NUMBER:	WA	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	031-9356-462	
MANAGER:	Chris Mattingly	BEGIN & END DATES:	7/1/19	to 6/30/21
WARD(s):	5	LIFE EXPECTANCY:	50 years	

DETAILED PROJECT DESCRIPTION:

SUBJECT TO FUNDING AVAILABILITY

This project will install a new raw waterline from the Water Treatment Plant to the Lake Thunderbird Intake. The current line has 33- and 30-inch diameters over approximately 8.5 miles and limits the plant capacity of 14 MGD. The proposed 48-inch line is expected to deliver about 42 million gallons per day (MGD) which is equivalent to the projected surface water supply needs through 2060. Constructing the line parallel to the existing line will provide redundancy as it will allow the existing raw waterline to be taken off line for maintenance purposes without disrupting the water supply to the citizens of Norman.

The Phase 2 project assumes construction of the remaining 6.5 miles of 48" waterline to the Lake Thunderbird Intake in 2020; 2.5 miles from the WTP to 60th NE was replaced in Phase 1. As the future unfolds regarding the importation of reuse water or SE Oklahoma water, an alternate connection could be sought. Option 2 also includes approximately 6.5 miles of piping going due north on 60th NE to Lake Stanley Draper. Option 3 includes piping reuse water to a future terminal reservoir and constructing approximately 3 miles of raw water piping to the end of Phase 1; under this option a treated effluent line with a length of about 7.5 miles would also be required.

EXPENDITURE SCHEDULE through CITY Accounts by FY

Account Number	Cost Element	TOTAL ALL FISCAL YRS	Actual Prior Years	Budget FYE 2017	FYE 2018	FYE 2019	FYE 2020	FYE 2021	FYE 2022	Beyond 5 Years

OPERATING IMPACT:

moderate	Water Fnd	new line will require maintenance
----------	-----------	-----------------------------------

STATUS & COMMENTS:

This assumes all costs to be borne by City of Norman rather than shared by other COMCD members: Del City and Midwest City.

Raw Water line cost estimates prepared in 2007 by Garver Engineers are increased 2.5% per year to account for inflation; design and ROW assumed to be completed in FYE23 and with construction in FYE24. Completion of a terminal reservoir could delay or shorten the length of the second phase of raw water line construction. Project moved back to FYE2023.

ANNUAL BUDGET

Water Reclamation Fund

CAPITAL IMPROVEMENTS PLAN

WATER RECLAMATION FUND – 32

ASSUMPTIONS

1. Primary factors affecting project selection and priorities include:
 - Compliance with EPA administrative orders,
 - Relative impact on other parts of the sanitary sewerage system,
 - Maintenance history and service calls,
 - Inspections,
 - Wastewater Master Plan recommendations,
 - Accessibility,
 - Relative location downstream or upstream in the system, and
 - Coordination with nearby infrastructure projects.
2. Fund 32 is the Norman Utilities Authority Wastewater Reclamation Facility Fund that accounts for revenues associated with existing customers and ongoing accounts.
3. A 25 member, Council-appointed, Implementation Committee, will prioritize improvements to both the interceptors and the treatment plant with the assistance of staff. For interceptors, the committee might consider the following factors:
 - Sales tax funded project scope should be appropriate to allow funding on a “pay-as-you-go” basis.
 - Those interceptor segments shown to be most severely overloaded under the existing wastewater loading should be most highly rated. Similarly, those becoming overloaded under an obligated loading would have a higher priority than one becoming overloaded under full build-out. Expressed differently, those interceptors needing only a small increase in capacity to meet full build-out demands would have a higher priority than interceptors needing a large increase in capacity.
 - Downstream interceptor segments should generally be of higher priority than upstream segments. Interceptor projects in separate drainage basins can occur simultaneously as they are not interdependent.
 - Since excise tax funding is expected to lag behind sales tax funding, interceptor segments that are the same size under both the obligated and the full build-out scenarios might be funded first. Generally, this implies the service area is close to being fully developed, or a portion of the existing flow will be diverted to the proposed northern wastewater treatment plant.
 - Parallel interceptors might have a lower priority than a replacement interceptor might since additional rights-of-way may need to be acquired for parallel interceptors. Right-of-way/easement acquisition often delays project start-up.
 - The new interceptors serving existing customers in the Lift Station D service area must be timed to come on-line concurrently with the proposed northern wastewater treatment plant. Design and right-of-way acquisition for these interceptors might have a high priority while construction might be delayed several years.
4. In FYE 2015 Council approved transferring the sewer line maintenance operations out of the Sewer Line Maintenance Fund into the Water Reclamation Fund in order to better track the collection and distribution of the \$5 per month sewer maintenance fee.
5. New funding for eight projects is proposed in FYE 2019 totaling \$2,317,900.

CITY OF NORMAN

PROJECT TITLE:	WRF Non-Potable Reuse System	PROJECT TYPE:	Wastewater System	Improvmt.
PROJ. CATEGORY:	Non Potable Water System	PROJECT NUMBER:	WW0205	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	32	
MANAGER:	Mark Daniels	BEGIN & END DATES:	07/01/14	to 06/30/20
WARD(s):	7 5	LIFE EXPECTANCY:	20 years	

DETAILED PROJECT DESCRIPTION:

A non-potable water system to allow reuse of treated effluent for wash down of equipment and irrigation of the WRF site was completed in 2011. Chlorinated wastewater effluent may also be used for irrigation purposes offsite and can be cost effective when high volume users located near the WRF are willing to utilize the wastewater. Non-potable reuse can significantly reduce peak summertime water demand and delay the need for expensive water supply projects. Reuse will also reduce the amount of pollutants discharged to the Canadian River.

It is proposed to construct a reuse line from the WRF along Cedar Lane to 12th NE, 24th NE, to Imhoff & 24th Ave. SE and serve major industrial users along the route. A second phase could deliver reuse water to the Trails Golf Course near Berry Road and Highway 9. NUA will be installing 24-inch Segment D Waterline along Jenkins between Timberdell and Hwy 9 in Summer 2018. Non-potable treated effluent reuse pipeline for irrigation purposes is ultimately proposed between WRF and Lindsey Water Tower/Duck pond area. Additional \$530K funding in FYE19 will allow installation of a parallel 16-inch diameter reuse water line at same time as potable waterline; pipe will be temporarily capped until remainder of system can be designed and constructed.

EXPENDITURE SCHEDULE through CITY Accounts by FY

OPERATING IMPACT: positive Wstwr Fnd reduced use of potable water for irrigation

STATUS & COMMENTS:

NUA will be installing 24-inch Segment D Waterline along Jenkins between Timberdell and Hwy 9 in Summer 2018. Non-potable treated effluent reuse pipeline for irrigation purposes is ultimately proposed between WRF and Lindsey Water tower/Duck pond area. Additional \$510K funding in FYE19 will allow installation of a parallel 16-inch or 20-inch diameter reuse water line at same time as potable waterline; pipe will be temporarily capped until remainder of system can be designed and constructed. Due to higher priority to reuse treated effluent by augmenting Lake Thunderbird, irrigation project delayed until FYE20; inflate costs at 2.5% from 2009

PROJECT TITLE:	Summit Valley Interceptor	PROJECT TYPE:	Wastewater System	Improv.
PROJ. CATEGORY:	Wastewater Collection System	PROJECT NUMBER:	WW0278	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	032/322	
MANAGER:	Mark Daniels	BEGIN & END DATES:	7/1/17	to 6/30/19
WARD(s):	5	LIFE EXPECTANCY:	50 years	

DETAILED PROJECT DESCRIPTION:

The Wastewater Master Plan (WWMP) identified sewer interceptor needs throughout Norman to accomodate full build-out of the NORMAN 2025 Plan. The citizens of Norman approved an ongoing excise tax (Fund 322) to provide capacity for future development. Staff has recently prepared cost estimates to serve additional area in SE Norman which currently will gravity flow to the Summit Valley Lift Station (LS). The Summit Valley interceptor will extend northerly to the existing Eastridge LS and allow this LS constructed in the 1980's to be removed from service. The existing Summit Valley LS has capacity to serve the area served by the Eastridge LS. The lift station could initially be funded by developers and/or the NUA with a portion of the funding paid back as additional areas develop.

EXPENDITURE SCHEDULE through CITY Accounts by FY

Account Number	Cost Element	TOTAL ALL FISCAL YRS	Actual Prior Years	Budget FYE 2018	FYE 2019	FYE 2020	FYE 2021	FYE 2022	FYE 2023	Beyond 5 Years

OPERATING IMPACT:

more revenue	Wstwr Fnd	reduced future maintenance for new lift stations
--------------	-----------	--

STATUS & COMMENTS:

Funding to construct interceptor to Eastridge LS and demolish LS is 100% Sewer Reclamation Fund (032). Funding to upsize SS is 100% excise tax (322). If applicable, upfront cost to fund developer portion would be excise tax and paid back over 20 years. CONSTRUCTION MOVED BACK ONE YEAR TO FYE19.

PROJECT TITLE:	Bishop Creek Interceptor Replacements	PROJECT TYPE:	Wastewater System	Improv.
PROJ. CATEGORY:	Wastewater Collection System	PROJECT NUMBER:	WW	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	032/322	
MANAGER:	Mark Daniels	BEGIN & END DATES:	7/1/30	to 6/30/35
WARD(s):		LIFE EXPECTANCY:	50 years	

DETAILED PROJECT DESCRIPTION:

Under the Wastewater Flow Monitoring project (WW0042), HDR Engineering completed city-wide flow monitoring and wastewater modeling to simulate the affect a 5-year 4-hour design storm on the existing collection system. Thirty-two flow meters and ten rain gauges utilized to collect dry and wet weather flow data and project wastewater loading under full buildout of the 2025 Land Use Plan. Capacity analysis report recommended improvements necessary to prevent overflow during the design storm at full buildout.

Approximately 20,600 feet of sewer lines in the Bishop Creek wastewater basin (Table 4-2) may need improvement over the next 10 to 30 years; improvements are delayed at this time since sewer system overflows are very infrequent at this time and since ongoing sewer replacements under the Sewer Maintenance Plan may continue to decrease infiltration and inflow into the collection system.

EXPENDITURE SCHEDULE through CITY Accounts by FY

PROJECT TITLE:	New Building for Line Maintenance	PROJECT TYPE:	Water System	Improvmt.
PROJ. CATEGORY:	Bldgs & Gnds	PROJECT NUMBER:		
DEPARTMENT:	Utilities	ACCOUNT NUMBER:		
MANAGER:	David Hager	BEGIN & END DATES:	7/1/18	to 6/30/20
WARD(s):	All	LIFE EXPECTANCY:	10 years	

DETAILED PROJECT DESCRIPTION:

The Line Maintenance Division consisting of administrative staff, and water and sewer line maintenance sections are located on the North Base property; they are housed adjacent to the Fleet offices and vehicle servicing areas. The existing 11,000 SF building area housing administrative offices, the employee breakroom, fire hydrant/meter repair area as well as a storage area for numerous water and sewer line repair parts, replacement meters/firehydrants, etc. A separate building is provided for pump repair parts and a work area for pump repairs and testing. This CIP assumes construction of a new 20,000 SF facility and appurtenances NW of the water treatment plant at an estimated cost of \$100 per square foot (SF) with design estimated at 10% of the building cost.

CITY OF NORMAN

PROJECT TITLE:	South WRF Phase 3 BNR Improvements	PROJECT TYPE:	Wastewater System	Improv.
PROJ. CATEGORY:	Wastewater Improvements	PROJECT NUMBER:	WW	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	032/323-9048-432	
MANAGER:	Mark Daniels	BEGIN & END DATES:	7/1/19	to 6/30/24
WARD(s):	All	LIFE EXPECTANCY:	50 years	

DETAILED PROJECT DESCRIPTION:

The Wastewater Master Plan recommended expansion of the South WRF to 17 MGD. The engineering report for the South WRF Improvements identified the Phase 2 Improvements as well as anticipated improvements necessary to upgrade treatment processes to improve effluent quality and possibly allow indirect potable reuse. It is assumed the Phase 2 South WRF improvements are in place prior to this project.

