MONTHLY REPORT - June 2020

NORMAN FORWARD DATE: July 6, 2020

PROJECT: NORMAN FORWARD

PROJECT NO: 16-003

REPORT PERIOD: June 1 through June 30, 2020

WORK THIS MONTH

- 1. Monday, June 1, 2020 | 10:30 a.m. | Weekly N.F. Program Manager Meeting a. Weekly discussion of project schedules, budgets, and critical issues
- 2. Tuesday, June 2, 2020 | 10:00 a.m. | Griffin 3B OAC Meeting
 - a. Bi-weekly discussion of project schedules, budgets, and critical issues
- 3. Tuesday, June 2, 2020 | 6:30 p.m. | City Council Meeting
 - a. Items on Agenda relating to Norman Forward Project Budgets
- 4. Wednesday, June 3, 2020 | 10:30 a.m. | N.F. Marketing Meeting
 - a. Discussion of upcoming project schedules, budgets, and critical issues
- 5. Thursday, June 4, 2020 | 10:00 a.m. Development Center IT/AV Requirements
 - a. Owner discussion with City staff on IT/AV Requirements for Development Center
- 6. Monday, June 8, 2020 | 10:30 a.m. | Weekly N.F. Program Manager Meeting
 - a. Weekly discussion of project schedules, budgets, and critical issues
- 7. Tuesday, June 9, 2020 | 5:00 p.m. | City Council Conference & Regular Mtg.
 - a. Polling Results for G.O. Bond Election-N.F. Projects
- 8. Friday, June 12, 2020 | 9:00 a.m. | Central Library Irrigation Walk with Flintco
 - a. On site walk with Flintco and City to discuss operation of irrigation system
- 9. Monday, June 15, 2020 | 10:30 a.m. | Weekly N.F. Program Manager Meeting
 - a. Weekly discussion of project schedules, budgets, and critical issues
- 10. Tuesday, June 16, 2020 | 10:00 a.m. | Griffin 3B OAC Meeting
 - a. Bi-weekly discussion of project schedules, budgets, and critical issues
- 11. Thursday, June 18, 2020 | 1:00 p.m. | 65% Park Maint. Bldg./North Base Review
 - a. ADG Review and Comments on 65% Documents
- 12. Friday, June 19, 2020 | 8:30 a.m. | Scott Martin N.F. Meeting
 - a. Meeting to discuss future plans for Norman Forward
- 13. Monday, June 22, 2020 | 10:30 a.m. | Weekly N.F. Program Manager Meeting
 - a. Weekly discussion of project schedules, budgets, and critical issues
- 14. Tuesday, June 23, 2020 | 9:00 a.m. | Griffin Park Punch Walk Thru with Mid America

FINANCE 3

CITY OF NORMAN

Department of Finance Monthly Report – June 2020

Statistics on outputs from the various divisions of the Department of Finance (DOF) are presented on the following pages. Major projects which were completed or initiated by the DOF in June are discussed below:

Treasury Division:

In the month of June, the Treasury division processed 29,784 total payments. The Treasury division processed 1,438 credit card utility payments, an increase of 18.7% from last month, and the Interactive Voice Response (payment by telephone) system processed 1,808 credit card utility payments, an increase of 3.7% from last month. Utility customers also have the option of paying on the City of Norman website. There were 567 credit card payments made on the internet in June, a decrease of -41% from last month. The Municipal Court processed 510 credit card payments for court fines, a decrease of -.4% from last month.

The City charges a convenience fee of \$3 on credit card payments made online or by phone to help offset the costs of providing credit card service. We collected \$9,675 in convenience fees in the month of June with a fiscal year-to-date total of \$201,869.

Utility Services Division:

The Meter Reading Division read 39,843 meters. Out of 77 meter reading routes, 22 (29%) were read within the targeted 30-day reading cycle. 40 routes (52%) were read by the 31st day, and all routes were read by the 34th day. No routes were estimated in June.

General Fund Revenues & Expenditures:

When comparing General Fund revenue sources versus budgeted levels, revenues are below target for the month of June by -8.8%. Revenues from the City's largest single source of revenue, sales tax, are below target by -10.4% for the year to date and -1% below last fiscal year. Following is a summary table regarding General Fund revenues and expenditures to-date.

	FYE 20	FYE 20	FYE 19	FYE 18
	Budget To Date	Actual To Date	Actual To Date	Actual To Date
Sales Tax				
Revenue	\$44,824,850	\$40,182,876	\$40,598,393	\$39,189,350
General Fund				
Revenue	\$84,024,255	\$76,667,826	\$74,502,137	\$78,119,428
General Fund				
Expenses	\$91,243,439	\$82,542,993	\$73,200,828	\$71,331,243

EMERGENCY MANAGEMENT DIVISION ACTIVITIES

Emergency Management Discipline	Comments: June 2020
Mitigation:	
Siren status	Continues at 97% or higher
Preparedness:	
Amateur license testing	First Thursday each month
Amateur Virtual Elmer night	Each Tuesday evening
Amateur monthly meeting	Second Saturday
South Canadian Amateur Radio National Recognition	June 27, 2020, The South Canadian Amateur Radio Club was honored as
	The2020 Hamvention Award winner. The Hamvention Awards event has been held since 1955. Over these years many amateurs have been honored for their dedication and selfless contributions to our avocation and to mankind. The Club of the Year is honored for clearly demonstrating their involvement in varied aspects of Amateur Radio for the greater good of their community and/or their nation. These awards are considered the "Academy Awards" of Amateur Radio.
Region 3 Communications drill	June 9, 2020, Region 3 is South west Oklahoma response area
Amateur Field Day	June 27-28, 2020, numerous radio operators established three radio stations to participate in the annual field day exercise. Utilizing the Fire Training Center, Morse Code, Voice and Data operations occurred over a 24 hour period of contesting. The group attempted contacts with over 10,000 other operators across North America. Morse Code made 350 contacts, the digital station made 210 contacts and the voice station made 399 contacts. Due to the COVID-19 issue many members operated from

	their home stations.

HUMAN RESOURCES

5

HUMAN RESOURCES Monthly Report June, 2020

ADMINISTRATION

A. Administration

Provided written updates to all employees regarding policy revisions due to COVID-19.

B. Administrative Support

- Processed Monthly Department Report
- Compiled and distributed June 2020 Employee Newsletter
- Processed invoices and reconciled expense accounts
- Closed out EOY FYE 20 budget accounts
- Began drafting updates to Personnel Manual

BENEFITS

- Conducted five (5) new hire and one (1) PT to FT orientations
- Processed enrollment forms, terminations, and changes to health, life, and supplemental products for general health/dental changes
- Reconciliation of health, dental, and supplemental products
- Continued education of plan documents
- Fielded approximately 225 phone calls and one-on-one meetings to discuss benefits and claims
- Conference call with EnvisionRx and Gallagher to discuss information needed regarding Rx90 Program and other prescription changes.
- Calculation of premiums to include health and dental premium increases
 - o Calculated Retiree and COBRA rates
 - o Calculated FOP and H/W rates
 - Updated premium increase changes to ABT and Benefit Codes
- Conference call with Meritain and Gallagher to discuss wellness issues
- Attended a consultation meeting with AFSCME to discuss health/dental premium increases
- ACA maintenance for aged out dependents
- Emailed information to all employees regarding upcoming "re-branding" of Envision Rx to Elixir
- Assisted employees with prior authorizations for prescriptions
- Auditing health and dental enrollments and terminations
- Finalizing updates to insurance summaries handed out during orientations

3	8	5	17	13	10	

INFORMATION TECHNOLOGY

6

CITY OF NORMAN

Information Technology Department Monthly Report – June 2020.

Working projects for the IT Department are as follows:

Project	Description/improvement anticipated	Status
ERP Replacement Project	Process improvements for finance, purchasing, AR/AP, Courts, HR, Payroll, Personnel, and Permits Management through newer technology, software, and business review processes.	In Progress —Project team has completed implementation work on Incode for Municipal Court, Munis for Financials, and is currently in the implementation phase for Advanced Utilities for utility billing, and EAM for Work Orders, Intellitime for Time and Attendance. Munis for HR Module also began in Jan 2020.
Main Site data center upgrades	Necessary upgrades to current infrastructure are needed to enhance capabilities and continue with power saving and cooling efforts by reducing the amount of physical servers through virtualization.	In Planning: FYE18 funding of new core switching has been approved. IT Network staff finalized purchases and began implementation and testing in March FYE19.
Website Rebuild/Redesign	Our current design is 9 years old. A new design will help boost our image, traffic, rankings, and leads. We also need a friendlier mobile device design and look to accomplish this with HTML5.	Complete: The City has completed full implementation and gone live with the updated city website as of 3 June 2020.
Fiber Optic Installation for redundant loop at WTP and EOC	IT and the Utilites Department will be using capital funds to connect a microwave antenna from Fire station 9 to the Water treatment plant and connect to the Emergency Operations Center once that building is complete. This will create a	Awaiting Approval possible launch in FYE21

	redundant loop for the WTP and EOC incase of lost service from the main connection.	
Install fiber optic cable on Rock Creek Road from Porter Avenue to 12th Avenue NE with switch at a new signal at Sequoyah Trail.	Increase the coverage of traffic signals and the IT Fiber infrastructure	Complete.
Wireless phone bills audit for cost savings.	Cost savings for telecommunications, waste elimination.	Ongoing
Water tower and mono-pole contract negotiations.	Increased Revenue and compliance for water tower/cellular mono-pole leases. Repair requirements.	Ongoing
1		
IT main computer room return air system improvements.	This will eliminate a "hot row" of air that currently taxes our main data center servers. If not addressed this "hot row" could cause server degradation and/or failure.	Complete.
	air that currently taxes our main data center servers. If not addressed this "hot row" could cause server degradation	Complete. In Progress

Installation of fiber optic cable along Main Street to Fire Admin picking up signals at Main/Hal Muldrow, Main/Mercedes, Flood/Gray, Flood/University, Flood/Santa Fe, Flood/Peters, and Flood/Porter.	Increase the coverage of traffic signals and the IT Fiber infrastructure which will require IP address for viewing in Centracs	Complete
Installation of fiber optic cable along 36th Avenue NW from Robinson Street to Main Street with switches at Brookhollow Road, Quail Drive, River Oaks Drive, and a new signal at Havenbrook Street.	Increase the coverage of traffic signals and the IT Fiber infrastructurewill require IP addresses	In Progress
Installation of fiber optic cable along 12th Avenue SE from Highway 9 to Cedar Lane Road with a switch at a new signal at Campus Crest Drive.	Increase the coverage of traffic signals and the IT Fiber infrastructurewill require IP addresses	Expected completion in Q1 or Q2 2019
Installation of fiber optic cable along 12th Avenue NE from Robinson Street to Alameda Street with switches at Main Street, Norman Public Schools Bus Barn, and Morren Drive.	Increase the coverage of traffic signals and the IT Fiber infrastructurewill require IP addresses	In Progress
Installation of fiber optic cable along 12th Avenue NE from Rock Creek Road to Robinson Street with switches at Rock Creek Road and a modified traffic signal at High Meadows Drive	Increase the coverage of traffic signals and the IT Fiber infrastructurewill require IP addresses	
Installation of fiber optic cable along Classen Boulevard from Highway 9 to Cedar Lane Road with switches at new signals at Ann Branden Boulevard, Renaissance Drive, and Southlake Boulevard.	Increase the coverage of traffic signals and the IT Fiber infrastructure—will require IP addresses	

Support Tickets:

The IT department tracks work requests with a software package called Spiceworks. **IT Table 1** below represents the number of support tickets closed by the IT Support Staff and those remaining open at the end of June 2020.

