

GROUP S: RYPEN

PART 1 – GENERAL

SCOPE

Work includes materials, delivery and installation.
Furnish and install all furnishings as specified herein.

SUBMITTALS

Product data: Manufacturer's descriptive literature shall be submitted, indicating materials, finishes, construction and installation instructions, and verifying that product meets requirements as specified.

Manufacturer's recommendations for maintenance and cleaning shall be included.

Samples: Submit samples of each exposed finish, fabric and leather (which will be used for actual production) to Interior Designer for verification and approval prior to ordering.

QUALITY ASSURANCE

Supplier: The manufacturer, subsidiary or licensed agent shall be approved to supply the products specified, and to honor any claims against the product presented in accordance with the warranty.

Installer: The installer or agent shall be qualified to install the specified products by prior experience, demonstrated performance and acceptance of any requirement of the manufacturer or any subsidiary or licensed agent. The installer shall be responsible for an acceptable installation.

DELIVERY, STORAGE AND HANDLING

Product shall be delivered to the project site in manufacturer's original packaging.

Product shall be handled and stored to prevent damage to materials and finishes.

PART 2 – PRODUCTS

Substitution requests: Burden of proof that proposed substitutions shall be equal in quality and function to the specified product is on the Bidder.

Acceptable manufacturers: Rypen or approved equal.

NESTING DISPLAY TABLE

Construction: The table shall be constructed with 16-gauge bended steel shell and 11-gauge steel ribs. The laser-cut welded perforated steel shell and ribs shall be powder coated in white. The filler panel shall be powder coated in grey. The adjustable shelves to be fastened to perforated steel with clips and protective surface on back-side. Heavy duty casters shall be provided in white color with locks.

WEDGE DISPLAY

Construction: The outer shell shall be constructed with white perforated 16-gauge bended steel shell. The inner shell shall be constructed with power coated 16-gauge bended steel shell. The perforated, welded shell shall be supported with vertical ribs both sides.

Caster: Heavy duty 4" h swivel casters [soft wheel] shall be provided with locks.

PART 3 – EXECUTION

Subcontractor shall be responsible for inspection on project site and approval of installation conditions for this work.

Installation shall comply with manufacturer's specification, standards and procedures.

Clean finished installation of dirt and finger marks. Leave work area clean and free of debris.
