List made in early June of residents that are willing to stand against the relocation of the Kitchen for the homeless to Reed Ave. We are against the huge increase of traffic of homeless persons in our densely residential, impoverished neighborhood 4 blocks from Jefferson Elementary and Special Needs Schools (a block away) and Longfellow Middle school (a block from the west end of Jefferson.

The Planning committee admitted that no background, psychiatric, or substance abuse will be investigated of the homeless diners that will relocate. No public roads, just small dark neighborhood road and alleys exist peripherally to this construction site that is planned. I speak from the consensus of those listed.

Thank you.

Sue Sanders