Mass Communications:

The following statistics represent email space and resource savings. In the attached table, you will see that 22 emails from the groups shown were sent from city servers using city resources – of those 17190 were delivered to outside mailboxes for the month of June 2020. The city servers generated mass communications to Norman citizens of 17190 messages from only 22 sent (see **IT Table 2**).

Email Security Appliance:

The City of Norman's IT Department has an email filter that has enhanced reporting and filtering capabilities that protect the City's systems from malicious attacks from the outside. Email is one of the preferred methods of the delivery of malicious software and viruses. The IT department monitored 553,244 attempted incoming and 100,122 outgoing messages for the month of June 2020. Incoming messages totaling 368,629 were considered Spam or hazardous e-mails by our email-filtering appliance, and were quarantined or filtered (see **IT Table 3**). This number represents 74% of our inbound mail. This high percentage continues to be the norm for malicious email/spam. The IT Department has made the decision to block inbound traffic from known malicious countries and we continue to monitor and analyze the situation on a daily basis. Inbound email messages of this nature means increased vulnerabilities and attack vectors into the city. Without the email filter appliance, our email server would have received more mail, which increases waste and decreases valuable storage space. Additionally, the email filter appliance kept city employees from bombardment of spam, phishing, and other types of potentially harmful emails.

Web Site:

The City of Norman's web site is hosted, updated, and maintained by the IT Department. In the month of June 2020, the City of Norman's web site had 69,272 individual web sessions access the web site for 178,609 total page views. Of those sessions, 38,447 were identified as New Users to view content on the City web site (see **IT Table 4**). In July of 2019, the IT Department kicked off a project with Interpersonal Frequency to overhaul the City website. When complete (set for June 2020), the site will have reduced and more relevant information as well as the ability to function from mobile devices and tablets.

ERP Project Implementation Progress:

The chart below shows the current progress of the ERP Implementation Project. The project began in January of 2018 and is expected to run through the second quarter of 2021. The City Council has approved approximately \$6 Million to replace the outdated software systems that run our daily business operations. Once complete the city will have enhanced automated services and web services for our citizen base as well as the employees who use and track their daily work with these business systems. The IT Department has completed implementation of Parks and Rec software (Vermont Systems), Municipal Court software (Incode), and Finance software (Munis). Currently, Utility Billing software (CIS Infinity), Human Resource Management (HRM), and EAM for Work Orders is our focus. Daily work continues on these systems as well as additional training on the Financial software. Utility Billing is scheduled for full implementation in Q3 of 2020. Server installation and configuration for Planning and Community Services (CityView) application is set to start in July of 2020 but may be delayed because of the COVID-19 pandemic, and its effect on travel.

MONTHLY REPORT - LEGAL DEPARTMENT

June 2020 Report (Submitted July 10, 2020)

MONTHLY HIGHLIGHTS:

Due to the current national, state and local Declarations of Emergency related to COVID-19, some of the information was not available for report.

Russell, et al. v. Breea Clark, in her official capacity as Mayor of the City of Norman, CJ-2020-471; CIV-20-417 J (K, B)

On June 5, 2020, the Plaintiff salon owners dismissed the case against the Mayor related to restrictions in the Reboot Norman phased reopening plan. The parties agreed that the District Court ruling had no precedential value and that the recent U.S. Supreme Court case *South Bay United Pentecostal Church*, et. al., v. Gavin Newsom, Governor of California, et. al., 140 S. Ct. 1613 (2020) would be instructional in the future if the City had to consider imposing similar restrictions.

LIST OF PENDING CASES:

UNITED STATES COURT OF APPEALS FOR THE TENTH CIRCUIT

Harmon, Toby, Shane Dodson, Tammi Dodson v. City of Norman, Jeff Robertson, Case No. 18-6187; CIV-18-688-HE (K, B)

MUNICIPAL COURT - MONTHLY REPORT JUNE 2020

JUVENILE COMMUNITY SERVICE PROGRAM

Due to a vacancy in program staff, juveniles located and worked community service projects on their own.

MEDIATION PROGRAM

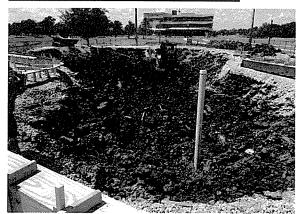

The Early Settlement – Norman Mediation Program accepted 56 new cases and closed 55 cases during the month of June 2020. No Mediations were held.

PARKS AND RECREATION

9

Park Planning Activities June 2020

NORMAN FORWARD Andrews Park:

Crews from American Ramp Company (ARC) arrived in June to begin construction of the new concrete skate park. The excavation of the triple-bowl and the extensive form work for its construction are progressing towards a first concrete pour scheduled for early July. A city work crew set drain lines for the new drop-in bowls on the north end of the park, and worked with OG&E and our local engineering team to make sure all utilities are being considered as we work on finalizing a layout for park lighting. The area for the half-pipe pad is also being finished, so that work can proceed as the bowls are built. We are also

working with the park design team to finalize the paths and landscape around the skate park; so those elements can be installed as the project progresses.

Also, the NORMAN FORWARD Art Project Ad-hoc committee for Andrews Park met again in June to finalize the project scope, which will allow them to send a call for artists in the coming weeks. The area available for art will be in the southern half of the park and/or at the park perimeter. Work will progress in the park throughout the summer for the skate park, shade structures, paving improvements and tree planting.

NORMAN FORWARD Neighborhood Parks:

Crews installed the new playground equipment at Rotary Park; and we are now working to get the synthetic turf fall surface installed around the equipment in the coming month. Also, we have selected a contractor for the construction of the new restroom building in that park. An agenda item is being prepared to hire that work to start construction in July. We will demolish the existing restroom and build the new, larger stone structure in the same general area south of the tennis court in the park, next to the new playground. The design from The McKinney Partnership, Architects, will use similar finish materials as the house and shelter in the park to help provide a common aesthetic in one of Norman's most popular centrally located parks.

Park Splashpads:

We worked to de-winterize and test the equipment in both Colonial Estates Park and Andrews Park in preparation to open those water play areas in June. Crews cleaned the deck areas and inspected the shelters and site furnishings as we anticipated high use for those free public spraygrounds this summer.

NORMAN FORWARD Ruby Grant Park:

Crews are making good progress on the construction of the restrooms, shelters, trails and parking areas throughout the park. We are working with the City Forester to identify trees to be saved and trees to be pruned at the park's new dog park site. Additional work to finish drainage structures, detention areas and establishing grass coverage in areas that have been graded for trails and practice fields is on-going. We are receiving delivery of various site furnishings and disc golf course equipment. Final color selections for the inclusive playground surfacing have been made; and that equipment is in-production—to be delivered late this summer.

NORMAN FORWARD Reaves Park:

We met in June with a group wanting to provide new scoreboards for our youth baseball & softball fields as the park renovation proceeds. The new boards will also include video advertising boards; and we believe we can proceed now with the first four boards at the 4-plex of fields in the southeast part of the park, where the Ball Clubs of Norman are currently playing games. Those fields will remain in-place, with major upgrades to the complex restroom/concession and field surface planned that won't affect the scoreboards beyond the fences. An agenda item is being prepared for council to consider the deal. Also, we met with Halff Associates to get them started on the expanded design drawings for the full build-out of the park planned as part of the bond election vote this August. The plans they will produce will be able to be used immediately or kept on-file for future build-out, depending on the results of the bond issue vote.

JUNE 2020 RECREATION DIVISION MONTHLY REPORT

Senior Center: The Senior Center re-opened on June 15, after closing since March 13th, due to COVID-19. Currently, two weekly activities have resumed to include the cardio and the ceramics classes. Both activities are being well attended, although attendance is down for both classes. The line dance class will start Tuesday, July 7th at 10:00 am; the Tai Chi Class will begin in September, and both bridge groups will start in late August or early September. Staff continues to help with the meal site, which is scheduled to re-open mid-August or early September.

Little Axe Community Center: Some activities and events did not meet in June, 2020 due to the COVID-19 pandemic. Those activities include: food distribution, Head Start Program, and Pioneer Library Services, however, the Little Axe Youth Sports (LAYS) hosted two tournaments in June. The tournaments were held June 13th and 14th and June 26th through June 28th. Both tournaments had an attendance of 1,000+ each weekend.

12th Avenue Recreation Center: The 12th Avenue Recreation Center opened back up at the start of June for the Summer Camp Program. The fee for the Summer Camp Program is \$150 per week and a \$15 discount is given to children that were enrolled full time in a City of Norman After School Program. Summer Camp hours are from 7:00 am to 6:00 pm and attendance was approximately 16 campers each day. Activities include weekly field trips to the Westwood Family Aquatic Center and visits to the 12th Avenue Recreation Center from Mobile Laser Tag, Mad Science Demonstrations, and Extreme Animals. Athletes Global and Bricks 4 Kids also come weekly to provide the campers fun fitness activities and offer them STEM building skills. On June 12, most instructional classes and activities resumed their normal schedule to include: Aikido, Tai Chi, Body Sculpting, American Karate, Tae Kwon Do, and Square Dancing. The Greater OKC Pickleball Club also went back to their normal schedule holding indoor matches on Wednesday and Friday's from 6:00 to 9:00 pm.

Irving Recreation Center: In June, the Irving Recreation Center began the Summer 2020 Irving Explorer Camp and participants have enjoyed various fun activities throughout the month. This summer Irving incorporated weekly themes into the summer camp experience. Week 1 was "Animal Adventures" with fun activities such as: zoo animal masks craft, visit from Extreme Animals, and dress like your favorite animal day. Week 2 was "Peace & Love" and activities included: ceramic flower pots craft, making tie dye shirts and flying kites. For Week 3 was "Super Friends" activities included: superhero drawstring bags craft, superhero tag, and wear your favorite superhero gear. Week 4 was "Beach Fun" and activities included: beach ball craft, decorating tropical visors and Hawaiian shirt day. Other fun activities that were incorporated included Lego Robotics with Bricks 4 Kidz, Fun Fitness Class with Athletes Global and swimming at Westwood Pool.

Whittier Recreation Center: In June, the Okie Stompers clogging class reconvened their spring classes at the Whittier Recreation Center and met on Tuesday and Thursday evenings from 6:00-8:00 p.m. The Whittier Discovery Camp completed its first five weeks with 23 campers total per week. Campers kicked off the month with Spirit Week (Marvel Monday, Tourist Tuesday, Wacky Wednesday, Throwback Thursday and Nerf Party Friday)! In addition to spirit week this month, the campers participated in: making superhero masks, tie dye tank tops, participated in group games and an inhouse escape room, sno cone visits from Eskimo Sno, scavenger hunts, weekly STEM activities from Bricks 4 Kidz and pool visits to the Westwood Aquatic Center. They had their weekly afternoon visit from Athletes Global, a visit from the Dart Battles of Oklahoma, story/craft time from a guest visitor and much more! Lastly, the campers have enjoyed a pizza/ice cream sundae party, making picture frames, self-portraits and friendship bracelets for their family members.