The Phase 3 improvements will likely include the addition of biological nutrient removal (BNR) to reduce phosphorus and nitrogen and an effluent pump station followed by filtration to further reduce solids. This phase would be required if our effluent discharge permit is made more stringent or if reuse of highly treated effluent for water supply use is implemented. It is assumed that DEQ regulations allowing indirect reuse will become effective in 2020.

EXPENDITURE SCHEDULE through CITY Accounts by FY

Account Number	Cost Element	TOTAL ALL FISCAL YRS	Actual Prior Years	Budget FYE 2018	FYE 2019	FYE 2020	FYE 2021	FYE 2022	FYE 2023	Beyond 5 Years

Fund 322 Total		16,000,000	0	0	0	0	0	360,000	360,000	15,280,000
Total		100,100,000	0	0	0	0	0	1,970,000	1,970,000	96,160,000

OPERATING IMPACT: high Wstwr Fnd higher power costs to operate BNR basins and effluent pump station

STATUS & COMMENTS:

Project costs originally taken from the Phase 2 WRF Expansion engineering report dated November 2011. Costs were updated in a 2015 report to the COMCD regarding augmentation with 15 MGD of effluent to Lake Thunderbird. Construction of effluent pipeline to Dave Blue Creek and BNR treatment reduce turbidity, phosphorus and nitrogen to typical augmentation levels are included and inflated to 2021. Design and inspection is based on 20% of total construction cost. The revised cost estimate shown above assumes the following:

- Design of the WRF BNR expansion is initiated in FYE22 while construction is initiated in FYE25.
- Cost sharing for the filtration design & construction is 18%/82% (excise tax/wastewater fund) based on the obligated flow of 13.9 MGD and the design flow of 17.0 MGD; $13.9/17.0 = 81.8\%$. The citizens of Norman approved an ongoing sewer excise tax (SET) on new development to fund future needs (Fund 322) while the wastewater fund (032) is assumed to pay for existing or obligated needs.

PROJECT TITLE:	Class "A" Sludge Co-Composting	PROJECT TYPE:	Wastewater System	Improv.
PROJ. CATEGORY:	Sanitation Improvements	PROJECT NUMBER:	WW/SA	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	see below	
MANAGER:	Mark Daniels	BEGIN & END DATES:	07/01/17	to 06/30/20
WARD(s):	7	LIFE EXPECTANCY:	20 years	

DETAILED PROJECT DESCRIPTION:

Co-composting of wastewater sludge with yard waste/wood chips is a process to further reduce pathogens (PFRP) in treated Class B biosolids and will allow the WRF to achieve class "A" sludge. The higher level of treatment results in a safer product for handling and allows marketing of the product. Class A sludge may be utilized in parks, greenbelts and other public places without restriction while Class B sludge is restricted to non public access areas. Class A sludge production reduces record keeping significantly.

DEPARTMENT:	Utilities	ACCOUNT NUMBER:	32	
MANAGER:	Steven Hardeman	BEGIN & END DATES:	7/1/18	to 6/30/19
WARD(s):	7	LIFE EXPECTANCY:	20 years	

DETAILED PROJECT DESCRIPTION:

The Phase 2 Water Reclamation Facility (WRF) Improvements were completed in December 2017. As a part of the improvements, a room in the Main Control Building used for storage of critical spare parts was converted to an electrical room for the new sludge dewatering centrifuges. The WRF is now in need of additional storage for its expanded inventory of critical spare parts as well as providing space out of the often inclement weather to perform maintenance on equipment. A new Maintenance Building is now needed since there is no other available space in existing on-site WRF buildings for this purpose.

PROJECT TITLE:	WRF Septage Receiving Station	PROJECT TYPE:	Bldgs & Gnds	Improv.
PROJ. CATEGORY:		PROJECT NUMBER:		
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	32	
MANAGER:	Steven Hardeman	BEGIN & END DATES:	7/1/18	to 6/30/20
WARD(s):	7	LIFE EXPECTANCY:	20 years	

DETAILED PROJECT DESCRIPTION:

The Water Reclamation Facility (WRF) is often contacted regarding the possibility of taking trucked wastewater from hauling companies. Delivery of trucked wastes is not typically approved due to the undocumented quality of the trucked waste. The WRF could generate substantial revenue from companies hauling septage (septic tank clean-outs) and other acceptable wastes. To do so, a facility is required to temporarily store trucked wastes delivered to the WRF while water quality testing is performed to verify its acceptability. Preparation of an engineering study and design is budgeted for FYE19 while construction is budgeted the following year.

Sewer Maintenance Fund

CAPITAL IMPROVEMENTS PLAN

SEWER MAINTENANCE FUND – 321

ASSUMPTIONS

1. Primary factors affecting project selection and priorities include:
 - Compliance with EPA administrative orders,
 - Relative impact on other parts of the sanitary sewerage system,
 - Maintenance history and service calls,
 - Inspections,
 - Wastewater Master Plan recommendations,
 - Accessibility,
 - Relative location downstream or upstream in the system, and
 - Coordination with nearby infrastructure projects.
2. New sources of revenue were approved by voters on August 14, 2001 became effective October 1, 2001 and are:
 - Sewer Maintenance (Fund 321) - \$5 per month, sewer service maintenance rate charged to each residence, apartment, business or mobile home receiving sewer service in the City; to be used for establishing an upgraded sewer maintenance program and not to pay debt service.
3. A 25 member, Council-appointed, Implementation Committee, will prioritize improvements to both the interceptors and the treatment plant with the assistance of staff. For interceptors, the committee might consider the following factors:
 - Sales tax funded project scope should be appropriate to allow funding on a “pay-as-you-go” basis.
 - Those interceptor segments shown to be most severely overloaded under the existing wastewater loading should be most highly rated. Similarly, those becoming overloaded under an obligated loading would have a higher priority than one becoming overloaded under full build-out. Expressed differently, those interceptors needing only a small increase in capacity to meet full build-out demands would have a higher priority than interceptors needing a large increase in capacity.
 - Downstream interceptor segments should generally be of higher priority than upstream segments. Interceptor projects in separate drainage basins can occur simultaneously as they are not interdependent.
 - Since excise tax funding is expected to lag behind sales tax funding, interceptor segments that are the same size under both the obligated and the full build-out scenarios might be funded first. Generally, this implies the service area is close to being fully developed, or a portion of the existing flow will be diverted to the proposed northern wastewater treatment plant.
 - Parallel interceptors might have a lower priority than a replacement interceptor might since additional rights-of-way may need to be acquired for parallel interceptors. Right-of-way/easement acquisition often delays project start-up.
 - The new interceptors serving existing customers in the Lift Station D service area must be timed to come on-line concurrently with the proposed northern wastewater treatment plant. Design and right-of-way acquisition for these interceptors might have a high priority while construction might be delayed several years.
4. In FYE 2015 Council approved transferring the sewer line maintenance operations out of the Sewer Line Maintenance Fund into the Water Reclamation Fund in order to better track the collection and distribution of the \$5 per month sewer maintenance fee.
5. Three projects are proposed for funding in FYE 2019 totaling \$2,800,000.

PROJECT TITLE:	Sanitary Sewer Emergency Repairs	PROJECT TYPE:	Wastewater System	Maint.
PROJ. CATEGORY:	Line Maintenance	PROJECT NUMBER:	WW0248, Maintenance	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	321-9974-432.61-01	
MANAGER:	David Hager	BEGIN & END DATES:	7/1/02	to 6/30/23
WARD(s):	All	LIFE EXPECTANCY:	40 yrs.	

DETAILED PROJECT DESCRIPTION:

This is an annual project to perform emergency repairs of sanitary sewer lines by outside contractor on an as-needed basis. Un-needed funds are returned to Wastewater Maintenance Fund (321) balance at end of each fiscal year. Location of repairs to be determined on a case by case basis when repairs are beyond the scope of Sewer Line Maintenance staff due to depth, location or manpower restrictions.

EXPENDITURE SCHEDULE through CITY Accounts by FY

OPERATING IMPACT: negligible Swr Maint F Maintains a means for emergency system repairs

STATUS & COMMENTS:

\$122,504 spent in FYE17 for repairs to Bishop Creek sewer crossing. \$706,936 has been spent during 14 previous years for an average of about \$50,000. Wastewater maintenance fee is expected to generate at least \$2.7 million per year; this emergency repair account is expected to continue indefinitely.

PROJECT TITLE: Sewer Maintenance Project FY 2022 PROJ. CATEGORY: Sanitary Sewer Replacements DEPARTMENT: Utilities MANAGER: Charlie Thomas WARD(s): 6	PROJECT TYPE: Wastewater System Maint. PROJECT NUMBER: WW ACCOUNT NUMBER: 321-9338-432 BEGIN & END DATES: 7/1/21 to 6/30/23 LIFE EXPECTANCY: 50 Years
---	--

DETAILED PROJECT DESCRIPTION:

Annual rehabilitation project; the project area is generally bounded by Boyd St. to the North, Wiley Road to the West, Lindsey Street to the South, and Bishop Creek/Pickard Ave. to the east; additional lines may be added by staff if funding is available. Repair or replacement of about 19,200 feet of sewer is needed in the project area, subject to innocuous adjustments by staff, due to unforeseen system operational considerations. Alternates may be bid, but are not identified yet.

ANNUAL BUDGET

**Sewer New
Development Fund**

CAPITAL IMPROVEMENTS PLAN

NEW DEVELOPMENT EXCISE TAX FUND –322

ASSUMPTIONS

1. Primary factors affecting project selection and priorities include:
 - Compliance with EPA administrative orders,
 - Relative impact on other parts of the sanitary sewerage system,
 - Maintenance history and service calls,
 - Inspections,
 - Wastewater Master Plan recommendations,
 - Accessibility,
 - Relative location downstream or upstream in the system, and
 - Coordination with nearby infrastructure projects.
2. New sources of revenue were approved by voters on August 14, 2001 became effective October 1, 2001 and are:
 - New Development Excise Tax (Fund 322) – an excise tax on new residential and commercial development to be served by the sewer system; to be used for future improvements and expansion to the city's wastewater system. The amount generated is dependent on growth, but is anticipated to be \$2 million per year. Projects will be funded primarily Pay Go and debt financed as needed.
3. A 25 member, Council-appointed, Implementation Committee, will prioritize improvements to both the interceptors and the treatment plant with the assistance of staff. For interceptors, the committee might consider the following factors:
 - Sales tax funded project scope should be appropriate to allow funding on a “pay-as-you-go” basis.
 - Those interceptor segments shown to be most severely overloaded under the existing wastewater loading should be most highly rated. Similarly, those becoming overloaded under an obligated loading would have a higher priority than one becoming overloaded under full build-out. Expressed differently, those interceptors needing only a small increase in capacity to meet full build-out demands would have a higher priority than interceptors needing a large increase in capacity.
 - Downstream interceptor segments should generally be of higher priority than upstream segments. Interceptor projects in separate drainage basins can occur simultaneously as they are not interdependent.
 - Since excise tax funding is expected to lag behind sales tax funding, interceptor segments that are the same size under both the obligated and the full build-out scenarios might be funded first. Generally, this implies the service area is close to being fully developed, or a portion of the existing flow will be diverted to the proposed northern wastewater treatment plant.
 - Parallel interceptors might have a lower priority than a replacement interceptor might since additional rights-of-way may be required for parallel interceptors. Right-of-way/easement acquisition often delays project start-up.
 - The new interceptors serving existing customers in the Lift Station D service area must be timed to come on-line concurrently with the proposed northern wastewater treatment plant. Design and right-of-way acquisition for these interceptors might have a high priority while construction might be delayed several years.
4. One project is proposed for funding in FYE 2019 in the amount of \$143,400.

