Body

BACKGROUND: This item is a final plat for Bio-Cide East Park Addition, Section 2, and is generally located 760-feet north of the intersection of Flood Avenue (State Highway No. 77) and 24th Avenue N.W on the east side of Flood Avenue.

City Council, at its meeting of October 5, 1982, adopted Ordinance O-8283-17 placing this property in I-1, Light Industrial District and removing it from A-2, Rural Agricultural District. The City Development Committee, at its meeting of January 22, 2019, approved the program of public improvements, site plan and final plat for Bio-Cide East Park Addition, Section 2, and recommended that the final plat be submitted to City Council for consideration.

The final plat consists of 1.674 acres and one (1) industrial lot with proposed offices.

DISCUSSION: Staff has reviewed the required construction plans for public improvements. Public improvements for this property consist of water lines with fire hydrants, street paving (24th Avenue N.W., stormwater improvements and sidewalk improvements (Flood Avenue).

The property contains WQPZ (Water Quality Protection Zone). Staff has reviewed and approved the submittal by the owner/developer's engineer. There are no proposals of building within the WQPZ. Covenants have been reviewed by the Legal Department addressing the WQPZ.

A traffic impact fee in the amount of \$259.56 will be required to be submitted prior to filing the final plat.

STAFF RECOMMENDATION: The final plat is consistent with the preliminary plat. Based upon the above information, staff recommends approval of the final plat, acceptance of the public dedications contained therein and authorization of the Mayor to sign the final plat subject to the submittal of a traffic impact fee in the amount of \$259.56, submittal of subdivision bond/cash surety or the completion and acceptance of the public improvements for Bio-Cide East Park Addition, Section 2.