The month of June leaves just as oddly as it came. For the first three weeks of the month daily high temperatures were above normal and average monthly rainfall was not in existence. I decided to fertilize the fairways at a half rate of nitrogen than we normally would use to make sure that mowing would not get out of control. The first few weeks of June gave the golf course an appearance like we were in late August. Among other variables, high temperatures dictate when greens rollers are put into use. We mow greens 5 to 7 times a week this time of year and may insert the use of greens rollers 1 to 2 times a week instead of mowing to relieve stress on the greens. This allows for smoothing the surface without cutting the grass for a day. Cups are changed on the putter every other day to handle the amount of traffic forced on that specific green. We are currently changing cups placement every other day. The numbers fluctuate from day to day depending on events and temperatures. The rounds of play numbers are supplied by the pro shop and are watched very closely. The tee markers are moved daily as well as trash and debris removal and the course bathrooms are cleaned, disinfected, and monitored throughout the day. We are mowing tees, and fairways at two thirds the amount as is usual for this time of year. Traps are raked as often as possible which equates to 5-6 times a week. Immediate rough is mowed as often as possible to alleviate scalping and the deep rough is mostly nonexistent. Sickle mowing has been performed one time and only in areas that cross fairways. We have applied post emergent as time allows. The driving range tee is evenly fertilized every three weeks, is blown with a turbo blower to remove unsightly divots and clippings and is mowed daily. Greens were sprayed with fungicide, insecticide, a wetting polymer, fertilizer, and an acid product to flush soluble salts. Hand watering of greens has been more than usual due to high temperatures. Watering 10 acres of mounds with manual valves started earlier than normal this month and continues as a weekly task that takes one man approximately 4 hours and all to be completed. The top of #7 fairway was aerified and cores removed to allow better water uptake by the

4 hours and all to be completed. The top of #7 fairway was aerified and cores removed to allow better water uptake by the turf. Park maintenance graciously did groundwork and removed trees on the slope of the pond at #3 fairway that was a non- mowable wash out area

PLANNING DEPARTMENT ACTIVITY June 2020

ADMINISTRATIVE DIVISION

PlanNorman

PlanNorman is pending the scheduling of a City Council Study Session at which responses to citizen comments and concerns will be addressed.

GREENBELT COMMISSION

The Greenbelt Commission met on June 15, 2020 via video conference. There was one item on the consent docket: Peebly Estates COS, located at Franklin Road and 156th Ave. N.E. This item was forwarded with no further comments.

HISTORIC DISTRICT COMMISSION

The regular Historic District Commission Meeting for June 1 2020 was cancelled due to a lack of agenda items.

COA requests approved by Historic District Commission:

None

COA Administrative Bypass granted by staff:

None

<u>Certified Local Government (CLG) Program Report (FY 2019-2020):</u>

Mainstreet Architects progress on the Historic District Guidelines was delayed due the Coronavirus pandemic and associated stay at home orders. City Council at their June 23^{rd} meeting approved amended contracts with the State Historic Preservation Office (SHPO) and the consultant that allows for completion of the Guidelines by September. Staff received the first draft of the revised Guidelines on June 26^{th} and is in the process of reviewing. Staff also received the new 2020-21 CLG program year contract with the State Historic Preservation Office. This will be forwarded to Council for approval in July. Staff is currently working with five residents who are interested in alterations to their historic homes. It is anticipated that there will be five COA requests for review by the Historic District Commission for the August 3^{rd} meeting.

During June, one application for Pre-Development was received for the meeting scheduled for June 25, 2020.

During June, submittals for the July 9, 2020 Planning Commission included: one PUD amendment for the signage at Legacy Trail Apartments; and one application for a special use.

The Planning Commission met on June 11 via video conference with nine members present. They unanimously postponed one project with a NORMAN 2025 Plan amendment and rezoning, as well as vacation/closure of an alley right-of-way, at the request of the applicants. They unanimously recommended approval of a PUD amendment for a portion of University North Park, and the NORMAN 2025 Plan amendment, rezoning, and preliminary plat for Norman Regional Health System East Campus. They recommended approval of a special use to allow medical marijuana processing on a parcel zoned A-2, by a vote of 5-3. The next regular Planning Commission meeting is scheduled for July 9, 2020 via video conference.

PLANNING REVIEW

During the month of June, Current Planning received 28 commercial building permit applications for review. Of those applications submitted, Current Planning staff reviewed and approved 16; 2 have been reviewed and placed on HOLD and 10 have not yet been reviewed.

BOARD OF ADJUSTMENT

The Board of Adjustment met on June 24, 2020 via ZOOM video conference with five members present (one was experiencing technical difficulties and had no video, so was unable to participate). The Board unanimously approved one application which included three variance requests: (1) intensity of use, to allow a house on a 3,750 sq. ft. lot; (2) front yard setback, to allow the new house to be set back approximately the same distance as adjacent structures; (3) rear yard setback, of not less than 10'. The next regular meeting is scheduled for July 22, 2020.

GEOGRAPHICAL INFORMATION SYSTEM (GIS) DIVISION

Staff took part in discussions of digital data submissions for the Engineering Design Criteria. Staff also worked with the Public Works Stormwater to identify open space that the city is preserving. This information is used as part of the flood insurance review. GIS Staff also worked with stormwater on the set-up of the camera truck. Staff also worked with Information Technology staff on data conversion for the ERP related to the Munis EAM work order software.

Staff continued to work on several ongoing projects. Staff completed the maps to be included in the Capital Improvement Budget and completed the Annual 2019 Status Report on Development and the Norman 2025 Plan. Staff made several GPS data dictionaries and continued the general update and maintenance of GIS databases. Staff completed 76 service request that resulted in 60 maps, reports or data files being produced.

DEVELOPMENT SERVICES

REMOTE VIDEO INSPECTIONS

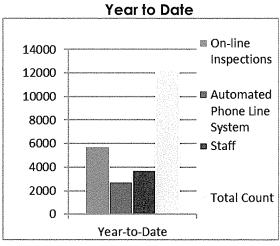

During the initial COVID-19 pandemic, Remote Video Inspections (RVI) were completed on some inspections/re-inspection requests frequently occupied by homeowners, workers, or contractors, to promote the health and safety of the Inspection staff, and citizens, and to maximize social distancing. The (RVI) inspection process requires communication between the individual requesting the inspection, and the Building Inspector conducting the inspection which is conducted via FaceTime or Google Duo. Multiple RVI inspections were conducted during June with compliments from citizens about the (RVI) process.

ON-LINE INSPECTION SERVICES

Inspection Requests

During June 2,394 inspections were requested. 1,153 inspection requests were made on-line, and 431 inspections were requests were made using the Automated Phone Line System. Staff made 810 inspection requests, which include phone and in-person requests, as well as administrative items.

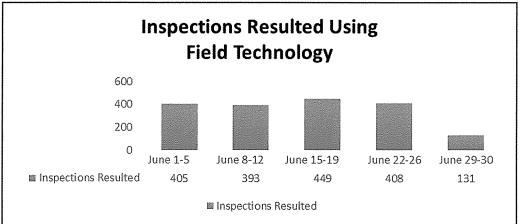

COMMERCIAL PLAN REVIEW

During the month of June, Development Services received 28 commercial building permit applications for review. Of those applications submitted, Development Services staff reviewed and approved 13, 1 was reviewed and placed on HOLD and 14 have not yet been reviewed.

MOBILE FIELD INSPECTION SYSTEM

During June 1,786 inspection results were entered using the Mobile Field Inspection (MFI) System (Field Technology). Inspection results were available on-line and through the Automated Phone Line System almost immediately as the inspections were conducted throughout the workday beginning as early as 8:15AM. Inspection Records were printed on-site as needed.

HOME ENERGY RATING SYSTEM (HERS)/ENERGY RATING INDEX (ERI) PILOT PROGRAM

During June several applications for new single-family permits were applied to the 2018 Home Energy Rating System (HERS/Energy Rating Index (ERI) Fee Adjustment Incentive Program. To-date, about three hundred thirty (330) applications have been applied to the program.

HERS/ERI reports were received for several homes that received CO during June with scores averaging 54. HERS scores of 55 or less, allowed full adjustment of permit fees pursuant to Section 5-104 of the City of Norman Code. Scores of 56 and higher required a percentage of the original permit fees to be paid in advance of the issuance of Certificate of Occupancy (CO), per Resolution R-1718-117.

The HERS/ERI Pilot Program initially began on July 1, 2018, with the adoption of Resolution R-1718-117 in May of 2018. Council approved three additional 6-month extensions of the HERS/ERI Program. Recently Resolution R-1920-125 extended the program an additional twelve (12) months to June 30, 2021.

CDBG and **HOME** Investment Partnerships Programs

The CDBG Consolidated Plan and Substantial Amendment Two for the FYE20 CDBG Funds (Fifth Year Action Plan) was submitted for HUD review which includes the additional CDBG funding that is being appropriated by the CARES Act (\$535,688). This funding was included within the Public Hearing on May 12, 2020. Availability of funding for a Rent and Utility Program is estimated to be available to the public in July.

Staff is finalizing design documents for the construction of three single family homes in conjunction with the CHDO and the Norman Affordable Housing Corporation. Site preparation is underway. Projects will be bid in July 2020 with construction to begin late Summer.

The Tree Planting Project for Original Townsite Neighborhood is completed. Scope was expanded to include removal of diseased trees identified by City of Norman Forester, Tim Vermillion, and approved by owner. All removal work was coordinated by the Parks and Recreation Department. Tree planting coordination was overseen by the Grants Manager during the COVID-19 staff reduction timeframe. Several additional diseased trees have recently been identified and the project expanded to utilize remaining budget. The 2020 Tree Planting Project is being discussed with the Parks and Recreation Department as to the targeted location and focus.

Homeless Activities

On June 20, the housing placement report for the Ready for Zero initiative was made to Community Solutions for the month of May. There were five housing placements made (2 Veteran; 3 Chronic; 0 Family).

Due to the increased visibility of persons who are experiencing homelessness by the establishment of multiple campsites on city property, the Continuum of Care, the Norman Police Department, and the Homeless Services Coordinator are developing guidelines and strategies to address this increasing problem. Norman City Council appointed a three-member Council Committee on October 22, 2019 to work with the Continuum of Care to develop strategies in addressing this increasing issue. Staff is in constant contact with the service providers and national officials pertaining to developing and implementing protocols for addressing the unique issues of the unsheltered population during the COVID-19 crisis. The Committee has begun meeting to plan for the Winter Warming shelter for the 2020-2021 winter.

Housing Programs

June 2020

CDBG – The summary below includes the status of each of the rehabilitation programs that are offered. Currently all rehabilitation activity has been paused due to the COVID-19 Crisis. Emergency repair requests are being considered on a case by case basis.

One rehabilitation project being completed since July 1, 2019.

- No emergency repair projects are currently under contract; eleven emergency repair projects were completed since July 1, 2019. Two emergency repair is in the development stage.
- Twenty-three accessibility modification projects have been completed since July 1, 2019. Two accessibility modification projects are in the development stage.

Social and Voluntary Services Commission

The FYE20 Requests for Application was released July 1, 2019 with a return date on July 19, 2019. Thirty applications were received. The SVSC Commission met on July 29, 2019 to begin review of the applications. On August 12, 2019 the SVSC Commission met and awarded funding to twenty-eight non-profit agencies totaling \$175,000. Planning for the 2020-2021 Application cycle will begin July 2020.

DEPARTMENT OF PUBLIC WORKS MONTHLY PROGRESS REPORT CITY OF NORMAN, OKLAHOMA June 2020

ENGINEERING DIVISION

DEVELOPMENT

The Development Manager processed one (1) final plat for the Development Committee; three (3) Rural Certificates of Survey; three (3) Preliminary Plats; one (1) Deferred Construction and one (1) Closure to City Council. The Development Engineer reviewed 20 sets of construction plans and 2 punch lists. There were 180 permits reviewed and/or issued. Fees were collected in the amount of \$9,868.85.