CITY OF NORMAN

PROJECT TITLE: Summit Valley Interceptor PROJ. CATEGORY: Wastewater Collection System DEPARTMENT: Utilities MANAGER: Mark Daniels WARD(s): 5	PROJECT TYPE: Wastewater System Improvt. PROJECT NUMBER: WW0278 ACCOUNT NUMBER: 032/322 BEGIN & END DATES: 7/1/17 to 6/30/19 LIFE EXPECTANCY: 50 years
--	---

DETAILED PROJECT DESCRIPTION:

The Wastewater Master Plan (WWMP) identified sewer interceptor needs throughout Norman to accomodate full build-out of the NORMAN 2025 Plan. The citizens of Norman approved an ongoing excise tax (Fund 322) to provide capacity for future development. Staff has recently prepared cost estimates to serve additional area in SE Norman which currently will gravity flow to the Summit Valley Lift Station (LS). The Summit Valley interceptor will extend northerly to the existing Eastridge LS and allow this LS constructed in the 1980's to be removed from service. The existing Summit Valley LS has capacity to serve the area served by the Eastridge LS. The lift station could initially be funded by developers and/or the NUA with a portion of the funding paid back as additional areas develop.

EXPENDITURE SCHEDULE through CITY Accounts by FY

Account Number	Cost Element	TOTAL ALL FISCAL YRS	Actual Prior Years	Budget FYE 2018	FYE 2019	FYE 2020	FYE 2021	FYE 2022	FYE 2023	Beyond 5 Years

	032 Total	363,600	0	79,000	284,600	0	0	0	0	0

OPERATING IMPACT:

more revenue Wstwr Fnd reduced future maintenance for new lift stations

STATUS & COMMENTS:

Funding to construct interceptor to Eastridge LS and demolish LS is 100% Sewer Reclamation Fund (032). Funding to upsize SS is 100% excise tax (322). If applicable, upfront cost to fund developer portion would be excise tax and paid back over 20 years. CONSTRUCTION MOVED BACK ONE YEAR TO FYE19.

PROJ. CATEGORY:	Wastewater Collection System	PROJECT NUMBER:	WW	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	032/322	
MANAGER:	Mark Daniels	BEGIN & END DATES:	7/1/30	to 6/30/35
WARD(s):		LIFE EXPECTANCY:	50 years	

DETAILED PROJECT DESCRIPTION:

Under the Wastewater Flow Monitoring project (WW0042), HDR Engineering completed city-wide flow monitoring and wastewater modeling to simulate the affect a 5-year 4-hour design storm on the existing collection system. Thirty-two flow meters and ten rain gauges utilized to collect dry and wet weather flow data and project wastewater loading under full buildout of the 2025 Land Use Plan. Capacity analysis report recommended improvements necessary to prevent overflow during the design storm at full buildout.

Approximately 20,600 feet of sewer lines in the Bishop Creek wastewater basin (Table 4-2) may need improvement over the next 10 to 30 years; improvements are delayed at this time since sewer system overflows are very infrequent at this time and since ongoing sewer replacements under the Sewer Maintenance Plan may continue to decrease infiltration and inflow into the collection system.

EXPENDITURE SCHEDULE through CITY Accounts by FY

CITY OF NORMAN

PROJECT TITLE:	South WRF Phase 3 BNR Improvements	PROJECT TYPE:	Wastewater System	Improv.
PROJ. CATEGORY:	Wastewater Improvements	PROJECT NUMBER:	WW	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	032/323-9048-432	
MANAGER:	Mark Daniels	BEGIN & END DATES:	7/1/19	to 6/30/24
WARD(s):	All	LIFE EXPECTANCY:	50 years	

DETAILED PROJECT DESCRIPTION:

The Wastewater Master Plan recommended expansion of the South WRF to 17 MGD. The engineering report for the South WRF Improvements identified the Phase 2 Improvements as well as anticipated improvements necessary to upgrade treatment processes to improve effluent quality and possibly allow indirect potable reuse. It is assumed the Phase 2 South WRF improvements are in place prior to this project.

The Phase 3 improvements will likely include the addition of biological nutrient removal (BNR) to reduce phosphorus and nitrogen and an effluent pump station followed by filtration to further reduce solids. This phase would be required if our effluent discharge permit is made more stringent or if reuse of highly treated effluent for water supply use is implemented. It is assumed that DEQ regulations allowing indirect reuse will become effective in 2020.

STATUS & COMMENTS:

Project costs originally taken from the Phase 2 WRF Expansion engineering report dated November 2011. Costs were updated in a 2015 report to the COMCD regarding augmentation with 15 MGD of effluent to Lake Thunderbird. Construction of effluent pipeline to Dave Blue Creek and BNR treatment reduce turbidity, phosphorus and nitrogen to typical augmentation levels are included and inflated to 2021. Design and inspection is based on 20% of total construction cost. The revised cost estimate shown above assumes the following:

- Design of the WRF BNR expansion is initiated in FYE20 while construction is initiated in FYE23.
- Cost sharing for the filtration design & construction is 18%/82% (excise tax/wastewater fund) based on the obligated flow of 13.9 MGD and the design flow of 17.0 MGD; $13.9/17.0 = 81.8\%$. The citizens of Norman approved an ongoing sewer excise tax (SET) on new development to fund future needs (Fund 322) while the wastewater fund (032) is assumed to pay for existing or obligated needs.

TOTAL PROJECT BUDGET BY FUND SOURCE AND PURPOSE:

ANNUAL BUDGET

CITY OF NORMAN

PROJECT TITLE:	North Water Reclamation Facility	PROJECT TYPE:	Wastewater System	Improv.
PROJ. CATEGORY:	WRF Systems	PROJECT NUMBER:	WW0204	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	322-, 323-9049-432	
MANAGER:	Mark Daniels	BEGIN & END DATES:	7/1/30	to 6/30/35
WARD(s):	All	LIFE EXPECTANCY:	50 Years	

DETAILED PROJECT DESCRIPTION:

The Wastewater Master Plan (WWMP) identified sewer needs throughout Norman to accommodate full build-out of the NORMAN 2020 Land Use and Transportation Plan; a new 4.5 MGD North Water Reclamation Facility (WRF) was a component of the WWMP. This project will include the cost of siting, permitting and constructing a new North WRF in the Little River drainage basin to serve the full build-out condition defined as urban area in the current Land Use and Transportation Plan. The Engineering Report (ER) under Project WW0204 is the first step toward obtaining a permit to design and construct the new WRF and will verify the estimated costs included herein. Engineering, permitting and construction of a WRF discharging to the Little River is estimated at \$85 million to \$95 million depending on whether reuse of effluent is permitted. A

Total Maximum Daily Load (TMDL) Study would also need to be performed prior to discharge into either the Little River or the Canadian River; design and construction of the improvements would follow when required. For the purpose of this CIP, discharge to the Little River is assumed.

EXPENDITURE SCHEDULE through CITY Accounts by FY

OPERATING IMPACT:		positive	Wstwr Fnd	New infrastructure to serve existing and future customers						

STATUS & COMMENTS:

In 2001, the citizens of Norman approved an ongoing sewer excise tax (SET); SET revenues fund capacity for development occurring after 2001. Based on the remaining obligated capacity being built as a part of the Phase 2 (South) WRF Improvements, the SET would fund 100% of the costs. Projected expenditures are estimated at beyond 5 years as the recently rehabilitated Lift Station D will adequately serve the North sewer basin for at least 10 to 15 years or about 2030. Estimates are 2012 costs and have not been inflated forward to time of implementation.

CAPITAL IMPROVEMENTS PLAN

SANITATION FUND - 33

ASSUMPTIONS

1. All Projects are scheduled on a Paygo basis and cannot be funded until and unless the voters approve a revenue rate increase and/or revenue bonds.
2. Revenues from the Sanitation Fees shall be used for construction of new facilities or maintenance of existing facilities.
3. Five projects are proposed for funding in FYE 2019 in the amount of \$2,652,000.

CITY OF NORMAN

PROJECT TITLE:	Effluent Truck Wash Facility	PROJECT TYPE:	Wastewater System	Improv.
PROJ. CATEGORY:	Building Improvements	PROJECT NUMBER:	WW0050/SAxxxx	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:		
MANAGER:	Mark Daniels	BEGIN & END DATES:	7/1/17	to 6/30/19
WARD(s):	7	LIFE EXPECTANCY:	20 years	

DETAILED PROJECT DESCRIPTION:

Under this project, a non-potable water line from the Water Reclamation Facility (WRF) will be extended to the Sanitation Yard south of the WRF where an automated truck wash will be constructed to allow reuse of treated effluent. Sanitation spends close to \$30,000 per year on a truck washing contract. All wastewater generated will be returned to the WRF. Certain DEQ criteria have to be met regarding reuse of treated effluent; the truck washing must be fully automated to ensure no human contact with the reuse water or a pre treatment system (Ozone) to render the water harmless is required. A periodic maintenance program for the facility should also be developed.

EXPENDITURE SCHEDULE through CITY Accounts by FY

Account Number	Cost Element	TOTAL ALL FISCAL YRS	Actual Prior Years	Budget FYE 2018	FYE 2019	FYE 2020	FYE 2021	FYE 2022	FYE 2023	Beyond 5 Years
033-xxxx-432-62-01	Design	60,000			60,000					
6001	ROW	0								
6701	Utilities	0								
033-xxxx-432-61-01	Const	395,000			395,000					
6301	Matls	0								
		0								
	Total	455,000	0	0	455,000	0	0	0	0	0

OPERATING IMPACT: positive San Fnd Currently we are paying just under 30K annually to a sub contractor.

STATUS & COMMENTS:

This will have an immediate beneficial impact by eliminating a subcontractor. There are no outside revenue sources but costs could be recovered internally by charging a fee for use by other departments. The construction cost of the water and sewer lines, a concrete pad, and the automated truck wash components are estimated at \$395,000. Design is estimated at 15% of the construction cost. DEQ will not allow reuse water in truck wash without more expensive additional treatment. Former Project WW0050 under Water Reclamation Fund shifted to Sanitation Fund who will benefit from the project.

PROJECT TITLE: Effluent Reuse at Compost Facility PROJ. CATEGORY: Non Potable Water System DEPARTMENT: Utilities MANAGER: Mark Daniels WARD(s): 7 5	PROJECT TYPE: Wastewater System Improvt. PROJECT NUMBER: WW0058/SAXXXX ACCOUNT NUMBER: BEGIN & END DATES: 07/01/17 to 06/30/18 LIFE EXPECTANCY: 20 years
--	---

DETAILED PROJECT DESCRIPTION:

A non-potable water system allowing reuse of treated effluent at the WWTP site is in place. Disinfected wastewater effluent may also be used, if permitted by the ODEQ, for irrigation purposes offsite such as at the new Compost Facility directly south of the WWTP. Wastewater reuse in this manner can significantly reduce water demand and delay the need for expensive water supply projects. Reuse will also reduce the amount of pollutants discharged to the Canadian River. This project will install piping to the compost facility and examine the need to upsize the non-potable water pumps.

CITY OF NORMAN

PROJECT TITLE:	Class "A" Sludge Co-Composting	PROJECT TYPE:	Wastewater System	Improv.
PROJ. CATEGORY:	Sanitation Improvements	PROJECT NUMBER:	WW/SA	
DEPARTMENT:	Utilities	ACCOUNT NUMBER:	see below	
MANAGER:	Mark Daniels	BEGIN & END DATES:	07/01/17	to 06/30/20
WARD(s):	7	LIFE EXPECTANCY:	20 years	

DETAILED PROJECT DESCRIPTION:

Co-composting of wastewater sludge with yard waste/wood chips is a process to further reduce pathogens (PFRP) in treated Class B biosolids and will allow the WRF to achieve class "A" sludge. The higher level of treatment results in a safer product for handling and allows marketing of the product. Class A sludge may be utilized in parks, greenbelts and other public places without restriction while Class B sludge is restricted to non public access areas. Class A sludge production reduces record keeping significantly.

