Text of Legislative File K-1819-61

Body

BACKGROUND: The Association of Central Oklahoma Governments (ACOG) is responsible for the administration of the Unified Planning Works Program (UPWP) in the Oklahoma City Metropolitan Area. The program's purpose is to maintain a comprehensive, continuing, and cooperative planning process for the region. The Oklahoma Department of Transportation provides Federal Highway Administration funds for this planning process and the many tasks associated with it, which include activities such as travel time/delay studies, monitoring of intersection related accidents, traffic data collection, traffic signal monitoring, and congestion management.

DISCUSSION: During the last twenty-three years, our City has been able to participate in the program by collecting traffic data at a number of locations throughout the City. For Fiscal Year 2019, ACOG has offered us

\$10,400 in federal funds to cover the cost associated with this activity. These funds will be reimbursed to the City upon completion of the work.

The Traffic Control Division collects traffic data on a routine basis. The additional funds made available through ACOG have allowed us to expand our program and offset some of the local expenses associated with this work activity. In order to receive these funds, the City must enter into a contractual agreement with ACOG. Staff and ACOG officials developed contract K-1819-61 for this specific purpose. The City Attorney has reviewed this document and found its content to be acceptable.

Reimbursement funds will be receipted into the ACOG Traffic Data Grant revenue account (022-0000-331.13-12).

RECOMMENDATION: Staff recommends the execution of Contract K-1819-61 with Association of Central Oklahoma Governments for the collection of traffic counts during Federal Fiscal Year 2019. To offset the costs associated with the maintenance and replacement of the equipment used for this activity, it is also recommended that a \$10,400 appropriation be made from the Special Grants Fund balance (account 022-0000-253.20-00) to Traffic Signal Parts (account 022-5023-429.32-12).