CAPITAL PROJECTS:

24th Avenue East Widening Project-Lindsey Street to Robinson Street:

The Oklahoma Department of Transportation (ODOT) conducted a bid opening on June 20, 2019, for both phases of the 24th Avenue East Project, located from Lindsey Street to Robinson Street. The low bidder was Silver Star Construction Company of Moore, Oklahoma in the amount of \$9,437,000 for the combined projects. ODOT awarded these projects at the July 1, 2019, Transportation Commission Meeting. Silver Star started construction on Monday, September 23, 2019. This project has a 270-calendar day construction schedule, which will likely result in a Fall 2020 completion. ODOT is administering the construction of this project because federal transportation funds are being used.

The project involves the following items:

- Widen two miles of roadway from two lanes to four lanes
- Intersection improvements at 24th Ave. East/Meadowood Boulevard and 24th Avenue East /Robinson Street
- Interconnect traffic signals on 24th Avenue East from Lindsey St. to Robinson St.
- Continuous sidewalks and accessibility
- Stormwater improvements
- On-street bike lanes

The contractor's activities this month were as follows:

- Finished asphalt base and intermediate layer paving operations on new northbound lanes between Alameda Street and Robinson Street
- Finished concrete curb installation between Alameda Street and Robinson Street on the east side of 24th Avenue East
- Finished the second of four quadrants (southeast) of the Robinson Street/24th Avenue NE intersection
- Finished concrete drive and side street installations between Lindsey Street and Alameda Street on the east side of 24th Avenue East
- Finished sidewalk installations between Lindsey Street and Alameda Street on the east side of 24th Avenue East
- Continued block retaining wall installations between Alameda Street and Robinson Street on the east side of 24th Avenue East
- Started final grading and sidewalk installations between Alameda Street and Robinson Street on the east side of 24th Avenue East
- Started asphalt pavement milling between Lindsey Street and Alameda Street on the west side of 24th Avenue East

Roadway Bond Projects:

During the month of June, concrete paving maintenance continued in Westerfield Manor Addition as part of the Bond 2019 Urban Concrete Project.

Public Transit

Public Transit Response to COVID-19 (coronavirus)

Below are actions taken by City and EMBARK staff altering transit service in response to COVID-19 and to align with the Mayor's Proclamations and social distancing guidelines. These are actions that continued through May.

- Enhanced cleaning of vehicles (began March 9).
- Suspended operations of route 144-Social Security (began March 20).
- Limit fixed route bus seating to comply with social distancing guidelines (began March 23).
- One paratransit customer per vehicle.
- Recommending passengers wear face coverings while using transit services (began April 15). This will be updated accordingly with Council's passage of Ordinance No. O-2021-3 on July 7.
- Requiring passengers to use the rear door for entry and exit off of fixed route vehicles, unless passengers need to use the front door for the ramp or kneeling feature (began April 23).

On June 8, the reduction in service hours was reversed with service operating at the regular times between 7am and 10pm. All other measures above are still in place until further notice.

Grant Activity

Staff made final fiscal year 2020 fund drawdowns on the FY20 Federal Transit Administration (FTA) grant for public transit eligible expenses. This includes funding for operations, ADA paratransit, preventative maintenance, planning, and security.

Staff continued working to program the CARES Act funding, \$5.05 million dollars, that was allocated to the Norman urbanized for public transit expenses. Programming the CARES Act funding for the maintenance/operations facility on North Base was approved by the ACOG Intermodal Transportation Technical Committee (ITTC) and Intermodal Transportation Policy Committee (ITPC) in May. Staff is finalizing the formal obligation of the funds in an FTA grant.

Staff continued working on the FY21 annual grant application for public transit eligible expenses. This includes funding for operations, ADA paratransit, preventative maintenance, planning, and security. In addition, unused OU/CART funds earmarked for capital expenses are being programmed for vehicle replacements.

City Council Approval of Contract No. K-1920-137 at its June 23, 2020 Meeting

- Interlocal Agreement with the Central Oklahoma Transportation and Parking Authority (COTPA)
 dba EMBARK to provide transit services in FYE 2021 (July 1, 2020, to June 30, 2021). The term if
 this agreement runs through the second fiscal year of the City's operation of the City transit
 service, the first year being operated by EMBARK as well. Key operational changes from FYE
 2020 to 2021 include:
 - Operation of Saturday service beginning August 15, 2020. This will include University football game days, with operations out of a temporary hub due to street closures and traffic conditions around the current transfer station on Brooks Street.
 - Combination of Norman Route 124 and EMBARK OKC Route 024 effective August 10, 2020.
 - For many years, the operations of the commuter route between Norman and Oklahoma City was split between the two transit service providers. This caused confusion for passengers due to the need to contact one entity or the other for route information and bus location. There have been discussions in the past regarding one entity operating the entire commuter route. With EMBARK OKC operating the full route, there will be a decrease in customer confusion and an increase in operation efficiencies.
 - Official adoption of key EMBARK policies: Rider Conduct and Exclusion Policy, EMBARK Norman Plus ADA Guide, and EMBARK Advertising Policy.

Transit Monthly Ridership Report

Attached is the transit monthly ridership report that shows total and average daily ridership by route.

STREETS DIVISION

CAPITAL PROJECTS:

320 EAST COMANCHE - ALLEY REPAIR

Streets crews worked 320 East Comanche – Alley Repair to replace damaged concrete panels. This repair required 58 cubic yards of concrete and resulted in over 175 square yards repaired.

WINDWARD COURT (CRACK SEAL)

Streets crews worked a crack seal project at Windward Court and used 12.39 tons of asphalt for the repair.

WILLOWBEND ROAD (CRACK SEAL)

Streets crews worked a crack seal project at Willowbend Road and used 8.62 tons of asphalt for the repair.

180TH AVENUE SE HIGHWAY 9 TO IMHOFF ROAD

Streets crews worked an overlay project at 180th Avenue SE Highway 9 to Imhoff Road and used 3,953.73 tons of asphalt for the repair.

IOWA STREET AND MERKLE DRIVE TO SHERRY AVENUE

Streets crews replaced damaged concrete panels at Iowa Street and Merkle Drive to Sherry Avenue. This repair required 78.50 cubic yards of concrete and resulted in over 297 square yards repaired.

ASPHALT OPERATIONS:

148 REED AVENUE - DEEP PATCH

Streets crews worked a deep patch at 404 Egret Lane and required 30.86 tons of asphalt for the repair.

INDIAN HILLS BETWEEN BROADWAY AND PORTER AVENUE

Streets crews worked a deep patch at Indian Hills between Broadway and Porter Avenue and required 118.05 tons of asphalt for the repair.

CONCRETE OPERATIONS:

1804 WINDING RIDGE ROAD

Streets crews replaced damaged concrete panels at 1804 Winding Ridge Road. This repair required 46.50 cubic yards of concrete and resulted in over 138 square yards repaired.

PAGE STREET

Streets crews replaced damaged concrete panels at Page Street. This repair required 89 cubic yards of concrete and resulted in over 309 square yards repaired.

ROADSIDE OPERATIONS:

MOWING OF ROADSIDE RIGHTS-OF-WAY

Streets Roadside Mowing crew continued their summer mowing schedule. During June, 2020, 88 miles of rural rights-of way and 5,551,608 sq. ft. of urban rights-of-way were mowed.

STORMWATER

WORK ORDER RESPONSE

Stormwater Division received 39 work order requests and closed 28 work orders.

INFRASTRUCTURE MAINTENANCE

The Infrastructure Maintenance crew worked at 2512 Water Leaf and 4350 Lyrewood Lane to repair leaking stormwater pipes. They repaired a leaking inlet box at 1804 Winding Ridge. The crew removed decking placed over a stormwater flume causing a drainage easement obstruction at 2910 Meadow Ave. The Infrastructure Maintenance crew also completed a pipe repair and sidewalk project at Frances Cate Park. The crew completed the Reed Family pond spillway pipe replacement as part of the 24th Ave NE road widening project agreement.

DRAINAGE MAINTENANCE

The Channel Maintenance crew continued their mowing schedule and mowed 1,004,070 ft² of urban drainage way to ensure clear channels and proper flow for spring rains. The crew also removed 25 tons of debris from Imhoff and Bishop Creeks and repaired a fallen section of WPA wall on Lahoma Ave. The Channel Maintenance crew also repaired a leaking channel wall on 24th Ave SW.

URBAN STREET SWEEPING OPERATIONS

A total of 709 lane miles were swept resulting in the removal of approximately 413 tons of debris from various curb lined streets.

The Litter Crew has been postponed due to the COVID-19 pandemic, and no litter removal was performed.

STORMWATER OKIE LOCATES

During the month of June, 2487 Call 811 Okie Spots were received. Of those requests, 63 were stormwater pipe locates, 128 were marked, and 650 were referred to other departments.

CONSTRUCTION SITE STORMWATER MANAGEMENT

Performed 107 inspections of 90 active sites Issued 0 citation and 0 NOVs to active sites Issued 4 Earth Change Permits to new projects

MS4 OPERATIONS

Received and responded to 39 citizen calls/ YTD Total is 329.

Conducted 8 outfall inspections.

Conducted 7 detention/retention pond inspections.

On June 2, Carrie Evenson facilitated staff interviews with Freese and Nichols regarding the Engineering Design Criteria update.

On June 3, 10 and 17, Michele Loudenback participated in the Region 6 EPA Stormwater Conference Agenda Committee Planning Call.

On June 22, Carrie Evenson worked with Freese and Nichols to conduct the first external stakeholder meeting regarding the Engineering Design Criteria update.

On June 30, the Stormwater Division worked with Norman Arts Council to clean and reseal the 2019 Artful Inlets murals.

FLEET DIVISION

The Fleet Management Division Activity Report shows a comprehensive summary of the activity during the month, broken down into 3 subgroups: Fuel Report, Maintenance Report, and Productivity Report.

Fuel Report

<u>Purchases:</u> The Inventory fuel and Outside fuel purchases are added together for each category of fuel - Unleaded gasoline, Diesel fuel, and CNG.

Amount Sold: The amount of Inventory fuel and Outside fuel disbursed to city divisions are shown.

<u>Price Per Gallon</u>: For Inventory Purchases, each time a purchase is made the invoice information, such as quantity and total price is receipted into the Faster system. The Faster program then tallies the information and decides on a price-per-gallon for that purchase. The monthly high and the monthly low price-per-gallon for unleaded gasoline and diesel fuel are shown.

Maintenance Report

Repair Parts Sold: This shows the amount of money spent on repair parts for vehicles during the month.

Monthly Progress Report Public Works (June 2020)

<u>Tires Sold:</u> This shows the amount of money spent on tires for city vehicles during the month.

Total Parts Sold: This is the sum of Repair Parts and Tires Sold added together.

Sublet Repairs: This is the amount spent on outside repairs during the month.

Road Calls: This is the amount of times Fleet was called out to retrieve/repair a vehicle.

<u>Preventative Maintenance Services:</u> This is the amount of times a vehicle failed to make the appointed preventative maintenance service and had to be rescheduled.

Total Work Orders: This is the amount of work orders for the entire month.

Year to Date Work Order Total: This is the amount of work orders for the entire year.

Productivity Report

<u>Direct Labor Hours:</u> Each mechanic's total direct labor hours are shown. Then the direct labor hours are tallied together. After that the total available hours are shown to assess productivity.

<u>Productivity Goal:</u> When mechanics are productive at 70%, meaning that 70% of their day was spent actually working on vehicles, the City of Norman is in equilibrium. We are able to use the money generated from their direct labor to pay wages, benefits and the utilities.

<u>Actual Productivity:</u> This is the average percent of all the mechanics' total productivity during the available working hours for the month.

Monthly Report June 2020

LINE MAINTENANCE:

Waterline Capital Projects

- Hunting Horse Tr. 60%
- Eufaula St.- 100%

East Eufaula Street: Staff will replace 455 feet of deteriorated 6" Ductile iron pipe with 6" C-900 PVC from Porter Avenue to Ponca Avenue. Staff spread 12 yards of topsoil, and laid 2,000 feet of sod and poured a concrete approach, project 100% complete.

