Ken Komiske
Utilities Director
City of Norman

Dear Ken;

In 2005, we purchased from the City an access easement on the east side of the former Hall Park lagoon area for \$5,000. Copies of the paperwork of the transaction are enclosed. That easement now appears to be filled with piles of shredded debris, and access is impossible.

Jane and I would like to see one of two things happen soon: 1) all the material moved, the roadway repaired and the easement restored to allow access as before, or preferably, 2) the City re-purchase the easement for the original price of \$5,000. We're not in a big hurry for one or the other to take place, but we would like to know, soon, which action the City prefers and your timetable. Thanks, and we look forward to hearing from you.

George and Jane Ingels