EXPENDITURE SCHEDULE through CITY Accounts by FY

DETAILED PROJECT DESCRIPTION:

Our Sanitation facilities have served the City of Norman well. However, the Sanitation Department is at a crossroads where decisions should be made regarding the future of Department functions. Currently, the Department operates a fleet of trucks for collection of residential and commercial refuse with landfill disposal as well as separate collection of yardwaste for composting into a reusable product. The Department also conducts an annual Household Hazardous Waste (HHW) collection event for our citizens to dispose of unwanted chemicals, paints, petroleum products, electronics, pharmaceuticals, etc.; a permanent, manned HHW collection facility may be more cost effective and desirable for our citizens. The Department also manages the collection of a residential recyclables through an outside contractor and has installed three recycling stations for non-residential and rural customers; internal collection of these recyclables will be considered. The Department is also examining the feasibility of collecting multi-family and commercial recycling as well as the possible construction of a Materials Recycling Facility (MRF) so all recycling functions may be completed with City forces.

Utilities staff is very busy with the day to day activities of these functions and while it has the expertise to prepare a Sanitation Master Plan, it does not have the time or manpower needed to complete this important study in a relatively short period of time. This project will allow contracting with an experienced consultant to assist staff and our citizens in completing a Sanitation Master Plan.

ANNUAL BUDGET

Capital Fund

CAPITAL IMPROVEMENTS PLAN

CAPITAL FUND – 50

ASSUMPTIONS

1. Capital Fund revenues are primarily received from 70% of the Second Cent Sales Tax, per referendum of September 1976. Their purpose is to finance General Fund related capital needs. Revenue amounts are projected to increase at annual growth rates based on trend line analysis.
2. New capital sales tax revenue will be generally allocated as follows:
 - 7% General Contingency – reserved for inflation and unanticipated needs;
 - 5% Maintenance of Existing Facilities – preventive maintenance needs;
 - 27% Capital Outlay – major equipment such as vehicles and computer hardware;
 - 25% Street Maintenance – life extending treatments to public streets and drainage ways, one street crew and one drainage crew; and
 - 36% Pay-As-You-Go (PAYGO) projects not eligible for an enterprise fund revenues, Debt Service for the 1992 General Obligation Bonds, transfer to Arterial Road Recoupment Fund and salaries for city personnel working on capital projects.

Allocation of New Sales Tax

3. Until a Drainage Utility is created for future funding of storm water drainage projects, such projects will be funded from capital sales tax revenues.
4. As feasible, the City will pursue funding from all eligible sources (such as the State and Federal governments, as well as private interests), when pursuing street and intersection improvements and it is assumed they will participate at the eligible funding levels.
5. Park development projects will be phased on a PAYGO basis, using city funds, private contributions, and Federal or state assistance. Park Development Fees (Fund 52) will also be available for construction of Community and Neighborhood Parks.
6. It is assumed that improvements and expansion of existing neighborhood parks is more important than acquiring and constructing new neighborhood facilities, unless it involves undeveloped neighborhood parks in areas with growing demand for services. Further, land desired for future community park and open space needs should be acquired at the earliest possible date in order to preserve it from being otherwise developed.
7. The City will explore the option of selling bonds to advance major projects, due to a lack of other available revenues.

ANNUAL BUDGET

8. Periodically, the private sector participates in project expenses through impact fees.
9. See Figures in the Appendix and individual project sheets for locations of specific projects.
10. Due to unexpected increase in materials and fuel costs, project expenses for those capital improvements approved in the March 31, 2005 Bond referendum are estimated to increase significantly more than the originally approved estimates. These are of the highest priority because of the commitment made to the electorate. Therefore, adjustments and reschedulings were made to other projects to accommodate these cost increases. The source of funding is the capital fund balance.
11. Beginning in FYE 2008, the Capital Fund began subsidizing the Westwood Fund by means of transfers. These funds are spent on capital projects and capital equipment. Specific items in the five year CIP are as follows:
 - FYE 2019 - Golf cart replacements and golf course equipment (\$111,480),
 - FYE 2020 – Golf cart replacements (\$42,000) and golf course equipment (\$19,500),
 - FYE 2021 – Golf cart replacements (\$42,000) and golf course equipment (\$19,500),
 - FYE 2022 – Golf cart replacements (\$42,000) and golf course equipment (\$19,500), and
 - FYE 2023 – Golf cart replacements (\$42,000) and golf course equipment (\$19,500).
12. The Electorate approved a sales tax for public safety (referred to herein as Public Safety Sales Tax, PSST) on May 13, 2008 and an extension of the PSST on April 1, 2014, earmarking part of the proceeds for construction, equipping and staffing of two new fire stations and other police and fire related capital purposes. These have been included in the capital budget as Fire Station 8, Fire Station 9 and the Smalley Center. The sales taxes will be transferred from the General Fund to the Capital Fund at the rate of expenditures.
13. In previous years, the Capital Fund paid for personnel working on capital projects by transferring from the Capital Fund to non-enterprise funds. Beginning in FYE 2012, salaries and benefits will be paid directly from the Capital Fund. Personnel include: 2 CIP Engineers, 1 Traffic Engineer, 1 Stormwater Engineer, 25% of an Engineering Assistant, 70% of a Park Planner I, 40% of a Park Planner II, 80% of a Utility Coordinator, 50% of a Construction Inspector, 80% of a Construction Inspector, and 75% of the Facility Maintenance Supervisor. Two new capital project engineers were added in FYE17.
14. In August, 2012 a General Obligation Bond referendum was approved (\$42,575,000) for street maintenance program. Some of these were previously partially funded with Capital Penny Sales Tax. The Pay-Go funding will be reallocated to other needs as Council reviews specific projects.
15. In April, 2016 a General Obligation Bond referendum was approved (\$25,360,000) for continuation of the previous street maintenance program with additional street locations. This is funded with a temporary sales tax.
16. The total FYE19 project funding is \$19,221,386 with \$839,460 reserved for contingency and \$261,770 reserved for the Senior Center.

CITY OF NORMAN

PROJECT TITLE: Alley Repair Program PROJ. CATEGORY: General Maintenance DEPARTMENT: Public Works MANAGER: Rocky Henkel WARD(s): 4 7	PROJECT TYPE: <table border="1" style="display: inline-table; width: 100%;"> <tr> <td style="width: 50%;">Street Maintenance</td> <td>Maint.</td> </tr> </table> PROJECT NUMBER: SC ACCOUNT NUMBER: 050-9369-431 BEGIN & END DATES: 07-01-18 to 06-30-19 LIFE EXPECTANCY: 20 years	Street Maintenance	Maint.
Street Maintenance	Maint.		

DETAILED PROJECT DESCRIPTION:

This project addresses the repairs associated with deteriorated alleys in the Central Core Area (bound by Robinson, Imhoff, Berry & 12th E). Specific locations will be identified based on criteria established by Council.

PROJECT TITLE: Concrete Valley Gutter PROJ. CATEGORY: General Maintenance DEPARTMENT: Public Works MANAGER: Rocky Henkel WARD(s): All	PROJECT TYPE: Street Maintenance Maint. PROJECT NUMBER: SC ACCOUNT NUMBER: 050-9051-431 BEGIN & END DATES: 07-01-18 to 06-30-19 LIFE EXPECTANCY: 25 years
---	--

DETAILED PROJECT DESCRIPTION:

Currently there are many asphalt valley gutters in asphalt streets that have deteriorated due to the flow of stormwater. The deterioration is caused from the asphalt cracking, allowing stormwater to penetrate into the subgrade, causing the subgrade to destabilize. This project will replace deteriorated asphalt valley gutter with concrete valley gutters. City staff will identify proposed construction sites.

PROJECT TITLE:	12th Ave. NE and High Meadows Dr. Intersection	PROJECT TYPE:	Transp. w/ Fedl Fndg	Improvmt.
PROJ. CATEGORY:	Intersection Widening w/New or Mod. Signal	PROJECT NUMBER:	TR-0051	
DEPARTMENT:	Public Works	ACCOUNT NUMBER:	050-9079-431	
MANAGER:	Michael D. Rayburn	BEGIN & END DATES:	6/1/04	to 12/1/19
WARD(s):	6	LIFE EXPECTANCY:	20 Years	

DETAILED PROJECT DESCRIPTION:

The project widens 12th Avenue NE to provide and exclusive southbound left turn lane and modifies the existing traffic signal to include a protected left turn phase.

This intersection was recently evaluated at the request of several citizens who live in the area. There is enough traffic demand to justify the improvement.

Additional roadway work was added to the project to construct a dedicated left turn lane for northbound traffic turning at the entrance to the Griffin Park Soccer Complex being designed as part of Norman Forward

OPERATING IMPACT:

Negligible	Genl Fnd	\$5,000 per year for electricity and preventive maintenance
------------	----------	---

STATUS & COMMENTS:

The project is eligible for federal funds to pay for 80% of the construction cost.

Staff has requested ODOT's concurrence with the recommended improvements and financial assistance.

Garver Engineers of Norman was hired to design the project. Preliminary plans were completed and will be submitted to ODOT along with a project programming resolution requesting federal funds to pay for 80% of the construction cost. City Council approved a Change Order to the contract to design additional roadway improvements needed to serve the new Griffin Park Soccer Complex.

PROJECT TITLE:	ODOT Audit Adjustment			PROJECT TYPE:	Transp. w/ Fedl Fndg	Improv.
PROJ. CATEGORY:	Roadway			PROJECT NUMBER:	TR0068	
DEPARTMENT:	Public Works			ACCOUNT NUMBER:	050-9535-431	
MANAGER:	Scott Sturtz			BEGIN & END DATES:	1/1/09	to
WARD(s):	All			LIFE EXPECTANCY:		

DETAILED PROJECT DESCRIPTION:

In January 2009, Council adopted a new policy involving the creation of a project account called the ODOT Audit Adjustment Account with \$100,000 dedicated to payment of ODOT final invoices. The intent of the policy was to replenish the account each budget year up to the balance of \$100,000. Establishing this account, creates a process for all pending project accounts to be closed and the remaining project funds transferred back to the Capital Fund balance to be available for other projects. Since ODOT's final audit process takes three to seven years to complete, it was felt this process would free up the unencumbered project funds more quickly.

OPERATING IMPACT:

Slight	Genl Fnd	\$10,000 per year for electricity and preventive maintenance
--------	----------	--

STATUS & COMMENTS:

The project is eligible for federal funds to pay for 80% of the construction cost. Federal funds in the amount of \$2,710,240 will be requested through ACOG.

The signalization and widening of the intersections is needed in order to support additional development in the area. City Council has already approved preliminary plats requiring the improvements. Developers will be responsible for the cost of additional right-of-way and utility relocations (required for the widening of the roadway as part of the platting process).

Traffic impact fees are being collected from the various developers in the area.

PROJECT TITLE:	Bridge Maintenance Program	PROJECT TYPE:	Transp Cty Fnd Only	Maint.
PROJ. CATEGORY:	Bridge Maintenance Program	PROJECT NUMBER:	TC0254	
DEPARTMENT:	Public Works	ACCOUNT NUMBER:	050-9687-431	
MANAGER:	Shelly Williams	BEGIN & END DATES:	7/1/14	to 7/1/23
WARD(s):	All	LIFE EXPECTANCY:	20 yrs.	