Hunting Horse Trail: Staff will replace 500 feet of 6" Ductile Iron pipe with 6" PVC from 1006 Hunting Horse Trail to Wyandotte Way. Staff laid 420 feet of PVC, installed new fire hydrant, a 2"blow off, filled line, flushed, pass bacteriological samples and changed over 12 water meters services to new water main, project 60% complete.

Page Street: Unfunded assistance for Public Works, staff laid 340 feet of 2" SDR poly pipe, connected three water meter services to it and hauled construction debris from job site.

Water Line Breaks - 13 in June

Sewer Line Data

- Total obstruction service requests 19
 - Private Plumbing: 17
 - City Infrastructure: 2
 - Sanitary Sewer Overflows 2; 1 overflow on City side and 1 on private service line

Lift Station D Flows:

- Days 30
- Average daily flow: 1.19 MGD
- Total flow: 35.7 MG

UTILITIES ENGINEERING:

Line Maintenance Building (WA/WW0329)/WRF Storage Building (WW0318): Project will construct new building for Line Maintenance Division consisting of 49 staff; the existing 11,000 SF building is currently located on North Base property adjacent to the Fleet offices and vehicle servicing areas. This project assumes construction of a new 20,000 SF facility NW of the water treatment plant to house administrative offices, the employee breakroom, fire hydrant/meter repair area as well as areas for numerous water and sewer line repair parts, pump repair parts and a work area for pump repairs and testing. RFP issued 06/12/18 for this work with proposals due 07/15/18. On 08/07/18, Barrett L. Williamson Architects selected to provide design and construction services for the projects. approved preliminary design contract K-1920-109 with Barrett L. Williamson Architects on 01/28/20 for \$124,550. Preliminary design expected to be completed in August 2020.

WASTEWATER PROJECTS:

Sewer Maintenance Project FYE17 (WW0307): This annual project will rehabilitate about 23,800 feet of sewer and 105 manholes, in the area bounded by Cave Creek Street and Pinecrest Street to the north, partially Sequoyah Trail and partially Woodcrest Creek Drive to the west, Rock Creek Road to the south, and 12th Avenue NE to the east.

Engineer: Staff with assistance from Lemke Surveying and Cardinal Engineering. Line Maintenance staff completed television work in March 2017. NUA approved professional services expenditure with Lemke for surveying and drafting assistance on 7/26/16; Line Maintenance completed additional survey of existing manholes along 12th Avenue NE/Main to determine need for repair/replacement in FYE17 project; The bidding documents were finalized on February 3, 2020 and the project advertised February 13;. Six bidders attended the pre-bid conference on March 3, 2020. Addendum No. 1 issued 03/09/20. Staff construction estimate is \$3.3M for the Base and Alternate Bids; \$2.28 M is available. bids opened on March 12, 2020 with the low bid of \$2.8M submitted by Horseshoe Construction of La Porte, TX. NUA approved Award of Bid 1920-49 (Phase 1) and Contract K-1920-73 with Horseshoe for \$2,796,161.25 on 4/14/20. Phase 2 16-inch Alternate Bid advertised separately was opened 04/09/20 with low bid of \$370,105 from Jordan Contractors of Tecumseh, OK. NUA approved Award of Bid 1920-57 and Contract K-1920-123 with Jordan for \$370,105 approved by NUA on 4/28/20. Television inspection for Phase 1 work began 05/04/20. The contractor has replaced approximately 5,300 feet of sewer line.

Sewer Maintenance Project FYE18 (WW0316): Annual project will replace about 27,800 feet (5 miles) of residential sanitary sewer lines and rehabilitate or replace about 108 manholes in the area bounded by Westbrook Terrace to the North, Highway 9 to the Southwest and Berry Road to the East. Preliminary project layout and scope definition are complete. Line Maintenance staff completed television work 10/19/18 and forwarded to NUA engineering staff; NUA approved professional services expenditure with Lemke for surveying and drafting assistance on 02/12/19; Lemke completed initial survey work and delivered draft plans to NUA 07/03/19. Plans are being reviewed by Line Maintenance and NUA staff. Additional funding of \$1.96M is proposed in the FYE21 CIP budget. Staff will review plans in Autust 2020 and have final plans in October 2020.

Engineer: Staff with assistance from Lemke Surveying and Cardinal Engineering

<u>Sewer Maintenance Project FYE19 (WW0321)</u>: Annual project may replace about 22,000 feet (over 4 miles) of residential sanitary sewer lines and rehabilitate or replace about 108 manholes in the area bounded by Peter Pan St. to the North, 24th Ave SW to the west, Westbrook Terrace to the south, and Berry Road to the East. Preliminary project layout and scope definition are in progress. Line Maintenance has begun internal video survey of project area which should be complete by December 2020. Award contract to Lemke for surveying and drafting assistance should be in December 2020.

Engineer: Staff with assistance from local surveyor

Effluent Reuse at Compost Facility (WW0058): A non-potable water system allowing reuse of treated effluent at the WRF is in place. Disinfected wastewater effluent may also be used, if permitted by the ODEQ, for irrigation purposes offsite such as at the Compost Facility south of the WWTP. Wastewater reuse can reduce water demand and delay the need for expensive water supply projects. This project will install piping to the compost facility and examine the need to upsize the non-potable water pumps. Contract K-1213-54 for preparation of Engineering Report (ER) with Alan Plummer and Associates (APAI) approved 09/06/12. After numerous meetings with DEQ; ER for Compost Facility Reuse submitted to DEQ 09/04/13; ER approved on 09/23/14. APAI contract amendment for final design and construction administration approved by NUA 01/27/15; design work proceeding with 90% plans received 02/16/16. Since completion of WRF Phase 2, staff is considering using UV disinfected effluent in lieu of chlorinated effluent for compost irrigation. Staff and APAI requested variance from DEQ reuse rules to accomplish this change on 02/15/18. Staff and APAI met with DEQ 03/29/18 to discuss the proposed variance; DEQ advised NUA on 07/18/18 that the variance was conditionally approved. APAI and staff negotiated scope and price of Compost Reuse Pump Station project; the NUA approved Contract 1819-82 with APAI 12/11/18 to design the project using UV reuse water at the compost facility. Staff met with APAI on 02/08/19 to discuss project with Compost Facility staff and discuss potential project solutions. 100% plans submitted to DEQ 06/19/19 and the DEQ approved the plans 07/15/19. Pre-Bid Conference held 09/12/19 with five contractors attending; bids will be opened 09/19/19. Four bids were received 09/19/19 ranging between \$438,670 and \$635,892 and were much higher than estimated; staff has met with low bidder in attempt to reduce costs and is awaiting additional information. APAI and staff have worked to reduce project scope and cost and we met with the low bidder, Mathews Trenching, in an attempt to reduce the price. Negotiations were only able to reduce the price to about \$350,000 that is still too much to justify contract award. Bids were rejected and the project will not proceed. Staff will work with DEQ to select and bid another SEP project. DEQ agreed but demanded a quick turnaround time so staff selected a solar installation project on top of the UV building at the WRF. NUA will approve design contract July 14, 2020.

<u>WRF Land Purchase (WW0170):</u> 20-acre parcel to west and south of WRF is being considered for purchase with portion of land for potential WRF expansion and area south of Bratcher Minor Road for potential Compost Facility expansion. Appraisal of property obtained March 6, 2020. Phase I Environmental Site Assessment completed in June 17, Purchase agreement on Council agenda in July.

WRF Reuse Pilot Study (WW0317): Project will consider treatment alternatives to produce highly treated effluent at the WRF suitable for discharge into Lake Thunderbird. Pilot project may be co-funded through a Bureau of Reclamation grant. FYE19 funding is for preliminary engineering with pilot phase to be funded in future years. Letter regarding pilot study protocol submitted to DEQ June, 2019. Application was submitted in September and we learned in December that we will be receiving up to \$700,00 in grant funding. Staff held a check receiving / project kickoff ceremony January 31, 2020 at the Central Library. NUA approved Garver's contract February 11, 2020. Staff is preparing an agenda item to bring BOR contract forward for NUA approval but awaits final contract from BOR. Staff will bring an Amendment No. 1 to Garver's contract June 23, 2020 to allow them to administer all of the rental equipment and sampling/analyses on behalf of WRF..

SE Norman Lift Station Payback (WW0306): Staff has recently updated the wastewater model to project flows generated from full build-out of the Destin Landing Development in SE Norman. A series of interceptors as well as one large lift station with flow equalization can eliminate one existing and three proposed lift stations in southeast Norman. This project will estimate project costs, assign wastewater generation estimates to undeveloped properties to be serviced, and prorate payback costs per parcel based on wastewater generation projections. Developers might initially fund the lift station and/or the NUA with a portion of the funding paid back as additional areas develop. RFP issued 06/12/18 for this work with proposals due 07/15/18. On 08/07/18, staff selected Search, Inc. to prepare the sewer service area study and evaluate its potential as a payback project. Staff expects to bring a contract forward to NUA in June, 2020.

<u>Bishop Creek Interceptor Project (WW0174):</u> Project will replace or parallel approximately 20,600 feet of existing sewer interceptors in the in the Bishop Creek wastewater basin to accommodate the full build-out wastewater flows. The project area generally lies between Highway 9 and Constitution and between Jenkins and Classen Boulevard. Staff will soon prepare an RFP to select design consultant for this and other water/sewer projects.

Lift Station D Force Main Replacement (WW0091): Another portion of the Lift Station D 16" ductile iron force main along 12th Ave N.E. is severely deteriorated and in need of replacement. Approximately 3,500 feet of this force main to just south of Rock Creek Road was replaced with 20-inch PVC in 2009. The area needing replacement because of continued breaks is on the west side of 12th from the end of the previous project to the point where it begins to gravity flow near the 12th Avenue Recreation Center. The project is expected to require 2,300 feet of new 20-inch piping, three air release vaults, and a new receiving manhole. After discussions with the Parks Department, the City of Norman will continue to lease the property needed for this project and will not purchase the property outright. Therefore, the project was kicked back off to identify the best alignment and then move forward to final design, easement acquisition (as necessary), bidding and construction.

Engineer: PEC, Inc.. (Chris Grizer)

Summit Valley Interceptor (WW0278): The Summit Valley interceptor will extend 12 and 15-inch sewer line northerly from the Summit Valley development to the existing Eastridge LS and allow the Eastridge LS constructed in the 1980's to be removed from service. The existing Summit Valley LS has capacity to serve the area served by the Eastridge LS. Bid Opening – June 27, 2019, Construction Contract Award – August 13, 2019, Start of Construction – September 5, 2019. At the end of February, the Contractor has completed the project. The final inspection was completed and punch list items addressed. The project was accepted by Council. Engineer: SMC Consulting, Inc. (Chris Anderson)

<u>Class A Sludge / Co-Composting (WW0312):</u> This Project includes evaluation of biosolids co-composting via the windrow method to achieve Class A Biosolids for the Norman Utilities Authority (Owner) in Norman, Oklahoma. An evaluation of sites near the Water Reclamation Facility (WRF) will be evaluated as well. This scope of services also includes modification and update to Norman Water Reclamation Facility's existing Sludge Management Plan. Technologies were screened and Windrow Composting was determined by the Engineer to the best alternative due to capital cost and operational familiarity considerations. The engineering contract was approved November 2018.

