

September 18, 2019

Dear City Council Member,

As a Norman Regional leader, it is with great urgency and confidence that I implore you to support your local healthcare provider in the transformational plan called Inspire Health.

Over the past three years our health system team worked diligently to plan and develop this bold and transformational plan. Inspire Health is based on an in depth analysis of emerging healthcare trends and future community need.

After this due diligence, I strongly believe Inspire Health provides a solid foundation from which we can continue providing lifesaving care to the citizens of Norman and our regional communities.

Since June of this year, we have hosted more than 60 community focus groups to share our vision and engage in constructive dialogue regarding Inspire Health. In fact, City Council members were the first group of meetings and we used your thoughts and concerns to accelerate the timeline of the freestanding emergency department buildout in east Norman and to further explore behavioral health options. Additionally those meetings helped to inspire considerable community partnership opportunities on the Porter campus (including Variety Care, Oklahoma State Mental Health and Substance Abuse services and possible partnerships with the University of Oklahoma).

I am sharing this important message of encouragement and sponsorship with you, a municipal leader of this great city, so that we can continue to improve the health and well-being of the citizens of Norman.

Thank you for your consideration,

September 18, 2019

Muhammad Anwar, MD

Dear City Council Member,

As a Norman Regional leader, it is with great urgency and confidence that I implore you to support your local healthcare provider in the transformational plan called Inspire Health.

Over the past three years our health system team worked diligently to plan and develop this bold and transformational plan. Inspire Health is based on an in depth analysis of emerging healthcare trends and future community need.

After this due diligence, I strongly believe Inspire Health provides a solid foundation from which we can continue providing lifesaving care to the citizens of Norman and our regional communities.

Since June of this year, we have hosted more than 60 community focus groups to share our vision and engage in constructive dialogue regarding Inspire Health. In fact, City Council members were the first group of meetings and we used your thoughts and concerns to accelerate the timeline of the freestanding emergency department buildout in east Norman and to further explore behavioral health options. Additionally those meetings helped to inspire considerable community partnership opportunities on the Porter campus (including Variety Care, Oklahoma State Mental Health and Substance Abuse services and possible partnerships with the University of Oklahoma).

I am sharing this important message of encouragement and sponsorship with you, a municipal leader of this great city, so that we can continue to improve the health and well-being of the citizens of Norman.

Saud Iqbal MD.

Dear Mayor Clark and Norman City Council Members,

It is with great urgency and confidence that we, the Medical Staff of Norman Regional Health System and trustees – the city of Norman's second largest employer – implore you to support your local healthcare provider in the transformational plan called Inspire Health.

Over the past three years we worked together as a team that included leaders, physicians, authority board members, and other key stakeholders to plan and develop this bold and transformational plan. Inspire Health is based on an in depth analysis of emerging healthcare trends and future community need.

After this due diligence, we strongly believe Inspire Health provides a solid foundation from which we can continue providing lifesaving care to the citizens of Norman and our regional communities.

Since June of this year, we have hosted more than 60 community focus groups to share our vision and engage in constructive dialogue regarding Inspire Health. In fact, City Council members were the first group of meetings and we used your thoughts and concerns to accelerate the timeline of the freestanding emergency department buildout in east Norman and to further explore behavioral health options. Additionally those meetings helped to inspire considerable community partnership opportunities on the Porter campus (including Variety Care, Oklahoma State Mental Health and Substance Abuse services and possible partnerships with the University of Oklahoma).

We are sharing this important message of encouragement and sponsorship with all of you, the municipal leaders of this great city so that we continue to improve the health and well-being of the citizens of Norman.

Respectfully,

Norman Regional Health System Medical Staff

FERHAN JAWED MD

After this due diligence, I strongly believe Inspire Health provides a solid foundation from which we can continue providing lifesaving care to the citizens of Norman and our regional communities.

Since June of this year, we have hosted more than 60 community focus groups to share our vision and engage in constructive dialogue regarding Inspire Health. In fact, City Council members were the first group of meetings and we used your thoughts and concerns to accelerate the timeline of the freestanding emergency department buildout in east Norman and to further explore behavioral health options. Additionally those meetings helped to inspire considerable community partnership opportunities on the Porter campus (including Variety Care, Oklahoma State Mental Health and Substance Abuse services and possible partnerships with the University of Oklahoma).

I am sharing this important message of encouragement and sponsorship with you, a municipal leader of this great city, so that we can continue to improve the health and well-being of the citizens of Norman.

Thank you for your consideration,

Jordan E Stuart, PA-C

Dear City Council Member,

As a Norman Regional leader, it is with great urgency and confidence that I implore you to support your local healthcare provider in the transformational plan called Inspire Health.

Over the past three years our health system team worked diligently to plan and develop this bold and transformational plan. Inspire Health is based on an in depth analysis of emerging healthcare trends and future community need.

After this due diligence, I strongly believe Inspire Health provides a solid foundation from which we can continue providing lifesaving care to the citizens of Norman and our regional communities.

Since June of this year, we have hosted more than 60 community focus groups to share our vision and engage in constructive dialogue regarding Inspire Health. After this due diligence, I strongly believe Inspire Health provides a solid foundation from which we can continue providing lifesaving care to the citizens of Norman and our regional communities.

