These discussions have resulted in a proposed agreement by and between City of Norman, Oklahoma and Cleveland County, Oklahoma to share labor, equipment, materials, and funding of reconstruction attributable to the portion of the project being completed in each city's limits. The funding requested for participation in this project has been established based upon an Engineer's Estimate provided by Cleveland County, Oklahoma in the amount of \$125,000. This funding is intended to provide for the cost of materials, labor and equipment necessary for completion of construction within the limits of the City of Norman. The City of Norman will also assist Cleveland County personnel in the construction of this one (1) mile stretch of roadway by providing asphalt paving services with Public Works Streets Division staff and equipment.

Work to be completed on this project will include the removal of existing asphalt roadway surface and modification of the subgrade below to establish a proper roadway base prior to resurfacing with planned seven (7) inches of asphalt. Any drainage structures running under this portion of roadway needing repair or replacement will be addressed in tandem with the roadway construction and ditch lines will be cleaned out or re-shaped as needed to maintain existing drainage. New pavement markings will be placed once the roadway surface has been completed.

The attached map details the extent of each participating entity's limits of financial responsibility and also highlights the inter-local collaboration necessary to complete this one (1) mile section of roadway.

Funds in the amount of \$125,000 for participation in the agreement are recommended to be transferred from the Street Maintenance Rural Road Improvements Program Project - Tecumseh Road, 156th Avenue N.E., to 180th Avenue N.E., Construction (Account Org 50596696; Object 46301; Project SC0695) to Street Maintenance Asphalt Pavement Maintenance Program Project - 48th Avenue N.W. from Indian Hills Road, 1-mile north to S.W. 34th Street, Construction (Account Org 50595511; Object 46101; Project SC0701).