DETAILED PROJECT DESCRIPTION:

The City of Norman is responsible for the maintenance of 73 bridges. Every two years the bridges are inspected by a registered professional engineer approved by the Oklahoma Department of Transportation (ODOT) to inspect bridges in the State. The inspection report for all 73 bridges identifies elements of each bridge that needs maintenance. Some of the maintenance can be performed by the Street Division; however, some of it cannot. This capital project provides funding for the maintenance work that cannot be performed by the Street Division. If a bridge is allowed to deteriorate due to the lack of maintenance, it can become unsafe and, as a result, become a liability to the City of Norman and its residents. If it reaches a certain point of dis-repair, ODOT would require that the bridge be closed immediately. The bridges listed for repair in FYE 18 are.....

OPERATING IMPACT:

positive Genl Fnd

STATUS & COMMENTS:

This budget item reflects a portion of the extent of necessary drainage/transportation infrastructure maintenance to ensure a safe transportation system and to defer structural replacement. However, two bridges beyond their useful life are on the horizon for replacement including Franklin Road Bridge located 0.1 mile west of 36th Avenue NE and East Robinson Street Bridge located 0.6 mile east of 72nd Avenue NE. Studies need to be completed on these bridges in FYE19 to determine H&H requirements and estimated costs so construction funding sources can be identified.

PROJECT TITLE:	Driveway Repair Program	PROJECT TYPE:	Street Maintenance	Maint.
PROJ. CATEGORY:	General Maintenance	PROJECT NUMBER:	SC0xxx	
DEPARTMENT:	Public Works	ACCOUNT NUMBER:	050-9370-431	
MANAGER:	Jack Burdett	BEGIN & END DATES:	7/1/18	to 8/30/19
WARD(s):	4 7 8	LIFE EXPECTANCY:	50 years	

DETAILED PROJECT DESCRIPTION:

This project repairs hazardous or deteriorated driveways in the Central Core Area. Specific locations will be chosen based on criteria established by Council. All inquiries regarding replacement driveways will be directed to the City Engineer (or designee).

The following material is the selection criterion that staff will look at to determine which driveways will qualify initially and when funding is limited.

1. Core Area (mandatory)
2. Requested by the property owner of a platted residential use lot (mandatory)
3. The property owner must pave the portion of the driveway that is on private property at his or her expense (mandatory)
4. Drive is for established residential lot with structure(s). No new homes or subsequent to structure demolition (mandatory).
5. Condition of existing Driveway
6. Extent of pavement on existing driveway
7. Percent of Driveways in block that are paved.
8. Does the street have curb and gutter or borrow ditches

DEPARTMENT:	Public Works	ACCOUNT NUMBER:	050-	
MANAGER:	Shelly Williams	BEGIN & END DATES:	7/1/18	to 7/1/19
WARD(s):	All	LIFE EXPECTANCY:	N/A	

DETAILED PROJECT DESCRIPTION:

The City of Norman Engineering Design Criteria Manual and the Standard Specifications and Construction Drawings Manual were last updated in July 2006. These manuals are critical to ensure that City projects are designed and constructed to industry standards. The various sections and drawings have become outdated over the years so it is time for a major overhaul of these documents.

MANAGER:	Matthew Smith	BEGIN & END DATES:	7/1/18	to 6/30/19
WARD(s):	4	LIFE EXPECTANCY:	20-25 years	

DETAILED PROJECT DESCRIPTION:

This project is to provide full electrical back up power to this facility in the form of a diesel generator. At present there is no alternative power source at this facility and when there is an outage all function of the building comes to a halt. The proposed generator would power the entire building in case of a power outage and allow this facility to full function until normal power can be restored.

STATUS & COMMENTS:

The City of Norman has migrating backup from tape to disk for several years using a pair DellEMC Data Domain appliance that replicate data between two locations. These appliances provide for reliable fast recover in a disaster recovery, malware/ virus corruption or for an accidental deletion of a file during normal business. These appliance are extremely efficient of storing data through de-deup processes but they currently need to be expanded in size to keep up with our current data growth to ensure we have backups and bussiness resilience.

PROJECT TITLE:	Fleet/Line Maintenance North Base Lighting Project	PROJECT TYPE:	Bldgs & Gnds	Improv.
PROJ. CATEGORY:	FLEET FACILITY IMPROVEMENTS	PROJECT NUMBER:	BG	
DEPARTMENT:	PUBLIC WORKS/UTILITIES	ACCOUNT NUMBER:	50/31/32	
MANAGER:	MIKE WHITE, FLEET SUPERINTENDENT	BEGIN & END DATES:	7/1/18	to 6/30/19
WARD(s):	8	LIFE EXPECTANCY:	50,000 HOURS PER FIXTURE	

DETAILED PROJECT DESCRIPTION:

The North Base facility currently has approximately 26 outside security and fuel island lights. The current lighting around the North Base building and Fuel Island are the original lighting. They are cracked and leaking causing need for increased bulb replacement, electrical problems, as well as increased potential for fire hazard. Due to these issues along with obsolete parts, the majority of the lights are non-functioning. This does not allow the security cameras to work to their full potential and can produce safety and security hazards for employees due to lack of lighting in early mornings, nights, and evenings. The proposed North Base Lighting replacement will have a great impact on utility and energy savings. This project would have a return on investment of approximately less than 4.5 years with estimated savings of 60% to 80%. Along with the energy and utility savings, there would be increased savings on labor, transportation, and material costs for Building Maintenance. Fleet has been working with Building Maintenance and this project was highly recommended. The cost and savings does include labor for replacing the fixtures for the complete building including Line Maintenance.

PROJECT TITLE: GIS Mapping Update PROJ. CATEGORY: Geographic Information System DEPARTMENT: Planning / GIS MANAGER: Joyce Green WARD(s): All	PROJECT TYPE: Bldgs & Gnds Maint. PROJECT NUMBER: BG ACCOUNT NUMBER: 050-9533-419.62-01 BEGIN & END DATES: 2/15/19 to 12/31/19 LIFE EXPECTANCY: 2 yr primary usage, permanent archive
--	--

DETAILED PROJECT DESCRIPTION:

This project will update the City's base map to reflect new construction and any other changes on the ground, which have occurred since the last base map update was completed in 2017. The project will start in winter 2019 when leaf-off aerial photography will be collected. This project is standard maintenance of the GIS database. The deliverable products will be color aerial photography and an update of the planimetric (structures, paving, etc.) base map of entire city. This information is used for many purposes throughout the city including: permitting, stormwater planning (particularly related to impervious surface), utility management, and public safety. Almost every development project, both public and private, starts with a map. The availability of recent, accurate, and complete mapping facilitates the effective management of the City's resources. Archived photos are regularly used for zoning and code compliance cases. The City may be able to coordinate this project with other ACOG agencies to reduce costs. It has two distinct components: aerial photography, which is budgeted at \$65,000; planimetric mapping and optional LiDAR, which is budgeted at \$80,000. The amount budgeted should allow the City of Norman to choose a data vendor from first tier contractors and add any computing capacity required to serve the data over the computer network.

WARD(s):	All	LIFE EXPECTANCY:	Permanent	

DETAILED PROJECT DESCRIPTION:

These funds are provided primarily for acquisition of property or conservation easements for parcels to become part of the Norman Greenbelt System. Thus far, funds have been directed towards matching funds for grants that have included both purchase of conservation easements, for trail projects, and for purchase of structures/properties in the floodplain. Funding was also provided as part of the Storm Water Master Plan project to develop a Greenway Master Plan. Future funds are anticipated to be used to implement the Greenway Master Plan and to acquire environmentally sensitive properties in the City.

CITY OF NORMAN

PROJECT TITLE: Police - Range Berm Renovation PROJ. CATEGORY: BUILDING IMPROVEMENTS DEPARTMENT: Police MANAGER: Josh Barker WARD(s): 7	PROJECT TYPE: Bldgs & Gnds Maint. PROJECT NUMBER: ACCOUNT NUMBER: 50 BEGIN & END DATES: 7/1/19 to 6/30/23 LIFE EXPECTANCY: 30 years
--	---

DETAILED PROJECT DESCRIPTION:

The current height of the range's berms are below industry standards and will continue to erode. The lack of adequate drainage compounds the erosion and routinely causes flooding during the rainy season. The age of the range combined with its frequent use by agencies throughout the area has resulted in a large concentration of lead. The amount of lead in the berm especially towards the top layers of soil is beginning to cause "backsplash" (fragments of bullets coming back towards the shooter). As we continue the use of this facility, the repairs to the range are inevitable. Because there are no other facilities adequate for our firearms training needs and the fact that the Norman Police range services almost all of the areas law enforcement agencies. These repair can be done in phases, which would include:

- Hire a firm to design, plan, and engineer a solution to the problems
- Create a new firing range to act a temporary range while the existing range is repaired.
- Repair/reengineer the current range area to solve berm issue and flooding issue.
- Repurpose temporary range to expand existing rifle range (optional)

CITY OF NORMAN

PROJECT TITLE:	Security System Replacement & Expansion	PROJECT TYPE:	Bldgs & GnDs	Improv.
PROJ. CATEGORY:	Buildings and Grounds	PROJECT NUMBER:	BG0069	
DEPARTMENT:	Information Technology	ACCOUNT NUMBER:	050-9365-419.61-01	
MANAGER:	Kari Madden	BEGIN & END DATES:	7/1/17	to 6/30/20
WARD(s):	All	LIFE EXPECTANCY:	15 to 20 years	

DETAILED PROJECT DESCRIPTION:

This request is needed to replace the failing access control system (Win-Pak) in Building A, PD, PD SID, PD Range, and Water Treatment. We are currently on Win-Pak SE 2.0, which we no longer have maintenance on as support ended in 2011. We are experiencing challenges with door resets and the software often crashes and has to be reset to gain control of the doors it manages in Building A, PD, etc. All access to these buildings has to be maintained in both our access control systems which is very labor intensive for IT staff. The door readers in the Win-Pak system are getting old and costly repairs are getting more frequent. This request would first bring in the five buildings remaining on the Win-Pak system (Building A, Building B, Police SID, Water Treatment, Police Range) and only replace what is existing, once failing equipment has been replaced we will use any extra funds to build in camera's or security components to the facilities listed. Our core focus is getting this failing system out, if it fails the buildings will have to operate with manual keys and locks and no reporting capabilities. They will have to be manually locked and unlocked each morning and during business hours.

Municipal Court's camera system is in need of repair, this request would replace those camera's and add additional to cover the court room, clerks area for money handling and citizen interaction, safe. We will also attempt to put automatic door closures on doors that do not secure properly to the outside and have been found open after hours. The Genetec system could notify if a door does not lock after hours once we bring the door into the system.

Fleet's camera's are also in a failing state and recommended to address in the FYE18 as you will see below. These cameras monitor the fuel islands and Fleet parking lot areas. This does not include camera's for all the buildings at North Base that would be expanded in subsequent years.

All of these request will require additional storage for the video which was not calculated within the original requests. We allocated \$20,000 for storage expansion and \$30,000 to automate and log the gate at Street Maintenance which has numerous cell carriers accessing at will with no tracking the facility. It would be helpful to see access logging and times to the facility with all of the heavy equipment, materials, and chemical that is stored there. Not to mention the city has a secondary data center in a cell hut at this facility as well. We have the new Genetec system in place at Police NIC, Building C, City Hall, and Fleet. Genetec is the City's new access control system as well the system that maintains electronic gates, camera systems, ID badge making, alarm notifications, etc. going forward. The system is fast, easy to use, and contains a variety of customizable reports. Genetec also runs our video surveillance system, which is distributed throughout the city. I.T. has two Genetec certified employees.

Subsequent years would address the additional projects requesting to have access control, camera's, or gate access brought into the Genetec system based on priority by Management. We will replace other camera's at Streets and other facilities in future years.

DETAILED PROJECT DESCRIPTION:

Signage upgrade/replacement for Municipal Complex including Facility Maintenance. This project will provide better wayfinding for citizens visiting City offices allowing them to locate their destination easily. The signage on the west side of the Library will also be upgraded to remove the Pioneer Library System Administrative Offices from the sign since they have moved to the former Border's building. This project will also provide signage for Facility Maintenance Division, which is located in the Gray Street property.