Since June of this year, we have hosted more than 60 community focus groups to share our vision and engage in constructive dialogue regarding Inspire Health. In fact, City Council members were the first group of meetings and we used your thoughts and concerns to accelerate the timeline of the freestanding emergency department buildout in east Norman and to further explore behavioral health options. Additionally those meetings helped to inspire considerable community partnership opportunities on the Porter campus (including Variety Care, Oklahoma State Mental Health and Substance Abuse services and possible partnerships with the University of Oklahoma).

I am sharing this important message of encouragement and sponsorship with you, a municipal leader of this great city, so that we can continue to improve the health and well-being of the citizens of Norman.

Thank you for your consideration,

Dear City Council Member,

As a Norman Regional leader, it is with great urgency and confidence that I implore you to support your local healthcare provider in the transformational plan called Inspire Health.

Over the past three years our health system team worked diligently to plan and develop this bold and transformational plan. Inspire Health is based on an in depth analysis of emerging healthcare trends and future community need.

After this due diligence, I strongly believe Inspire Health provides a solid foundation from which we can continue providing lifesaving care to the citizens of Norman and our regional communities.

Since June of this year, we have hosted more than 60 community focus groups to share our vision and engage in constructive dialogue regarding Inspire Health. September 18, 2019

Dear City Council Member,

I respectfully urge you, as one of our community leaders, to complete our plan to grow our local health system into the healthy entity that our local health system should be. I believe that Norman Regional Hospital's recent activity has improved all of our care. I am a citizen of Norman and enjoy many things about my hometown including our hospital. I am also a provider at our hospital and am very proud of my work here. Inspire Health is our pathway to complete our goal of appropriate and cost effective care for our community.

We have worked for years to plan and develop Inspire Health. This program is based on an in depth analysis of emerging healthcare trends and future community need. I strongly believe your vote for Inspire Health provides a solid foundation from which we can continue providing lifesaving care to the citizens of Norman and our regional communities.

Since June of this year, we have hosted more than 60 community focus groups to share our vision and engage in constructive dialogue regarding Inspire Health. In fact, City Council members were the first group of meetings and we used your thoughts and concerns to evaluate the functionality of a freestanding emergency department buildout in east Norman and to further explore behavioral health options. Additionally those meetings helped to inspire considerable community partnership opportunities on the Porter campus (including Variety Care, Oklahoma State Mental Health and Substance Abuse services and possible partnerships with the University of Oklahoma). We currently have implemented multiple devices to assist the entirety of our community. I can verify that has been recognized by the people in surrounding communities as they frequently seek medical care at Norman Regional Hospital. They say "I knew you would be able to help me."

I am sharing this important message of encouragement and sponsorship with you, a municipal leader of my city, so that we can continue to improve the health and well-being of the citizens of Norman.

Thank you for your consideration,
Sincerely yours,

Daniel Kite, DO

Subject:

FW: Inspire Health NRH

Dear Ms. Petrone,

I am writing to express my support for the Norman Regional Health System Inspire Health plan. I have served the Norman community for 10 years as an oncologist, and 2 years ago I decided to make Norman my home. I am completely invested in the success of Norman Regional. It is vital that our unique health care system be supported by the city so that it can survive the continued threat of "big box" health care that lurks on our borders. I was part of a physician focus group that met periodically over the past year to discuss the Inspire health plan. I feel that my concerns and input were weighed and valued by the health system. This plan was put together with the input of current staff, physicians, and a large consulting group, and I believe that it has been well thought out as a way to insure that our health care system in Norman will be able to survive. This is absolutely in the community's best interest.

We must continue moving forward in order to adapt to the changing health care needs of this community. Reimaging health care services on the east side of town is part of that plan. However, much thought has obviously been given to putting a plan in place to continue to serve the needs of the east side of Norman. Our goal is to keep patients in Norman, instead of losing them to our competitors in Oklahoma City. For my specialty, a comprehensive cancer center is the best way to do this. This will not happen without the changes proposed by Inspire Health. For these reasons, I support the Inspire Health campaign. I hope you will give serious thought to supporting our health care system in this venture.

Thank you,

Kristin Thorp

Dear City Council Member,

As a Norman Regional leader, it is with great urgency and confidence that I implore you to support your local healthcare provider in the transformational plan called Inspire Health.

Over the past three years our health system team worked diligently to plan and develop this bold and transformational plan. Inspire Health is based on an in depth analysis of emerging healthcare trends and future community need.

After this due diligence, I strongly believe Inspire Health provides a solid foundation from which we can continue providing lifesaving care to the citizens of Norman and our regional communities.

Since June of this year, we have hosted more than 60 community focus groups to share our vision and engage in constructive dialogue regarding Inspire Health. In fact, City Council members were the first group of meetings and we used your thoughts and concerns to accelerate the timeline of the freestanding emergency department buildout in east Norman and to further explore behavioral health options. Additionally those meetings helped to inspire considerable community partnership opportunities on the Porter campus (including Variety Care, Oklahoma State Mental Health and Substance Abuse services and possible partnerships with the University of Oklahoma).

I am sharing this important message of encouragement and sponsorship with you, a municipal leader of this great city, so that we can continue to improve the health and well-being of the citizens of Norman.

Thank you for your consideration,

Elizabeth D.O.