Staff and Garver made multiple visits to similar facilities from April to June, Draft of the TM1 was submitted in July, and TM1 completed September 6, 2019

Engineer: Garver, Inc. (Steve Rice)

Septage Receiving Facility (WW0319): The Water Reclamation Facility (WRF) is often contacted regarding the possibility of taking trucked wastewater from hauling companies. Delivery of trucked wastes is not typically approved due to the undocumented quality of the trucked waste. Oklahoma City is currently the only municipal location in the metropolitan area for haulers to dispose of septage. The WRF could potentially generate revenue from companies hauling septage (septic tank clean-outs) and other acceptable wastes. Additionally, City of Norman residents utilizing a private sewage system could benefit through their private haulers having a closer disposal solution.

To allow for the new facility, the current WRF treatment processes must be protected which may require temporary storage of the trucked wastes delivered to the WRF while water quality testing is performed to verify its acceptability. Preparation of an engineering study and design is budgeted for FYE19 while construction is budgeted the following year. Engineering contract approved in April 2019, Staff and Olsson toured OKC septage facility in May. The TM1 was received in July and TM2 in March 2020. The draft report was received in May 2020 and significant revisions were requested and a revised report was received late in June 2020. Additional revisions were requested and will be completed in July.

Engineer: Olsson, Inc. (Kevin Rood)

WRF Waste Sludge Blower Replacement Project: The Water Reclamation Facility (WRF) currently utilizes blowers to mixed waste activated sludge to agitate the sludge to allow for proper thickening prior to feeding the anaerobic digesters. The existing blowers have reached the end of their useful life and their replacement is warranted in order to maintain reliable operations. The project was bid and awarded and the contractor is currently procuring the replacement blowers for project which have a long lead time. Plans and Specifications Advertised for Bids – December 2019; Bid Opening – January 23, 2020; Start of Construction – March 2020; Estimated Completion – July 2020

WATER PROJECTS:

Waterline Relocation: Robinson Under I-35 (WA0195): RFP 1314-28 distributed to consultants on 09/06/13; 14 proposals received 10/09/13; Alan Plummer and Associates (APAI) selected and NUA approved preliminary design contract on 01/28/14. Draft Engineering Report (ER) received 04/18/14 and Final ER received 09/25/14. NUA approved APAI Amendment 1 for final design 10/14/14; plans received 06/05/15 were submitted to ODOT 06/12/15; ODOT approved permit for proposed I-35 crossings. Final plans submitted to DEQ 01/12/16 and were approved 01/29/16. APAI submitted easement acquisition documents and all easements/ROW were executed and filed. Project advertised 04/21/16 and pre-bid conference held 05/15/16; 3 bids were received 05/19/16 with McKee Utility Contractors submitting low bid. Award, contract and bonds were approved by NUA 06/14/16 and work began 06/15/16.

Phase I project under I-35 included 3,440 linear feet (LF) of 30-inch water line (with 1,030 LF installed in 48-inch steel casing) and 3,400 LF 12-inch waterlines. McKee completed 30-inch waterline on 12/22/16 to qualify for early completion incentive. All work was completed ahead of schedule on 03/2317. Final change order #1 reconciled asbid to as-built quantities and incorporated early completion bonus for net increase of \$26,371.86 (or 0.79%) for a final contract amount of \$3,364,057. CO#6 and acceptance of the Phase I Robinson Waterline project was approved by NUA 06/27/17.

NUA approved Amendment No. 2 to APAI contract on 11/10/15 authorizing design of Phase II waterline between Crossroads Blvd. and the Brookhaven Water Tower. 80% plans received and are being reviewed by NUA staff as well as the Street and Traffic divisions of the Public Works (PW) Department. Staff is working with the PW Department to obtain conceptual approval of the proposed traffic control plan to be made a part of the construction documents. Flood Plain permit #598 approved 04/02/18 for open trench construction of Brookhaven Creek. 80% Plans returned to APAI 05/08/18; working toward advertisement in September 2018 with construction beginning in January 2019. Revised plans received 10/26/18 and were returned to APAI on 11/8/18 for revision. Revised plans received and submitted to DEQ 11/28/18 for review. Project advertised 12/27/18 and pre-bid meeting was held 01/8/19 with 11 contractors attending. Bids were opened 02/14/19 and six bids were received with Central

Contracting Services being the low bidder at \$2,845,591. NUA approved award to Central Contracting Services and approved contract and bonds on 03/26/19. Notice to proceed issued with contract time starting on 04/15/19 and continuing for 270 through 12/11/19. Preconstruction Conference held 07/18/19; Contractor initiated work installing steel casing and 30-inch piping under Brookhaven Creek 09/03/19. Payment of \$2,225,119 or 80% of the \$2,845,591 contract amount has been paid:

Construction has been slowed by numerous underground obstructions and requirement to work in only one lane of Robinson east of 36th; only 400 feet of pipe installed in last month or about 20 feet per working day.

Phase 1 waterline construction completed 12/06/19; piping installed across 36th Avenue 12/8/19 and road reopened. 12" WL going south completed 12/11/16 and bacteriological testing passed 12/13/19 allowing concrete placement to begin. Contractor opened 36th & Robinson on 12/16/19 to complete Phase 2.

Waterline completed to Brookhaven Boulevard; interconnections to Brookhaven shopping center and at Brookhaven Boulevard completed 02/07/20 after passing pressure test and obtaining safe bacteriological samples.

Waterline installation continued past Brookdale Boulevard to point just south of water storage tank on 03/06/20; Contractor continues preparations to make interconnections at Brookdale and at water storage tank at this time. Last segment of waterline flushed 04/02/20; pressure testing, chlorination and bacteriological sampling completed 04/10/20.Asphalt placement and other repairs completed on Robinson 04/17/20; project is essentially complete. CO#1 for \$193,130 approved by NUA 02/11/20 adding approximately 520 LF new waterline at proposed On-Cue just north of Highway 9 and west of Classen Boulevard. Work began 04/30/20 with about 300 feet 30-inch pipe installed. Payment of \$2,814,184.66 or 93% of the \$3,038,721 contract amount has been paid. Final Change Order in the amount of \$60,354.77 and Final Payment were approved by NUA June 9, 2020 for a total project cost of \$3,119,645.77. Project can be closed out.

Waterline Relocation: I-35 Widening (WA0196): Unbudgeted project necessitated by ongoing widening of I-35. Total budget of about \$500,000 estimated for replacing three waterlines associated with the I-35 project (24-inch at Briggs Street, 12-inch at Brooks Street and 12-inch at 24th Avenue SW and Highway 9). Team of SAIC/Poe and Associates will prepare design plans as an amendment to the Lindsey Street widening project. ODOT expected to reimburse waterline relocation costs at end of project. NUA approved design contract with SAIC and ODOT relocation agreements on 10/22/13. Design is underway. ODOT has required I-35 crossing at Briggs Street to be deepened to 28 feet below grade; construction costs will increase approximately \$450,000. Project advertised 04/29/14 and three bids were opened 05/22/14; Matthews Trenching was the low bidder at \$997,875. NUA approved contract on 06/10/14; work began 06/11/14 and must be complete by 09/01/14. Bore and encasement and waterline installation complete at 24th SW and at Brooks Street and at Briggs Street. NUA approved Final change order #1 and project acceptance on 12/23/14. NUA submitted 1st reimbursement request to ODOT and \$840,780 has been reimbursed by ODOT;. Final engineering invoice from Benham received and final payment has been made; staff will soon request ODOT reimbursement.

<u>Waterline Replacement: Interstate Drive (WA0245):</u> Project will replace approximately 7,500 feet of failing ductile iron water lines with PVC pipe to reduce service disruptions to customers and damage to driveways and streets. The project is located along North Interstate Drive from Sooner Fashion Mall north to Northwest Boulevard and along Copperfield Drive from Northwest Blvd. to Interstate Drive with an extension west into Springbrook Addition. New piping will include about 3,600 feet of 12-inch and 2,700 feet of 8-inch PVC pipe.

Engineer: Cardinal Engineering. Staff is coordinating this work with ongoing WL construction by Sooner Fashion Mall. Final plans submitted to DEQ 05/08/20. Easement acquisition in August 2020, Bid project in September 2020.

<u>Waterline Transmission: Timberdell and Chautauqua to Jenkins and Constitution – Segment D (WA0239):</u> Project will install approximately 4,800 feet of 24-inch PVC C900 along the south side of Timberdell Road and then along the east side of Jenkins Ave within Reaves Park to the south side of Constitution Avenue. The existing 12-inch ductile iron pipe within Reaves Park will be abandoned and services will be transferred over to the new main. This project was recommended by the 2003 Water Master Plan (Segment D) and the future connection down to Highway 9 will be done by a future construction project.

Additionally, the recommended portfolio for the 2060 Strategic Water Supply Plan recommended a future non-potable irrigation system from the Water Reclamation Facility to irrigate Reaves Park to reduce the demand on the water system. This project will now be designed and bid with an alternate to install the recommended 16-inch non-potable water line parallel to the proposed 24-inch potable water line. The easement was acquired from OU in

March; the engineering design was completed in June and submitted to DEQ. The DEQ permit was received in August and an invitation to bid was issued September 19, 2019, Bid opening was October 10, 2019. Due to the low bid prices for the reuse line, the contract award included the 16-inch reuse line. Additionally, an 8-inch water line replacement was added to the project to improve service reliability to the future Reaves Park upgrades. The existing line was installed in the 1940s. The project is complete for the original scope except for testing and disinfection and final cleanup. The 8-inch water line replacement within Reaves Park that was added to the project and has been installed. Project is complete except for final cleanup items.

Engineer: Poe & Associates, Inc. (Richard Grotte)

Waterline Transmission: Robinson Avenue Water Line Replacement (Phase III) – 24th Avenue NW to Flood Ave (WA0242): Project will reinstall approximately 6,800 feet of 30-inch PVC C900 along Robinson Avenue from just east of the 24th Avenue NW to Flood Avenue. The new 30-inch line will replace the existing 16-inch line. This project will also replace approximately 2,100 feet of 12-inch water line from Canterbury Street to Flood Avenue. After initial field investigation and discussions with potential contractors, an alternative alignment further away from utility conflicts was evaluated. The OU Board of Regents approved an easement to be donated to the City to allow for a more constructible alignment. The invitation to bid was in June, and contract will be awarded to Garney Companies Inc. in the amount of \$1,978,875.

Engineer: Alan Plummer and Associates, Inc. (Chris Ferguson)

Waterline Replacement: Flood Avenue - Robinson to Venture (WA0328): Project will replace approximately 12,700 feet of 16-inch water line from Robinson Street to Tecumseh Road, and about 2,900 feet of 12-inch from Tecumseh to Venture Drive with 16-inch C900 PVC pipe. The existing ductile iron pipe is not compatible with the corrosive clay soils. It is failing, causing service disruptions to customers and damage to driveways, streets, and yards. In combination with this project, the potential for using existing wells along Flood for blending back into the water system using the existing pipe after rehabilitation will be evaluated. Design is funded in FYE19, with construction funded in FYE20. Based on detailed field survey, the alignment appears to require the removal of the existing 16-inch line and installation of the new line in the same corridor. Water model simulations have indicated that this will not impact service levels but this work is going to be scheduled during the non-demand seasons to reduce the impacts of this outage. Comments on preliminary plans were provided to Engineer on April 3, 2020. Plans at 65 percent were received in June and are being reviewed by staff.