DETAILED PROJECT DESCRIPTION:

Construction of salt storage and loading facility at the North Base Facility on Da Vinci Street. The Street Division currently has one location for salt storage and loading of trucks at the Lindsey Street Yard Facility. Due to the expanding scope of snow/ice control operations, it has become necessary for a second location to have salt storage and loading that has the ability to service the northern half of Norman. This facility will enable the Street Division crews to reduce the amount of time traveling to the Lindsey Yard location in southern Norman and give a more timely response to conditions in the expanding areas to the north.

PROJECT NUMBER: BG ACCOUNT NUMBER: 050-9365-419.63-01 BEGIN & END DATES: 7/1/16 to 7/1/17 LIFE EXPECTANCY: 10 - 15 years
---	---

DETAILED PROJECT DESCRIPTION:

This project will add full video conferencing capability for conference room to conference room between these listed, allow outside video conferencing leveraging the City Webex, allow inbound callers to leverage our Webex for video conferences as well. The video capability is high definition providing a professional and high quality experience when used for interviews, briefings, conferences, or even emergency planning. We anticipate additional rooms throughout the City will also be requested to have the same capability so all can leverage professional quality conferencing from meeting rooms.

PROJECT TITLE: Westwood Tennis Center Data Line Additioin PROJ. CATEGORY: Parks & Recreation DEPARTMENT: Parks & Recreation MANAGER: Jason Olsen WARD(s): 8	PROJECT TYPE: Parks & Recreation Improvt. PROJECT NUMBER: PR ACCOUNT NUMBER: 050- BEGIN & END DATES: 7/1/18 to 6/29/19 LIFE EXPECTANCY: 25 Years
---	---

DETAILED PROJECT DESCRIPTION:

As part of the City's continuing efforts to provide up-to-date technology at all of our facilities, the Parks and Recreation Department has been working with the IT Department to identify locations where it would be able to upgrade the retail sales equipment to match both modern payment methods and our new Vermont Systems software we will use to track all aspects of the operation of Parks and Recreation facilities. During this process, it was discovered that there was not a sufficient data connection to the Westwood Tennis Center; however the new lines for the remodeled Westwood Family Aquatics and the Westwood Golf Course are in close proximity and will be able to connect to the tennis pro shop. This project is only for the installation of the fiber lines to connect the tennis center to the other parts of the network. The point-of-sale software and any other hardware inside the facility will be acquired through capital equipment purchases by the IT Department.

PROJECT TITLE:	Drainage Miscellaneous Annual Projects	PROJECT TYPE:	Stormwater Drainage	Maint.
PROJ. CATEGORY:	General Maintenance	PROJECT NUMBER:	DR0019	
DEPARTMENT:	Public Works	ACCOUNT NUMBER:	050-9967-431	
MANAGER:	Carrie Evenson	BEGIN & END DATES:	7/1/15	to Annual
WARD(s):	All	LIFE EXPECTANCY:	20 years	

DETAILED PROJECT DESCRIPTION:

Every year, several small (\$2,000 - \$10,000) unplanned drainage projects, which are typically reported to staff via citizen requests, are not constructed because they have not been funded. This program funds these small drainage projects. These projects include repairing concrete flumes between houses, damaged or improperly sized storm sewer inlets and installation of new storm sewer inlets. This project will provide staff with the necessary funding to construct these small drainage projects. In so doing, it will produce a very positive citizen impact.

PROJECT TITLE: Lake Thunderbird Watershed TMDL Compliance PROJ. CATEGORY: Stormwater Drainage DEPARTMENT: Public Works MANAGER: Carrie Evenson WARD(s): All	PROJECT TYPE: Stormwater Drainage Improvt. PROJECT NUMBER: DR0061 ACCOUNT NUMBER: 050-9968-431 BEGIN & END DATES: 7/1/14 to Annual LIFE EXPECTANCY:
--	---

DETAILED PROJECT DESCRIPTION:

On November 5, 2015, the City submitted Compliance and Monitoring Plans (Plans) to the Oklahoma Department of Environmental Quality (ODEQ) for their review. ODEQ approved the City's Plans on September 21, 2016, and the Council adopted the approved Plans on October 25, 2016, through Council Resolution R-1617-41. This was the culmination of a contract entered into by the City with Olsson Associates to develop a plan to bring the City's stormwater discharges into compliance with the Waste Load Allocations developed from the Lake Thunderbird TMDL. The City will begin the first 5 year cycle by implementing a Monitoring Plan to establish a baseline for flow and pollutant loading of streams flowing from or through the City to Lake Thunderbird. Pollutants to be monitored are nitrogen, phosphorus, and total suspended solids. BMPs will also be implemented as part of the City's Compliance Plan beginning with education campaigns and enhancing programs already in place, progressing to increasing cleaning efforts. These efforts during the first 5 years are aimed at reducing pollutants in stormwater runoff at the source. The Plans and the results of the monitoring will be reviewed at the end of this initial 5 year cycle to determine where best to establish structural BMPs during the next 5 year cycle. The budgets developed for FYE 2016 and onward are for implementation of the Monitoring Plan.

STATUS & COMMENTS:

The City thus far collected \$118,332 from developers for the widening of 24th NE. Also, in the contract the City signed with the JD McCarty Center, if widening of 24th NE is initiated by their phase II expansion, they will pay for half of the engineering design, utility relocation and the local share of the street construction. This project is eligible for federal funding through ACOG which will pay for 80% of the construction cost. Project is on the 2012 Bond List

Norman Forward Sales Tax Fund

CAPITAL IMPROVEMENTS PLAN

NORMAN FORWARD SALES TAX FUND - 51

ASSUMPTIONS

1. NORMAN FORWARD is a quality of life initiative proposed by community groups and residents. On October 13, 2015 voters authorized a ½ cent temporary (15 years) sales tax to fund the projects. Collection began January 1, 2016. Some of the projects will be funded on a pay as you go basis. Some of the projects are of higher importance and greater costs, and therefore require borrowing funds through general obligation bonds.
2. In FYE 2019, \$44,400,000 for seven bond funded projects is scheduled, and \$2,950,000 for four paygo funded projects is scheduled. The individual projects' impacts on the operating budget may be significant because they are new facilities.

CITY OF NORMAN

PROJECT TITLE: Andrews Park Improvements PROJ. CATEGORY: Parks & Recreation DEPARTMENT: Parks & Recreation MANAGER: James Briggs WARD(s): 4	PROJECT TYPE: Parks & Recreation Improvt. PROJECT NUMBER: NFB019 ACCOUNT NUMBER: 051-9050-452 BEGIN & END DATES: 7/1/17 to 6/30/19 LIFE EXPECTANCY: 50 Years
---	---

DETAILED PROJECT DESCRIPTION:

This project is for the construction of several improvements in Andrews Park--Norman's oldest park, which was dedicated on the original town plat for the city, when it was established in 1890. Over the years, this downtown park has been home to a baseball stadium, zoo, horse stables, play areas, WPA-Era pool, amphitheater, and stream channel projects, and, more recently, tennis and basketball courts and a street-course skate park. The current layout allows this park to be used daily for sports practice, childrens play, summer splash pad, walking and skatepark activities. It is also host to multiple community-wide concerts and festivals throughout the year. The major parts of this project will include construction of a new concrete "drop-in" skatepark to replace the existing "street course" currently in the northeast corner of the park. The existing features will be re-located to other parks around town to create several "skate spots" in various parks. We also plan to add more extensive shade over the seating areas at the amphitheater and to make additions to the splashpad, including updating the spray features and adding more seating, lounging areas/family gathering areas and shade around that popular park feature.

PROJECT TITLE: Canadian River Park Development PROJ. CATEGORY: Parks & Recreation DEPARTMENT: Parks & Recreation MANAGER: James Briggs WARD(s): 3	PROJECT TYPE: Parks & Recreation Improvt. PROJECT NUMBER: NFB ACCOUNT NUMBER: 051- BEGIN & END DATES: 7/1/24 to 6/30/25 LIFE EXPECTANCY: 70 Years
---	--

DETAILED PROJECT DESCRIPTION:

This project is for the development of a new Canadian River Park in Norman. The land proposed for this park is south and west of the Lindsey Street Extension (from Interstate Drive around to 36th Avenue SW). The park development can only proceed as planned for the budget indicated if the land is gifted to the City, as has been discussed. A land purchase is not included in the project budget shown here.

CITY OF NORMAN

PROJECT TITLE: Griffin Park Remodel PROJ. CATEGORY: Parks & Recreation DEPARTMENT: Parks & Recreation MANAGER: Matt Hendren WARD(s): 8	PROJECT TYPE: Parks & Recreation Improvt. PROJECT NUMBER: NFB0001 ACCOUNT NUMBER: 051-9639-452 BEGIN & END DATES: 7/1/16 to 6/30/20 LIFE EXPECTANCY: 50 Years
---	---

DETAILED PROJECT DESCRIPTION:

This project is for the re-development of Griffin Park as a Soccer Complex. The majority of the design and construction work will be focused on re-use of those parts of the park that are currently being used for the City of Norman's Youth Baseball and Softball leagues, which are being relocated to Reaves Park via a separate project, to allow new soccer fields to be built in their place (including new lighting, irrigation, site furnishings, parking areas and park roads). The existing soccer fields will remain in-service while Reaves is re-done and a new Community Sports Park is being developed for the adult softball league and the youth football and adult flag football leagues. Once the new soccer fields are constructed, Griffin Park will be able to host large regional tournaments throughout the year. The project also calls for construction of one large indoor field at the site, which will greatly increase NYSA's ability to provide year-round service with a space that teams can use during inclement weather (this could be constructed early-on in the process, once the design work has been completed and a site is determined for it). The park remodel will not include construction of any new soccer facilities north of the irrigation lake in the dog park/disc golf area; however the project will include construction of the new Park Maintenance facilities in the area north of the Dog Park entry road and continued improvements to the park trails (including a walk bridge over part of the lake), the dog park and the disc golf course area.

PROJECT TITLE: New Community Sports Park Development PROJ. CATEGORY: Parks & Recreation DEPARTMENT: Parks & Recreation MANAGER: Mitch Miles WARD(s): All	PROJECT TYPE: Parks & Recreation Improvt. PROJECT NUMBER: NFB005 ACCOUNT NUMBER: 051-9441-452 BEGIN & END DATES: 7/1/16 to 6/30/18 LIFE EXPECTANCY: 50 Years
--	---

DETAILED PROJECT DESCRIPTION:

This project is for the development of a new Community Park in Norman. We will start with a land purchase of 30-40 acres, which will be designed to be the home of a new adult softball league 5-field complex (moved from Reaves Park) and a new Youth Football and Adult Flag Football multi-field complex. The project will include all land grading and clearing and construction of the new fields (fencing, lights, bleachers, etc.), parking areas, concession and restroom facilities and all associated landscaping, walkways, utilities and other site amenities.

PROJECT TITLE:	Reaves Park Remodel	PROJECT TYPE:	Parks & Recreation	Improv.
PROJ. CATEGORY:	Parks & Recreation	PROJECT NUMBER:	NFB006	
DEPARTMENT:	Parks & Recreation	ACCOUNT NUMBER:	051-9205-452	
MANAGER:	James Briggs	BEGIN & END DATES:	7/1/17	to 6/30/19
WARD(s):	7	LIFE EXPECTANCY:	50 Years	

DETAILED PROJECT DESCRIPTION:

This project is for the re-design and development of Reaves Park as a youth baseball facility. Work will include re-location of the current Park Maintenance facilities to Griffin Park (north of the dog park entry road along 12th Avenue NE) and the current adult softball fields (to the new Community Sports Park site to be purchased and developed via a separate project). Once these facilities are removed from Reaves, all of the Youth Baseball and Softball fields will be relocated to Reaves from Griffin Park and combined with the Optimist Youth Baseball Fields already in Reaves to make one complete baseball/softball park for all ages from T-Ball up through teenage leagues. The design and development of these facilities will not alter the southwest sector of the park, which is the site of the Cleveland County Veteran's Memorial, the Kidspace Playground Facility and the home to the annual Medieval Fair, as well as Norman Day, Earth Day and other community-wide festivals. All utilities, park roads, buildings, landscape features, parking areas and site furnishings will be evaluated and upgraded, as needed as part of this project; with particular attention paid to the ingress/egress points of the park and how they relate to the current road capacity during peak use times.

