To train a minimum of 30 new DREs which in turn will aid in the reduction of the number of drug-related KAB crashes in Oklahoma from 318 in 2014 to 305 in 2017.

Problem Identification:

Impaired drivers continue to be a major problem in Oklahoma, causing injury and fatal crashes each year. The DRE program is designed to assist in the identification and prosecution of alcohol and/or drug impaired driving offenses to generate a general deterrence. In 2015, DRE-trained officers performed 263 enforcement evaluations. Of those evaluations, 11.7% were on drivers under the age of 21. The DRE program is a beneficial program to prosecution in the state. DRE opinions for 2014 had just over a 80% positive confirmation rate for the DRE identifying correctly the drugs found in the chemical test sample. In addition, a report from the National DRE Data Tracking program supported by NHTSA shows that 40% of the DRE valuations in Oklahoma in 2015 showed "poly-drug" use. This simply means that those impaired drivers had two or more drugs in their system at the time of testing. This multiple drug use causes higher levels of impairment and risk to citizens on our roadways. The DRE evaluation also helps to protect citizens from improper arrests. Five of the evaluations conducted found impairment caused by medical issues, and not due to drug influence.

Project Description:

The Norman Police Department will coordinate and conduct training classes and certification sessions to train officers from various areas in the state to become Drug Recognition Experts to increase enforcement of DUI laws. Norman PD will work to expand the DRE program by a minimum of 30 DREs by providing 2 DRE courses (in Oklahoma City and Tulsa). Student officers will be selected from various parts of the state in an effort to provide the most beneficial coverage possible statewide. Student officers who successfully complete the program will be provided a Portable Breath Testing (PBT) device, purchased in compliance with the Buy America Act. PBT training will be provided; maintenance and calibration will be the responsibility of the recipient. The DRE Coordinator shall submit a PBT distribution plan for approval by OHSO before they are ordered. A training class will also be conducted to train additional DRE instructors to assist with facilitation of classroom instruction and the certification training process. The Drug Evaluation and Classification Course will be conducted as outlined by the IACP and NHTSA. The course will be comprised of a 2-day pre-school verifying SFST skills, a 7-day classroom training session, and certification nights, during which students evaluate impaired drivers and complete certification requirements as set by IACP. The Norman Police Department through the statewide DRE Coordinator will create the Oklahoma DRE Advisory Council. The statewide DRE Coordinator will plan, schedule and conduct a statewide DRE Conference.