Engineer: CP&Y, Inc. (John Leavitt)

Gray Street Waterline Replacement (WA0202/WA0224): C. H. Guernsey and Company was selected for the design of the Gray Street Waterline Replacement. Plans are under review. CO#2 to Berry WL project will be considered on 10/25/16 adding 1,200 feet of 16-inch waterline along Main Street between Flood and Acres to the project; this was originally part of the Gray Street project. NUA approved Amendment #1 to Guernsey contract adding additional waterline replacements along Gray and Tonhawa under project WA0224. Work is being delayed due to desire to not have Gray Street under construction at same time as Main Street Enhancement by PW. Kickoff meeting held; Lemke Surveying completed survey work for project in late October; design process is underway. Supplemental survey data collected by drone flying over project area; accuracy and detail received is outstanding. Staff is working with the Street Department to install new waterline under 3 intersections associated with the Lahoma Street reconstruction project which crosses the Gray/Tonhawa WL Replacement project. NUA and Guernsey staffs walked majority of project 05/02/18 to finalize proposed location and construction methodology. Open trench construction with pavement repairs was generally chosen in lieu of directional drilling at increased depth with pavement repairs at entry points and service line locations. 50% plan review completed in May 2019; submittal of Railroad permit application in June: Floodplain permit submittal and hearing July/August. Completion of design in September, submittal to DEQ for permit in September, completion of railroad permit in September and invitation to bid October 24, 2019. Bid opening November 21, 2019. Project has been bid and awarded with construction began in March 2020. To-date, approximately 1,920 feet of pipe has been installed of the 11,850 linear feet in the project. Engineer: Guernsey (Larry Roach)

<u>Water Treatment Plant Expansion (WA0291/WB0292):</u> Phase II design will include the installation of ozone treatment, UV treatment, an upgrade of the high service pumps serving the pressure plane, on-site chlorine generation, new ammonia feed system, and additional SCADA improvements. Design contract with Carollo approved

by NUA 05/22/12. Ozone pilot study began in October 2012 and was complete March 2013. Pilot plant results and preliminary engineering plans presented to NUA 07/08//14 with total project costs estimated at \$33,540,000. NUA approved final engineering contract on 02/10/15. Design plans completed and DEQ approved all variances associated with the project. The NUA loan in the amount of \$31 million was approved by OWRB January 17, 2017. NUA approved acceptance of loan January 24, 2017 and loan closing was January 31st with a rate of 2.81% locked in for 15 years. Bids were opened 3/23/17. Low bidder was Foley Company of Kansas City, Missouri followed by Archer Western and Garney. NUA approved Foley Company's contract and bonds in the amount of \$29,990,165 5/9/17. Staff held the pre-construction meeting 5/31/17 and construction is underway. Contractor began by relocating lines that interfered with new chemical building. Contractor completed 104 required piers for chemical building, installed all ductwork, poured slab and building is roofed and equipment being installed. Contractor excavated ozone contact basin, installed piping, poured slab and completed roof. Contractor excavated UV building. poured slab and inside is nearing completion. Large piping was completed that passed through UV building. First partial plant shutdown was held 11/13/17 and the project has required 5 others to date. All shutdowns have been without issue. The high pressure plane pumps have been installed and were placed back in operation 4/23/19. Maintenance building is 99% complete and is being used to store equipment. Administration building is 90% complete. Contractor has completed \$29,189,188 of the \$30,515,462 total contract. Staff is running new Sodium Hypochlorite (chlorine) system for two weeks and if successful with no disruptions, gas chlorine cylinders will be shipped back to manufacturer. The new Liquid Ammonium Sulfate (LAS) is currently be fed as well as Fluorosilicic acid (fluoride). Once the old chlorine units are removed. The water treatment had two unexpected pipe failures December 13 & 14 and caused a shut down over the holidays. Repair was made and plant restart January 13, 2020. Buildings are near completion and Contractor is requesting final inspections for Certificates of Occupancy, Project completion date is now anticipated to be end of June 2020. City Manager approved CO#3 in the amount of \$37,487.96 for NUA approval since under \$40K on April 3, 2020 and approved CO#4 in the amount of \$37,614.13 May 18, 2020 and CO#5 in the amount of \$20,398.71. A final change order is expected upon completion of the project.

.Engineer: Carollo Engineers (Amber Wooten)

<u>FYE15 Water Wells and Supply Lines:</u> Staff issued RFP 08/18/15 for water rights permitting, well field design, test and production well design, well house design and distribution system improvements. 14 proposals were received 09/14/15; staff selected several consultants and followed with contract negotiations. On 02/09/16 the NUA approved APAI contract K-1516-85 to update of our city wide water model; NUA approved contract with Cowan to perform water right permitting through the OWRB on 02/26/16 and approved contract with Carollo to perform well field design, and test/production well design on 06/14/16. On 2/14/17 NUA approved contract with Garver to study pros and cons for utilizing horizontal well technologies for one of our wells. Each project is broken out below.

Water Rights Permitting Cowan (WA0212): Cowan submitted a technical memorandum 7/1/16 for staff's review and edits. Staff met with Cowan Group December 7, 2016 and decided to pursue Option #3 of the technical memorandum which states to obtain additional water rights for the upcoming 10-12 wells. Cowan was in a holding pattern until Carollo finalized well sites. Cowan received well locations from Carollo March 12, 2018 and have been revising approach for seeking water rights to fully utilize former prior water rights. Cowan has also been asked to plan a water right coverage to fully supply the horizontal well. Cowan discussed at the well kick-off meeting January 23, 2019 that prior water rights would be transferred for all new wells drilled and they will provide sufficient water rights so that additional rights are not needed at this time. Cowan has begun the water rights process and submitted an application to OWRB on behalf of NUA. Due to COVID 19, OWRB are all working from home and seem to be behind on processing our request. Application is under review by OWRB and they stated it should go before their board in August 2020. Public notice requirements will be sent to us from OWRB.

Engineer: Cowan Group (Tim Ward)

Well Field Blending at WTP (WA0214) and Wellfield Design:

<u>Blending</u> - This project considers a portion of our well field as non-potable and assumes non-potable waterlines from about 7 southern wells can be blended with treated water at our WTP to meet a new Chromium MCL (and/or other metals of concern) by constructing about 5 miles of waterline. Projects will be constructed in phases to continue utilization of our existing well field as much as practical. Carollo reviewed a blending scheme and directed staff to

gather additional information related to past gross alpha results. The first batch of samples suggested merit to the idea that Uranium data might contribute more to the readings and thus inflate our past reported values. Additional samples were taken May 2017 and results again confirmed Uranium data was incorrect and inflating the reported values. Staff and Carollo met with DEQ to share new compliance data findings on April 6, 2017 and again on July 6, 2017 to request permission to reactivate wells. DEQ agreed but directed Norman to use an Oklahoma DEQ certified lab to perform first quarter compliance sampling beginning September 2017. Samples were collected in September by staff and the results came back once again that the water met all rules regarding gross alpha. DEQ agreed the samples were safe regarding Adjusted Gross Alpha and DEQ inspected and gave permission for the wells to be returned to service in January 2018. The well field count is now up to 32 active wells from being at 31 previously. APAI is performing a model scenario for the well field and defining potential blending/treatment sites for the wellfield as a whole. APAI presented their draft findings in a webcast Monday May 11th and submitted a draft technical memorandum May 29, 2020. Staff reviewed tech memo and made edits. APAI made corrections and submitted final report 7/1/20. Staff will determine next step for this project.

Wellfield - Carollo and staff held a coordination meeting with ACOG the morning of July 18th and also held a kickoff meeting the afternoon of July 18, 2016. ACOG prepared a map showing potential thick sands that will be targeted for future wells. Carollo used this information along with GIS data and composed a more robust map to better define future well locations to pursue. Additionally, it was decided to stay with $\frac{1}{2}$ mile spacing so that maximum yields can be achieved. Carollo received modeling information from APAI which allowed them to proceed with optimizing the best well sites based on proposed groundwater treatment plant sites. Carollo prepared a Draft Technical Memorandum (TM) and staff provided comments and 45 potential well sites were selected. Carollo performed an optimization model and 20 of the 45 well sites stand out as sites to begin with. Carollo and staff prepared an addendum to their contract and it was approved by NUA 2/13/18. The next step is to approach land owners to negotiate test well sites. A Frequently Asked Questions sheet has been drafted and will be utilized with potential well site land owners. Test wells are expected to begin in September 2018. Staff is working with Carollo and their subconsultant to obtain necessary access agreements for potential well sites. Approximately 8 landowners are interested and staff is moving forward with securing documents for 5 of them. Well Construction bids were opened and read aloud October 18, 2018. Layne Christiensen was low bidder and a contract in the amount of \$4,714,421.72 was approved November 27, 2018 at NUA meeting. Held kick off meeting January 23, 2019 and again met February 27, 2019.

Layne has drilled all test holes and plan to begin final well drilling January 2020. All 11 well site easements and deeds were approved by NUA on October 22, 2019. The NUA also approved CO#1 December 10, 2019 for Layne's contract to add 3 additional wells to the original 6 as shown in the contract. This change order also added days to contract and completion date is now December 2020. Held kick off meeting January 23, 2019 and since Layne had drilled all test holes, the plan was to begin final well drilling January 2020. Layne's rig was under repair so final well drilling didn't begin until February 18, 2020. The first screened well (Park) is complete and awaits pump testing. Crews have completed all wells and are now completing monitoring wells. They currently have 2 of the 6 monitoring wells complete and should be done with all drilling activity by June 26, 2020. Well house construction is underway and the first slab was poured June 11, 2020 at Simpson and crews have poured pads for Shaver and Hays Engineer: Carollo Engineers (Rebecca Poole)

Master Meter Project – Bids to install 10 master meters were opened 7/24/14. An agenda item was taken to Council but suspended until written documentation was obtained from USPS, MNTC, JD McCarty, and Veterans Center. On 6/19/17, staff received approval from USPS to install one meter and vault to accommodate a water line project they had underway. This project was completed 7/27/17. The permission letter they provided allows staff to complete the two other sites for USPS. Staff has made contact with MNTC and is scheduling a meeting in April 2018 to obtain similar written documentation to allow for the 3 new meter vaults to be installed on their property. Staff contacted the State of Oklahoma to obtain similar letter for JD McCarty and Veterans Center which have 2 new meter vaults each to be installed. Staff met with State of Oklahoma Real Estate officials and they requested additional information but seem amenable to our project. Additional documents were sent for their review. They emailed they are currently reviewing documents as of 6/6/18. Staff is designing a project along Robinson that will front the J.D. McCarty Center and the Veteran's Center. Staff is planning to meet with State officials as part of that effort. Staff has been unable to establish a meeting with MNTC. Though MNTC, JD McCarty, and Veterans Center are not onboard with installing master meters at this time, staff will work with USPS to install 2 additional meters at their facility. Our consultants for

the Robinson water line project 24th NE to 12th NE have begun discussion with OMES and Department of Mental health regarding easements for both water line and meter vaults. Staff anticipates having an agreement established by August 2020.

WTP Backwash Tower Resurfacing Project – This project has been delayed as to not interfere with the current ongoing WTP Phase II project. Staff met with a consultant that will be preparing the specifications for recoating. NUA approved design contract with Dunham Engineering on September 25, 2018. Preliminary design was complete by June 2019 and construction will not be scheduled until October 2019 after the work of WTP Phase II is complete. Project opened bids September 12, 2019. CTEX from Texas was apparent low bidder at \$220,000. NUA approved the contract October 22, 2019. CTEX met with staff March 9, 2020 at the WTP and held a preconstruction meeting. After looking at site, CTEX and WTP staff agreed that April 1, 2020 is a good start date for the project. Crews were delayed and mobilized to site April 13th. The contractor for this project began in April and completed the project June 10, 2020. NUA will consider approval for the final payment and project acceptance July 14, 2020. Once approved, project can be closed out Engineering (Joe Seiter)

<u>Water Metering / Billing Audit Project – This project began in March 2018.</u> Staff is working along with a meter consultant to randomly check approximately 130 domestic meters for accuracy. Meters were sent April 10, 2018 to a third party testing facility that will be used to verify accuracy of measurements. The consultant will compile findings within a report for staff review. Report was received October 2018 and after reviewing results, the ROI was not favorable at this time. Staff is continuing research for a better method to improving our meter replacement program.