PROJECT TITLE: Neighborhood Park Improvements PROJ. CATEGORY: Parks & Recreation DEPARTMENT: Parks & Recreation MANAGER: Mitch Miles WARD(s): All	PROJECT TYPE: Parks & Recreation Improv. PROJECT NUMBER: NFP101 ACCOUNT NUMBER: 051-9830-452 BEGIN & END DATES: 7/1/16 to 6/30/26 LIFE EXPECTANCY: 30 Years
---	--

DETAILED PROJECT DESCRIPTION:

This project is designated to make improvements to all the neighborhood parks in the City of Norman. The level of improvement needed at each park varies from site to site; however, there is work to do at each park. Staff will prioritize and execute a plan for each park, in a way that maximizes our bidding prices each year to get the best value for similar improvement that may occur in the various parks. We will use the 2009 Parks and Recreation Master Plan as a guiding document for these improvements with input from the neighborhoods served by each each park site

PROJECT NUMBER: NFB104 ACCOUNT NUMBER: 051-9830-452 BEGIN & END DATES: 7/1/17 to 6/30/21 LIFE EXPECTANCY: 50 Years
---	---

DETAILED PROJECT DESCRIPTION:

This project is for the development of new neighborhood parks in several developing areas of town. The city has been acquiring these properties as the neighborhoods develop, as required by the Park Land Dedication Ordinance. Utilizing the Norman Forward funding, we will be able to supplement Park Development Fees in order to build new parks similar to the one built recently at Monroe Park. Specifically, these funds will be used to help build new neighborhood parks in the Cedar Lane, Southlake/St. James, Summit Valley/Bellatona, Redlands and Links additions.

PROJECT TITLE:	New Trail Development Throughout Town	PROJECT TYPE:	Parks & Recreation	Improv.
PROJ. CATEGORY:	Parks & Recreation	PROJECT NUMBER:	NFP	
DEPARTMENT:	Parks & Recreation	ACCOUNT NUMBER:	051-	
MANAGER:	Mitch Miles	BEGIN & END DATES:	7/1/19	to 6/30/22
WARD(s):	All	LIFE EXPECTANCY:	50 Years	

DETAILED PROJECT DESCRIPTION:

This project is for the construction of several sections of the Legacy Trail multi-modal path in the central and north parts of town. In particular, we plan to design and build the trail section that will connect from Ruby Grant Park to the east--across Interstate-35 and then along the Little River corridor across Flood Street and over to the Stubbeman Avenue area, where it will link back up to the existing Robinson Street trail section. This loop will include several neighborhood trail connections, which are being built by those currently developing the Little River Trails, Trailwoods and Greenleaf Trails housing additions. Those trail sections were included in the final plats of those neighborhoods in anticipation of the connection to a city-wide trail in the future.

We will also use this project to construct a segment of the Legacy Trail system along the west side of Flood Street, north of Robinson street up to Tecumseh Road, in order to provide a safer off-street multi-modal path for pedestrians and bicyclists in this part of town.

MANAGER:	Matt Hendren	BEGIN & END DATES:	7/1/16	to 6/30/20
WARD(s):	8	LIFE EXPECTANCY:	50 Years	

DETAILED PROJECT DESCRIPTION:

This project is for the initial development of the Ruby Grant Community Park site--a 157-acre park located at I-35 and Franklin Road. The City acquired this land in the early 2000's, and developed a Master Plan based on extensive community input shortly after its purchase. Now a part of the Norman Forward package, we can proceed with hiring a firm to produce construction drawings which we will use to acquire construction bids for the first set of improvements at the park. Included in this would be the construction of the major infrastructure components for the park (utilities, roads, parking) as well as initial walking and running trails, practice sports areas, a children's play area, a disc golf course, pedestrian lighting and improved park signage and fencing

--	--

DETAILED PROJECT DESCRIPTION:

This project is for the continued development of John Saxon Jr. Memorial Community Park in Southeast Norman. Over the past 5 years, the City was able to secure 80% funding for the initial development of parking and trail facilities (cross-country and fitness/walking trails) from the state of Oklahoma Recreational Trails Grant program. The remaining projects at the park include construction of children's play areas, restroom facilities, completion of the park road to connect to John Saxon Boulevard west of the park, construction of a recreation/irrigation lake, tournament and picnic pavilions, improved perimeter fencing, and other site amenities as shown on the park's Master Plan.

Park Land and Development Fund

CAPITAL IMPROVEMENTS PLAN

PARK LAND AND DEVELOPMENT FUND - 52

ASSUMPTIONS

3. Beginning November 1, 1994, the City of Norman began collecting fees with every new residential construction permit. Revenues are earmarked for capital improvements to neighborhood and community parks. The total fee per dwelling unit includes a \$75 community park fee and a \$75 neighborhood park fee. Exceptions to the neighborhood fee are made for residences served by private neighborhood parks or on rural land not within 1 mile of an existing neighborhood park.
4. The funds specifically designated for community public parks improvements can only be spent in Griffin Community Park, Reaves Community Park, Andrews Community Park, Sutton Urban Wilderness Area, John Saxon Park and Ruby Grant Park.
5. The funds specifically designated for neighborhood parks, paid with the building permit for any new dwelling, may be spent to improve the neighborhood public park serving that dwelling, or a nearby park.
6. Neighborhood park improvements will be scheduled when the Parks Board and City Council determine that there have been sufficient residential units constructed to warrant a capital project and sufficient fees have been collected to construct the project. This information changes daily and is maintained by the Parks Department.
7. No new project funding is proposed in FYE 2019.

University North Park TIF Fund

CAPITAL IMPROVEMENTS PLAN

UNIVERSITY NORTH PARK TIF FUND - 57

ASSUMPTIONS

1. As authorized in the Oklahoma Constitution, Article 10, Section 6C and in the Local Development Act, 62 O.S. §850 et seq., and in order to facilitate development and improvements in the University North Park District, the University North Park Tax Increment Finance District was created.
2. Projects were identified and approved by City Council in accordance with the provisions of the Local Development Act.
3. The Tax Increment Finance District was created to facilitate development and improvements in an area where such improvement would not have otherwise occurred.
8. The University North Park Area includes land adjacent to 24th Avenue NW, between Robinson Street and Tecumseh Road.
9. New funds to continue one project is proposed in FYE19 at \$1,310,000.

OPERATING IMPACT:

Negligible Genl Fnd \$5,000 per year for electricity and preventive maintenance

STATUS & COMMENTS:

On May 23, 2006, the City Council adopted Ordinance O-0506-66, establishing a Project Plan for the University North Park Tax Increment Finance District (UNP TIF). Among the public improvements to be paid for from the sales tax and property tax revenues apportioned to the UNP TIF Fund were Traffic and Roadway Improvements to support the UNP development.

ANNUAL BUDGET

Arterial Road Recoupment Fund

CAPITAL IMPROVEMENTS PLAN

ARTERIAL ROAD RECOUPMENT FUND - 78

ASSUMPTIONS

1. In FYE97, Council set aside public **Funds** for construction of **Arterial Roads** in advance of private development and **Recoup** the developers' required contributions later. The intent is to avoid dangerous driving conditions due to varied pavement widths. Varied pavement widths (gap paving) result when non-contiguous segments of road are widened according to the different schedules of individual private land development adjacent to the same arterial road. The ARR Fund allows the City of Norman to finance widening of arterials in longer segments at the same time, and recoup the developer's contributions later (right-of-way and construction costs).
2. Per Ordinance O-9697-31, property owners shall repay the City either before development or at the time of land development for all local arterial street construction costs, which they would normally incur under development regulations.
3. Capital Sales Tax revenues, totaling \$2,947,732, were transferred from the Capital Fund (Fund 50) to this fund to create the initial funding, with the intent that future revenues would be received as land would be developed, and thereby there would be a revolving funding source to continue the program. The Capital Fund was repaid \$173,280 in FYE02 and \$27,200 in FYE07.
4. There is no new funding for projects in FYE19.

GLOSSARY OF TERMS and ACRONYMS

ACOG – Association of Central Oklahoma Governments.

ADA – American Disabilities Act

AERATION – The addition of air or oxygen to water or wastewater, usually by mechanical means, increases dissolved oxygen levels and maintains aerobic conditions.

ARR – Arterial Road Recoupment.

ASSETS – Resources owned or held by the City, which have monetary value.

BASIN - An area defined by the network of sewer line segments that are tributary to and terminate at a designated and control point.

BIOSOLIDS – Solid organic matter recovered from municipal wastewater treatment that can be beneficially used, especially as a fertilizer. Biosolids are solids that have been stabilized within the treatment process, whereas sludge has not.

BOND - A written promise to pay a sum of money on a specific date and at a specified interest rate. The interest payments and the repayments of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation (GO) and revenue (Water/Sewer) bonds. These are most frequently used for construction of large capital projects, such as buildings and streets.

BUDGET - A plan of financial operation embodying an estimate of proposed means of financing them. The term usually indicates a financial plan for a single fiscal year. The term “budget” is used in two senses in practice. Sometimes it designates the financial plan presented to the City Council for adoption and sometimes it designates the plan finally approved by the body. It is usually necessary to specify whether the budget under consideration is preliminary and tentative or whether the appropriating body has approved it.

BUDGETARY CONTROL - The control or management of the organization in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available resources.

CAPITAL IMPROVEMENT CHARGE (CIC) – A charge placed upon all consumers and users for sewer or water service furnished by the City. The current CIC is \$1.00 per month for a residential customer. City code section 21-107(a)(1) requires the CIC amount to equal 60 percent of the actual monthly sewer charge for commercial and industrial customers. The CIC was implemented on March 24, 1970 as part of Ordinance 2156.

CIP – Capital Improvement Project or Capital Improvements Plan.

CAPITAL OUTLAY - Expenditures that result in the acquisition of or additions to fixed assets.

CAPITAL PROJECT FUNDS – An accounting fund type recommended by the Oklahoma Municipal Budget Act to account for financial resources segregated for the acquisition, construction or other improvement related to Capital Facilities other than those accounted for in Enterprise Funds and Trust Funds.

CLEANOUT - Outside access point on a property owner's service lateral that allows for cleaning in the event of a blockage.

COLLECTION SYSTEM – In wastewater, a system of conduits, generally underground pipes, that receives and conveys sanitary wastewater and/or stormwater. In water supply, a system of conduits or canals used to capture a water supply and convey it to a common point.

COMCD – Central Oklahoma Master Conservancy District.

CONNECTION FEE – Previously known as the tap fee, was first developed in 1970. A charge for sewer or water connection based upon the size of the service line leading into and to be utilized for the furnishing of water or sewer to any use or structure. Monies received from the Connection charge are evenly divided between the City of Norman's Water and Wastewater funds. Collected fees are used to fund activities performed in both the water and sewer utility systems.

CORE AREA – The area bounded by Berry Road on the west, Robinson Street on the north, 12th Avenue on the east, and Constitution/Imhoff extended on the south.

COST ALLOCATION - Distribution of costs of centrally provided support services such as management, accounting, purchasing, payroll, information services and legal.

DEBT SERVICE - The City's obligation to pay the principal and interest of general obligation and revenue bonds according to a predetermined payment schedule.

DISINFECTION – The selective destruction of disease-causing microbes through the application of chemicals or energy.

