EXHIBIT E DEMONSTRATION SITE DISCOUNT

New World has provided City a significant discount in exchange for the privilege of using City's site for demonstration purposes. Accordingly, after the Licensed Software has been delivered and installed, City agrees to act as a demonstration site for prospective New World Citys. City also agrees to serve as a reference or remote demonstration site on the telephone for prospective New World Citys. By agreeing to be a demonstration site, City is not necessarily endorsing the New World software and City will not actively participate in any type of marketing and advertising campaign for or on behalf of New World.

Demonstrations will be coordinated with the appropriate City personnel and will be scheduled, with City's permission, to minimize the interruption to City's operations. New World will provide City reasonable notice for preparation.