Robinson Water Line: WTP to 24th Ave NE — Freese and Nichols, Inc. was selected as the consultant for the 42-inch water line project from the water treatment plant to 24th Avenue NE. This project was identified by the water model and is also being expedited to dovetail into the Public Works 24th Street road widening project. NUA approved the contract for Freese and Nichols, Inc. at their September 11, 2018 meeting to begin design of this 42-inch water line project. Staff received 50% plans December 10, 2018 and returned comments January 7, 2019. Consultant made revisions and met again with staff on January 23, 2019. Project opened bids April 25, 2019 and McKee Utility Contractors, Inc. was low bidder at \$1.46 million. Construction clearing began July 2019 and project is 97% complete. Crews began disinfecting lines today and have yet to install lid. The disinfection process was delayed due to the WTP being offline since December 15th through January 13th. Recent rains delayed equipment to the vault site which delayed vault lid installation. Project was completed end of February and final inspection was held March 16, 2020. Contractor finalized punch list items and project final payment and acceptance was approved by NUA May 26, 2020. Project will be closed out.

Engineer: Freese and Nichols, Inc. (Clay Hernden)

Robinson Water Line: 24th Ave NE to 12th Ave NE – Jacobs Engineering was selected as the consultant for the 30-inch water line project from 24th Ave NE to 12th Ave NE. The consultant prepared scope and fee in January for staff to consider and contract negotiations are underway. A scope and fee have been agreed to and a contract was considered by NUA November 26, 2019. Project kickoff meeting is scheduled for week January 14th. Consultant met with staff 5/6/20 and reviewed 35% plans and specs. Soil borings were taken along Robinson on May 27, 2020. Received updated 35% plans 7/6/20 and staff will review. Engineer: Jacobs Engineering (Lars Ostervold).

Water Line Replacement, Parsons Addition (WA0246): A contract (K-1819-87) with Cabbiness Engineering, LLC was approved by NUA 12/11/18. Survey has been completed and a technical design memo was completed and reviewed by staff. With the existence of several large trees that will be impacted, staff held a neighborhood meeting 4/10/19. Approximately 21 people attended representing OU, sororities and fraternities, homeowners and landlords. The direction taken from the meeting was to start this summer and work through fall until completion. Staff offered summer work only and perform over two summers but it was unanimous 21 votes to start and continue until finished. It was also decided to install water line in the street and not under sidewalks. Staff followed up with meetings between consultant and potential contractors and it was decided that the project must be split into 2 summer phases to be successful. Phase I will begin July 1, 2019 and complete December 2019. Phase II is scheduled to begin May 15, 2020 and complete August 15, 2020. Bids were opened June 13,

2019 and SW Water Works was low bidder at \$828,112. NUA approved contract June 25, 2019 and construction began July 8, 2019. Crews completed last concrete pours November 5, 2019. A final walk through was performed Friday November 8, 2019 and project had minor punch list items to complete. NUA approved final asbid to as-built quantities change order January 28th. Phase II will be delayed until March 2021 and construction will begin May 11, 2021.

Engineer: Cabbiness Engineering, LLC (Sean Price)

<u>Water Wells Water Line: 108th & Tecumseh</u> – Cardinal Engineering was selected as the consultant for one of the well water line projects. The consultant prepared scope and fee for staff to consider and NUA approved contract November 12, 2019. Project design is underway and project will bid June 2020. Staff is finalizing review of 60% plans. Final plans and specs expected for advertising July 16, 2020. Engineer: Cardinal Engineering (Josh Risely)

Water Wells Water Line: 60th and Franklin – Garver Engineers were selected as the consultant for one of the well water line projects. The consultant prepared scope and fee for staff to consider and NUA approved contract November 26, 2019. Project kickoff meeting was held December 19, 2019 and design is 60% complete. Staff will advertise July 16, 2020 and will open bids August 6, 2020. Garver Engineers (Daniel Ethington)

<u>Cascade Water Tower & Lindsey Water Tower</u> – Dunham Engineering is performing detailed inspections on these two towers May 11th and will prepare engineered cost estimates to use for budgeting and planning purposes. Staff has prepared and NUA will consider a design contract with Dunham Engineering July 14, 2020 for the Cascade Tower Resurfacing Project. Staff is reviewing the costs of Lindsey tower. Project. Engineer: Dunham Engineering (Joe Seiter)

SANITATION CAPITAL PROJECTS:

Truck Wash Facility (SA0015)/ Container Maintenance Facility (SA0009) / Household Hazardous Waste Facility (SA0012): Project will provide an automated truck wash facility at the sanitation storage yard north of the WRF and will provide a new enlarged maintenance, and regulatory compliant welding and painting facility for solid waste collection containers. The Truck Wash Facility will be available to all City vehicles, but designed primarily for large equipment. For the container maintenance facility, the newly proposed location is on the site of the Transfer Station. Upon learning of the potential bus wash facility to be constructed at the North Base Campus, Utilities and Public Works have begun discussions regarding coordination of the facilities and the potential to combine efforts into facility capable of meeting needs for both departments and the City.

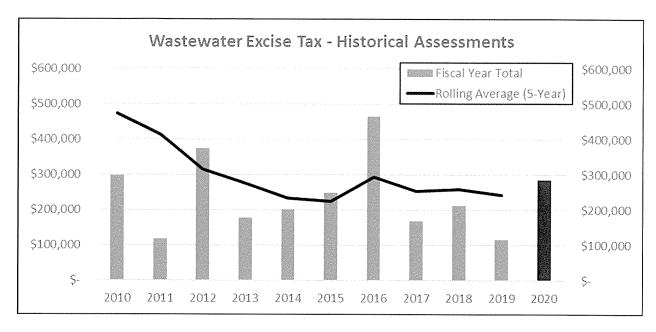

A Household Hazardous Waste Facility will also be included within this project. This Facility is necessary to allow for City residents a timely disposal option for household wastes that cannot be disposed using their normal polycart service. Currently, an annual collection day is held for City residents to dispose of their items but this has proven to be challenging in recent years.

Preliminary design efforts have identified potential improvements to the final product that warrant modifications to the project scope that required a contract amendment with the Architect. Amendment No. 1 was approved by City Council in February 2020 and included changes to the site for the Household Hazardous Waste and Container Maintenance facilities and entry drive modifications to the Transfer Station facility to improve accessibility and safety for vehicles entering and leaving the facility.30% plans received in April; 70% plans received on May; Final plans July.

Architect: Studio Architects, LLC (George Winters)

RECOUPMENT/PAYBACK PROJECTS:

WRF Investment Fee/Wastewater Excise Tax: Staff evaluated the Wastewater Excise Tax on 5 commercial entities last month. Assessments of \$2,760.00 were made on 4 entities whose projects will increase wastewater flows (1 application not assessed due to no increase in wastewater flows). Through June and the end of the fiscal year, 93 commercial properties were reviewed and a total of \$286,174.81 has been assessed to the 64 entities that will increase wastewater flows for the respective property. Below are graphs showing the amount assessed and the number reviewed.

NW Sewer Study: 36th Interceptor & Force Main Payback projects established in 1998/1999: Because of abandonment of Carrington LS, two resolutions reducing number of parcels requiring payback approved 01/10/12. Releases for many properties now served by North interceptor system projects were filed of record in 2012. NUA approved appropriation of payback funds on 12/05/17. Collected payback fees of \$697 for Jolley Addition on 03/23/18. NUA approved appropriation of payback funds 12/10/19 allowing staff to issue payback checks to developers in late December 2019.

<u>Sewer Service Area 5 Payback</u>: Payback project established by R-0304-13 for NUA share of sewer improvements along Highway 9 from the Summit Valley Lift Station to the USPS.

North Porter Waterline Payback: Payback project established 04/12/05 for 12-inch waterline constructed by Calvary Free Will Baptist Church along Porter Avenue from Tecumseh Road north. Total payback to date is \$0.00 of potential \$61,177.

<u>36th Avenue NW Waterline Payback</u>: Payback project established 08/24/99 for 24-inch waterline along 36th Avenue NW from Tecumseh Road to SE 34th in Moore. Total payback to date is \$65,123.

24th Avenue NW Waterline Payback: Payback project established 04/22/08 for 24-inch waterline along 24th Avenue NW from convention center to Tecumseh Road. UNP Professional Center Lot 5 paid \$8,848.53 on 10/13/17 and Shops at Tecumseh Crossing paid \$9,485.15 on 10/06/17; total payback to date is \$87,074 of original project cost of \$346,134.

<u>Post Oak Lift Station Payback:</u> Payback project approved 04/14/09 for sewer and lift station improvements to serve the Links development and other properties in SE Norman. Construction complete and final payback costs approved 01/25/11. Parcel 5 payback of \$15,717.09 paid 12/15/15; total of \$15,717.09 paid to date and will be returned to Links at end of fiscal year. Payback funds returned to Links in January 2018. Links check reissued in July 2019 as previous check was never cashed.

Interstate Drive Waterline Payback: NUA approved new payback project on 04/22/14 for waterline improvements in University North Park in conjunction with the extension of Interstate Drive. Construction was complete in late 2015. Staff has finalized project costs, payback amounts and the associated agenda item. This agenda item was approved 12/10/19 concurrently with the proposed Ruby Grant Payback project described below. Hudiburg Subaru billed \$28,540 on 04/24/20 and UNP was billed \$32,963 for detention pond on 04/24/20.

Ruby Grant Waterline Payback: NUA will soon consider a new waterline payback project for waterline improvements along Franklin Road in conjunction with the Ruby Grant Park Improvements. Norman Forward through the Parks Department will fund 50% and the NUA will fund the remaining costs to be paid back over 20 years as property to the north develops. Design plans are complete and project will bid 07/25/19. Ruby Grant Waterline Payback project approved by Council 12/10/19. Construction of 12-inch waterline is nearing completion. Battison Honda is considering new development along Interstate Drive north of Franklin Road that will connect to the Ruby Grant

ENVIRONMENTAL CONTROL ADVISORY BOARD (ECAB)

- 1. Provided staff liaison support including attending meetings, preparation of minutes, and issue research.
- 2. ECAB members developed environmental tips and practices to be distributed to the media.
- 3. Members are working on public education material and projects for water issues and recycling.
- 4. Subcommittee is researching implementation of the US Mayors' Climate Protection Agreement.

MISCELLANEOUS ACTIVITIES

 Staff maintain and loan out recycling containers for special events. Containers are routinely used at the OKC Memorial Marathon, Earth Day, May Fair, Summer Breeze concerts, Midsummer Nights Fair, Groovefest, and 2nd Friday Art Walks.

* revenue report not available

- 2. Working on Phase II of the Fats, Oils and Grease Program (FOG) to include OU businesses, fraternities, sororities, and long-term care facilities.
- 3. As of June 30, 2020, approximately 296,300 gallons of grease/solids had been prevented from entering the sanitary sewer in FYE 20 as a result of the FOG program.
- 4. Staff is working with other departments to increase energy efficiency i.e. turning off computers, duplex printing, anti-idling, methane recovery, and retrofitting pumps with variable speed drives.
- 5. DEQ and staff are working with the Product Stewardship Institute on a statewide effort to initiate take-back programs similar to Oregon's take-back program for paint.
- 6. Implementing a Dental Amalgam Program to comply with new federal regulations.
- 7. Working on annual renewals for participants in the FOG Program.
- 8. Staff is assisting with plans for a permanent HHW facility.