DIVISION - A sub-section of a Department which carries out a specific line of work assigned to the Department.

EFFLUENT – Partially or completely treated water or wastewater flowing out of a basin or treatment plant.

EID – Environmental Information Document is the document which provides the basic information about a project and its environmental effects.

ENCUMBRANCE - A commitment related to unperformed contracts or goods or services. Encumbrances represent the estimated amount of expenditures ultimately to result if unperformed contracts in process are completed.

ENTERPRISE FUND - A fund established to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

EPA – Environmental Protection Agency.

EXCISE TAX - An excise tax is any tax that is not an ad valorem tax and is generally imposed on the performance of an act, engaging in an occupation, or enjoying a privilege. An ad valorem property tax is a tax imposed on the basis of the "value of the article or thing taxed." An ad valorem tax is usually imposed at recurring intervals on the same piece of property.

EXPENDITURES (EXPENSES) - Decrease in net total assets. Expenses represent the total cost of operations during a period regardless of the timing of related expenditures.

FACE VALUE (PAR, PRINCIPAL) – The full amount of an investment security, usually appearing on the face of the instrument.

FHWA – Federal Highway Administration.

FIDUCIARY FUNDS (TRUST & AGENCY FUNDS) – An accounting fund type recommended by the Oklahoma Municipal Budget Act to account for assets held by the municipality as trustee or agent for individuals, private organizations or other governmental units or purposes.

FISCAL YEAR (FY) - The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Norman has a fiscal year of July 1 through June 30.

FIXED ASSETS - Long-lived tangible assets obtained or controlled as a result of past transactions, events or circumstances. Fixed assets include buildings, equipment and improvements other than building and land.

FUND - A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

FUND BALANCE - Fund Balance is the excess of assets over liabilities.

FUND BALANCE - RESERVED FOR DEBT SERVICE - A portion of fund balance that is legally restricted to the payment of long term debt principal and interest maturing in future years.

GENERAL FUND – An accounting fund type recommended by the Oklahoma Municipal Budget Act to account for all moneys received and disbursed for general governmental purposes.

GENERAL OBLIGATION BONDS (GO or GOB) - Legal debt instruments that finance a variety of public projects such as streets, buildings, and improvements. These bonds are backed by the full faith and credit of the issuing government and are financed through property tax revenues.

HEADWORKS – The initial structure and devices located at the receiving end of a water or wastewater treatment plant.

HVAC – Heating, ventilation and air conditioning.

IAV – Individually assessed vehicle.

IMPACT FEES – Set aside fees collected from developers causing infrastructure adjustments to the community. Monies to be used as the development further impacts the municipality.

I/I - An abbreviation for Infiltration and Inflow into the Sanitary Sewer System.

INFILTRATION - Groundwater that enters into the sanitary sewer through defects in the pipes and manholes such as cracks, separated joints, deteriorated manhole components, building foundation drains, and defective service laterals.

INFLOW - Surface stormwater that enters into the sanitary sewer through direct sources such as vented manhole covers, downspouts, area drains, and uncapped cleanouts.

INFLUENT – Water or wastewater flowing to a basin or treatment plant.

INTERCEPTOR - Sanitary sewer interceptors are those lines that convey sewage from neighborhood to neighborhood in route to the wastewater treatment plant. Pipe diameters are generally larger than lines placed within residential developments.

INTERCEPTOR SEWER - A sewer that receives flow from a number of other sewers or outlets for disposal or conveyance to a treatment plant.

INTERGOVERNMENTAL REVENUE - Grants, entitlements and cost reimbursements from another federal, state or local government.

INTERNAL SERVICE FUND - A fund used to account for the financing of goods or services provided by one department or agency to other departments of a government, on a cost- reimbursement basis.

ISSUER – A political subdivision (city, county, state, authority, etc.) that borrows money through the sale of bonds or notes. The Norman Utilities Authority and the Norman Municipal Authority are issuers of Revenue Bonds.

LAND APPLICATION – The disposal of wastewater or municipal solids onto land under controlled conditions.

LEVY - (Verb) To impose taxes, special assessments or service charges for the support of government activities. (Noun) The total amount of taxes, special assessments or service charges imposed by a government.

LIABILITIES - Debt or other legal obligations arising out of transactions in the past that must be liquidated, renewed, or refunded at some future date. This term does not include encumbrances.

LIFT STATION - A pumping facility that conveys wastewater flow, from an area that would not naturally drain to the wastewater treatment plant, into the gravity sewer system for delivery and treatment.

LINE ITEM BUDGET - A budget prepared along divisional line items focusing on what is to be bought.

MATURITY – The date the principal amount of an investment security becomes due and payable.

NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) – Program in the U.S. to issue, monitor, and enforce pretreatment requirements and discharge permits under the Clean Water Act.

NON-EXCESSIVE I/I - Measured inflow and infiltration within a sanitary sewer system that is considered more expensive to eliminate through rehabilitation than to transport and treat at the Municipality's wastewater treatment facilities.

ODEQ – Oklahoma Department of Environmental Quality.

OG&E – Oklahoma Gas and Electric Company.

ODOT – Oklahoma Department of Transportation.

OPERATING BUDGET - Plans of current expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the financing acquisition, spending, and service delivery activities of the City are controlled. Municipalities are required by State Law to use annual operating budgets.

OSHA – Office of Safety and Health Administration.

OVERFLOW - A condition in which the wastewater flow rate in a sewer system exceeds the capacity of the sewer to the extent that raw wastewater is discharged directly to storm and drainage systems.

PAYBACK ORDINANCE – Ordinance (0-9697-30) allows the City Council to vote funds to pay costs of extending wastewater & water lines from an existing location to, along side or beyond the boundaries of a developer's new construction.

PAYGO – Cash basis of project funding, as opposed to incurring debt.

PEAK FLOW – Excessive flows experienced during hours of high demand; usually determined to be the highest 2-hour flow expected under any operational conditions.

PROPERTY TAX - Taxes levied on all real and personal property according to the property's valuation and the tax rate, in compliance with State Property Tax Code.

PUBLIC SECTOR - Those facilities operated and maintained by the Municipality.

REAL PROPERTY - Property classified by the State Property Tax Board including residential, single, and multi-family, vacant lots, acreage, farm and ranch improvements, commercial and industrial, and oil, gas, and other mineral reserves.

REFUNDING - A system by which a bond issue is redeemed by a new bond issue under conditions generally more favorable to the issuer (lower interest rate; fewer restrictions, etc.)

REPLACEMENT COSTS - The cost as of a certain date of a property which can render similar service (but which need not be of the same structural form) as the property to be replaced.

RESERVE, DEBT - A portion of fund balance equal to the average annual debt service requirement that has been reserved to provide assurance that resources are available to meet each fiscal year's debt service payment.

RESERVE, CAPITAL - A portion of fund balance equal to the average of the forecasted capital expenditures during the five year forecasted period has been reserved in each fiscal year budget to provide assurance that resources are available to provide for the normal replacement of depreciable assets.

RESERVE, (DEFICIT) - The amount by which fund balance does not meet all reserve requirements.

RESERVE, LEGAL - A portion of fund balance that may not be appropriated for expenditures or is legally segregated for a specific future use.

RESERVE, OPERATING - A portion of fund balance that has been reserved in each fiscal year budget to protect service delivery from unexpected revenue loss or expenditure requirement.

RESERVE, SURPLUS - A portion of fund balance that is not reserved for any specified purpose, and may be appropriated for one-time expenditures as needed.

REVENUE - Increases net total assets from other than expense refunds, capital contributions, and residual equity transfers. Funds received as income.

REVENUE BONDS - Legal debt instruments which finance public projects for such services as water or sewer. Revenues from the public project are pledged to pay principal and interest of the bonds.

ROW – Right of Way.

SLUDGE – Accumulated and concentrated solids generated within the wastewater treatment process that have not undergone a stabilization process.

SPECIAL ASSESSMENT FUNDS – An accounting fund type recommended by the Oklahoma Municipal Budget Act to account for the financing of public improvements or services deemed to benefit properties in a specified area, against which special assessments are levied.

SPECIAL REVENUE FUNDS – An accounting fund type recommended by the Oklahoma Municipal Budget Act to account for the proceeds of specific revenue sources and related expenditures separate and apart from other funds, but for which the specified revenues may be insufficient to meet the related expenditures.

STATEWIDE REVOLVING FUND (SRF) LOANS – Under the SRF program, municipalities can obtain up to 40 percent in matching funds for approved projects, when 60 percent of the construction costs can be obtained by the municipality on the open municipal bond market or from available funds of the municipality.

STP-UZA – Federal Surface Transportation Program (STP) funds sub allocated by formula to urbanized areas (UZA) with a population greater than 200,000. [Statutory Reference: Title 23, United States Code, 133(d)(3) and 133(f)] authorized under the Surface Transportation Act of 1990 as amended.

SUBSIDY – A gift or grant of public moneys to a private individual or corporation or to another governmental jurisdiction, or a gift or grant of moneys from one sub-entity to another within a governmental jurisdiction.

SURCHARGE - A condition in which the wastewater flow rate in a sewer system exceeds the capacity of the sewer lines to the extent that raw sewage begins to rise within manholes. A sewer surcharge is experienced in advance of a Backup and Overflow.

TARGET AREA - Area selected for further study under the sewer system evaluation survey (SSES).

TAXES - Compulsory charges levied by a government for the purpose of financing services performed for the common benefit.

TIP – Transportation Improvement Program is a three-year, prioritized listing of transportation needs in the TMA. The TIP is administered by ACOG, ODOT and FHWA.

TMA – Transportation Management Area is that area where ACOG plans for transportation needs.

TMDL – Total Maximum Daily Load is the amount of pollutants, from natural and man-made sources, which can be discharged to a specific body of water without causing harm to the water's quality or aquatic life. Any pollutant loading above the TMDL results in violation of applicable water quality standards.

WASTEWATER TREATMENT PLANT INVESTMENT FEE (WWTPIF) – A source of revenue for debt service and other capital and operational expenses of the Wastewater Treatment Plant improvements. The WWTPIF is the Norman Wastewater Utility's version of an impact fee that was authorized by Ordinance 9697-2 on July 23, 1996. The WWTPIF is a one-time charge paid at the time new homes or businesses are permitted for connection to the sewerage system.

WPA – Works Progress Administration.

WW – Wastewater.

Santa Fe Depot

Norman, Oklahoma

In 1866, the United States signed treaties with the Creek and Seminole Nations and acquired land in central Indian Territory that would later be called the Unassigned Lands. In 1870, the U.S. Land Office contracted for the area to be surveyed. The Norman vicinity was surveyed between 1871 and 1873. Among the contractor's team was young Abner B. Norman for whom the surveyor's field camp was named.

On July 4, 1884, President Chester A. Arthur authorized the Atchison, Topeka & Santa Fe Railroad Company to build a railroad across Indian Territory. In the early stages of railroad construction, the proposed station grounds for the Norman area were referred to as "Dugout" because of the existing dugouts in the old surveyor's camps (Norman's Camp) located on today's Bishop Creek. However, on May 2, 1887, railroad officials assigned the name "Norman" to the station grounds.

At approximately 1:00 p.m. on June 13, 1887, the first northbound passenger train passed Norman Station. On July 4, 1887, a telegraph instrument was placed on the railroad along with the name "Norman" displayed on the outside. When the Unassigned Lands were opened by the Department on April 22, 1889, Norman Station was selected by railroad engineer, Charles Glanville, to become the site for the new town of Norman.

The present depot was built in 1909 and served the city continuously until passenger service ended in 1979. During the 1980's, a concerted camp of citizens began restoration of the depot. The depot was listed in the National Register of Historic Places January 26, 1991. In 1999 the depot resumed its original use when passenger service was restored to Norman.

City of Norman Historic District Commission, Santa Fe Depot, Inc. June 18, 2002
